offered by his consulting group at top dollar prices Timely relevant and global in its scope this book offers entrepreneurs and managers new ideas and techniques for finding success today and in the future 60-Minute CEO Dick Cross,2016-11-03

Looking toward the C suite Take heed Author and serial CEO Dick Cross pulls back the curtain on this top leadership role explaining in his new book that being a successful leader running a business and doing it extraordinarily well isn't a full time job In 60 Minute CEO The Fast Track to Top Leadership Cross makes the case that the single greatest determinant of business success revolves around the job at the top Cross suggests that the most important and often overlooked duty for a CEO is thinking about how to improve his or her business and how to be a leader Cross also reveals that a mediocre leader can be transformed into an exemplary one simply by refining two key things thinking and character In Cross's trademark conversational style he conveys why strategy and execution while important should take a back seat to authenticity and responsibility and that the essential elements of the CEO role can be accomplished in several 60 minute sessions every week Executives may fill their time with other tasks but leading and running a company requires explicit skills different from those needed for any other corporate position The good news is that those skills are easy to learn fun to do and not time consuming In an entertaining style Cross offers executives the fast track to the top leadership position And while 60 minutes may seem like a quick fix as Cross sees it three 60 minute sessions a week devoted solely to considering your business and your role as leader are crucial to business and leadership success In 60 Minute CEO Dick Cross brings over 25 years of experience of transforming companies in various stages of underperformance into industry powerhouses Cross combines his knowledge and experience with the stories and lessons of preeminent leaders and thinkers including General George Patton and Seattle Seahawks quarterback Russell Wilson Crapshoot Investing Jim McTague,2011 In just the past few years the equity markets have been transformed into a high speed casino that's a pure crapshoot a white knuckle rollercoaster ride that has left individual investors legitimately terrified of equities The Flash Crash of May 6 2010 when the DJIA plummeted 734 points in 17 minutes and dozens of top companies traded as low as zero was just a harbinger of disasters to come In Crap Shoot Investing Barron's Washington Editor Jim McTague reveals the twin causes of this massive transformation high frequency traders using mathematical hocus pocus and blundering regulators whose attempts to promote long term investment have massively backfired McTague takes you through the Flash Crash moment by moment revealing what happened and how it happened Next he burrows under the volcano to uncover the titanic uncontrolled forces now at work in equity markets showing investors exactly what they're jumping into when they buy and sell stock today You'll learn how new exchanges desperate for cash are attracting high frequency traders at everyone else's expense how dark pools of hidden trades are tilting the playing field how even small investors are promoting dangerous volatility McTague explains why regulators continue to ignore the big picture as the markets accelerate towards chaos Last but not least he presents a rational strategy for investors who need to get ahead in markets that have become riskier than most casinos A valuable read for anyone
