Eleanor F. Shevlin, 2017-03-02 Influenced by Enlightenment principles and commercial transformations the history of the book in the eighteenth century witnessed not only the final decades of the hand press era but also developments and practices that pointed to its future the foundations of modern copyright a rapid growth in the publication circulation and reading of periodicals the promotion of niche marketing alterations to distribution networks and the emergence of the publisher as a central figure in the book trade to name a few The pace and extent of these changes varied greatly within the different sociopolitical contexts across the western world The volume's twenty four articles many of which proffer broader theoretical implications beyond their specific focus highlight the era's range of developments Complementing these articles the introductory essay provides an overview of the eighteenth century book and milestones in its history during this period while simultaneously identifying potential directions for new scholarship *The Guild Book of the Barbers and Surgeons of York (British Library, Egerton MS 2572)* Richard D. Wragg, 2021 A new exploration of the secular manuscripts and medieval medical texts associated with the York Guild and its members Produced in 1486 and subsequently augmented the Guild Book of the Barbers and Surgeons of York British Library Egerton MS 2572 is a unique record of the knowledge ambitions activities and civic relationships maintained by the Barbers and Surgeons Guild over a period of 300 years The manuscript's earliest folios contain images astrological tracts a plague treatise and a bloodletting poem To these were added early modern ordinances and oaths a series of royal portraits and the names of the Guild's masters and apprentices It is a rare survival of late medieval medical knowledge placed within a civic context This new multi disciplinary examination of the York Guild Book presents a comprehensive edition of its content and a detailed study of the creation and use of this fascinating manuscript The York Guild Book was not owned by any one person but was intended to be representative of the types of manuscripts the Guild's members might have individually possessed The Guild's commission elevated their manuscript's functional content into something which could be proudly owned and displayed as is demonstrated by the stylishly executed pen and ink drawings two of which are possibly unique Through a contextualisation of the form and content of the manuscript the book articulates ideas about material culture and the ceremonial role of secular manuscripts whilst shedding new light on the dissemination and status of medieval medical texts **The Cambridge Companion to Fiction in the Romantic Period**

Richard Maxwell, Katie Trumpener, 2008-02-21 While poetry has been the genre most closely associated with the Romantic period the novel of the late eighteenth and early nineteenth centuries has attracted many more readers and students in recent years Its canon has been widened to include less well known authors alongside Jane Austen Walter Scott Maria Edgeworth and Thomas Love Peacock Over the last generation especially a remarkable range of popular works from the

period have been re discovered and reread intensively This Companion offers an overview of British fiction written between roughly the mid 1760s and the early 1830s and is an ideal guide to the major authors historical and cultural contexts and later critical reception The contributors to this volume represent the most up to date directions in scholarship charting the ways in which the period s social political and intellectual redefinitions created new fictional subjects forms and audiences

Print Culture, Agency, and Regionality in the Hand Press Period Rachel Stenner,Kaley Kramer,Adam James Smith,2022-04-06 Print Culture Agency and Regionality in the Hand Press Period illuminates the diverse ways that people in the British regional print trades exerted their agency through interventions in regional and national politics as well as their civic commercial and cultural contributions Works printed in regional communities were a crucial part of developing narratives of local industrial technological and ideological progression By moving away from understanding of print cultures outside of London as provincial however this book argues for a new understanding of region as part of a network of places emphasising opportunities for collaboration and creation that demonstrate the key role of regions within larger communities extending from the nation to the emerging sense of globality in this period Through investigations of the men and women of the print trades outside of London this collection casts new light on the strategies of self representation evident in the work of regional print cultures as well as their contributions to individual regional identities and national narratives

Street Ballads in Nineteenth-Century Britain, Ireland, and North America David Atkinson,Steve Roud,2016-04-01 In recent years the assumption that traditional songs originated from a primarily oral tradition has been challenged by research into street literature that is the cheap printed broadsides and chapbooks that poured from the presses of jobbing printers from the late sixteenth century until the beginning of the twentieth Not only are some traditional singers known to have learned songs from printed sources but most of the songs were composed by professional writers and reached the populace in printed form Street Ballads in Nineteenth Century Britain Ireland and North America engages with the long running debate over the origin of traditional songs by examining street literature s interaction with and influence on oral traditions
