Union's downfall Illuminating the workings of the American art market this study fills a gaping lacuna in the history of nineteenth century US art Kimberly A Orcutt draws from the American Art Union's records as well as in depth contextual research to track the organization's decisive impact that set the direction of the country's paintings sculpture and engravings for well over a decade Forged in cultural crosscurrents of utopianism and skepticism the American Art Union's demise can be traced to its nature as an attempt to create and control the complex system that the early nineteenth century art world represented This study breaks the organization's activities into their major components to offer a structural rather than chronological narrative that follows mounting tensions to their inevitable end The institution was undone not by dramatic outward events or the character of its leadership but by the character of its utopianist plan *All the Mighty World* Gordon Baldwin, Malcolm R. Daniel, Sarah Greenough, Roger Fenton, 2004 Roger Fenton 1819-1869 was England's most celebrated photographer during the 1850s the young medium's most glorious moment After studying law and painting Fenton took up the camera in 1851 and immediately began to produce highly original images During a decade of work he mastered every photographic genre he attempted architectural photography landscape portraiture still life reportage and tableau vivant This volume presents ninety of Fenton's finest photographs exactly reproduced Six leading scholars have contributed nine illustrated essays that address every aspect of Fenton's career as well as a comprehensive documented chronology BOOK JACKET Pantone: The Twentieth Century in Color Leatrice Eiseman, Keith Recker, 2011-10-19 Pantone the worldwide color authority invites you on a rich visual tour of 100 transformative years From the Pale Gold 15 0927 TPX and Almost Mauve 12 2103 TPX of the 1900 Universal Exposition in Paris to the Rust 18 1248 TPX and Midnight Navy 19 4110 TPX of the countdown to the Millennium the 20th century brimmed with color Longtime Pantone collaborators and color gurus Leatrice Eiseman and Keith Recker identify more than 200 touchstone works of art products decor and fashion and carefully match them with 80 different official PANTONE color palettes to reveal the trends radical shifts and resurgences of various hues This vibrant volume takes the social temperature of our recent history with the panache that is uniquely Pantone In Pursuit of Beauty Metropolitan Museum of Art (New York, N.Y.), 1986 This project is the first comprehensive study of a phenomenon that not only dominated the American arts of the 1870s and 1880s but also helped set the course of such later developments in the United States as the Arts and Crafts movement the indigenous interpretation of Art Nouveau and even the rise of modernism In fact the early history of the Metropolitan its founding its sponsorship of a school of industrial design and its display of decorative works is inextricably tied to the Aesthetic movement and its educational goals In Pursuit of Beauty Americans and the Aesthetic Movement comprised some 175 objects including furniture metalwork stained glass ceramics textiles wallpaper painting and sculpture Some of these had rarely been displayed others although familiar were being shown in new and even startling contexts The exhibition and catalogue are arranged thematically to illustrate both the major styles of a visually rich movement and the ideas that generated its diversity From publisher's description A Gallery
