The Downtown The New York Art Scene 1974 1984:

The Downtown Book Marvin J. Taylor, Fales Library, Austin Museum of Art, 2006 Published in conjunction with the first major exhibition of Downtown art The Downtown Book brings the Downtown art scene to life exploring everything from punk rock to performance art 150 photos **The Downtown Show** Andy Warhol Museum, 2006 **The Downtown Show**, 2006

The Downtown Book Marvin J. Taylor, 2006 Cultural Studies and Anti-Consumerism Sam Binkley, Jo Littler, 2014-02-25 Anti consumerism has become a conspicuous part of contemporary activism and popular culture from culture jams and actions against Esso and Starbucks through the downshifting and voluntary simplicity movements the rise of ethical consumption and organic and the high profile of films and books like Supersize Me and No Logo A rising awareness of labor conditions in overseas plants the environmental impact of intensified consumer lifestyles and the effects of neo liberal privatization have all stimulated such popular cultural opposition However the subject of anti consumerism has received relatively little theoretical attention particularly from cultural studies which is surprising given the discipline's historical investments in extending radical politics and exploring the complexities of consumer desire This book considers how the expanding resources of contemporary cultural theory might be drawn upon to understand anti consumerist identifications and practices how railing against the social and cultural effects of consumerism has a complex past as well as present and it pays attention to the interplays between the different movements of anti consumerism and the particular modes of consumer culture in which they exist In addition as well as using cultural studies to analyse anti consumerism it also asks how such anti consumerist practices and discourse challenges some of the presumptions and positions currently held in cultural studies This book was previously published as a special issue of Cultural Studies *Text and Drugs and Rock 'n' Roll* Simon Warner, 2013-03-14 *Text and Drugs and Rock n Roll* explores the interaction between two of the most powerful socio cultural movements in the post war years the literary forces of the Beat Generation and the musical energies of rock and its attendant culture Simon Warner examines the interweaving strands seeded by the poet novelists Jack Kerouac Allen Ginsberg William Burroughs and others in the 1940s and 1950s and cultivated by most of the major rock figures who emerged after 1960 Bob Dylan the Beatles Bowie the Clash and Kurt Cobain to name just a few This fascinating cultural history delves into a wide range of issues Was rock culture the natural heir to the activities of the Beats Were the hippies the Beats of the 1960s What attitude did the Beat writers have towards musical forms and particularly rock music How did literary works shape the consciousness of leading rock music makers and their followers Why did Beat literature retain its cultural potency with later rock musicians who rejected hippie values How did rock musicians use the material of Beat literature in their own work How did Beat figures become embroiled in the process of rock creativity These questions are addressed through a number of approaches the influence of drugs the relevance of politics the effect of religious and spiritual pursuits the rise of the counter culture the issue of sub cultures and their construction and so on The result is a highly

readable history of the innumerable links between two of the most revolutionary artistic movements of the last 60 years

The Dying City Brian L. Tochtermann, 2017-05-08 In this eye opening cultural history Brian Tochtermann examines competing narratives that shaped post World War II New York City As a sense of crisis rose in American cities during the 1960s and 1970s a period defined by suburban growth and deindustrialization no city was viewed as in its death throes more than New York Feeding this narrative of the dying city was a wide range of representations in film literature and the popular press representations that ironically would not have been produced if not for a city full of productive possibilities as well as challenges Tochtermann reveals how elite culture producers planners and theorists and elected officials drew on and perpetuated the fear of death to press for a new urban vision It was this narrative of New York as the dying city Tochtermann argues that contributed to a burgeoning and broad anti urban political culture hostile to state intervention on behalf of cities and citizens Ultimately the author shows that New York's decline and the decline of American cities in general was in part a self fulfilling prophecy bolstered by urban fear and the new political culture nourished by it Weaving Time 2015

Kyunghee Pyun, 2015-08-12 A Catalogue of the third archive exhibition from the AHL Foundation's Archive of Korean Artists in America **The American Politics of French Theory** Jason Demers, 2019-01-01 Working from the premise that May 68

is a shorthand that delimits an intensive decade of global revolt Jason Demers documents the cross pollination of French philosophy international activist movements and American countercultures From the assassinations of Martin Luther King Jr and George Jackson to the revolt at Columbia University the 1968 Democratic National Convention Woodstock and the Weather Underground Demers writes French theory into a constellation of American events and icons uncontained by national borders More than a compelling new take on the history of theory *The American Politics of French Theory* develops concepts gleaned from the work of Derrida Deleuze Guattari and Foucault providing new tools for thinking about translation theory and politics By recontextualizing French theory within a complex fabric of mass communication and global revolt Demers demonstrates why it is politically potent and methodologically necessary to think of translation associatively
