**Cantonese as a Second Language** John C. Wakefield, 2019-04-09 Cantonese is a language from southern China that is spoken by roughly 70 million people worldwide. It is the language of Hong Kong cinema and has traditionally been the most prominent language spoken in Chinatowns around the world. People choose to learn Cantonese for a variety of social and economic reasons because it is a heritage language that one's relatives speak because it is the language of one's partner and monolingual in laws because it is necessary for living and working in Hong Kong, Macau, Guangzhou, or other Cantonese speaking communities because it is the bridge to fully appreciating and understanding Cantonese culture or simply because it is an irresistible challenge. Whatever the motivation, more and more people are choosing to learn Cantonese as an additional language. This book discusses many issues related to both acquiring and teaching Cantonese. If you are a learner of Cantonese, this long overdue volume is essential to understanding both the grammatical and the social issues involved with learning this notoriously difficult language. If you are a teacher, this book will be invaluable to gaining insight into your students' motivations and needs. And finally, if you are an applied linguist, the unique aspects related to the acquisition of Cantonese offer a fascinating contribution to the literature. **Words on Cassette, 2002** R R Bowker Publishing, 2002

Books Out Loud , 2004 *Exercise Book for Speak Cantonese* Huang Po-Fei, 1987-07 Chinese dictionary in the Cantonese dialect Ernest John Eitel, 1910 **A Chinese-English dictionary in the Cantonese dialect** Ernest John Eitel, Immanuel Gottlieb Genähr, 1910 **Subject Guide to Books in Print** , 1996 *Studies in Ethnopragmatics, Cultural Semantics, and Intercultural Communication* Bert Peeters, Kerry Mullan, Lauren Sadow, 2019-10-23 This book is the second in a three volume set that celebrates the career and achievements of Cliff Goddard, a pioneer of the Natural Semantic Metalanguage approach in linguistics. It focuses on meaning and culture with sections on Words as Carriers of Cultural Meaning and Understanding Discourse in Cultural Context. Often considered the most fully developed comprehensive and practical approach to cross linguistic and cross cultural semantics, Natural Semantic Metalanguage is based on evidence that there is a small core of basic universal meanings, semantic primes, that can be expressed in all languages. It has been used for linguistic and cultural analysis in such diverse fields as semantics, cross cultural communication, language teaching, humour studies, and applied linguistics, and has reached far beyond the boundaries of linguistics into ethnopsychology, anthropology, history, political science, the medical humanities, and ethics. The volume includes case studies from Japan.

Australia South Africa Germany Catalonia China Denmark and Sweden analysing a range of issues such as the conflict between the students native languages and English the reality of parallel teaching in English as well as in the local language and classrooms that are nominally English speaking but multilingual in practice The book assesses the factors common to successful bilingual learners and provides university administrators policy makers and teachers around the world with a much needed commentary on the challenges they face in increasingly multilingual surroundings characterized by a heterogeneous student population Patterns of language alternation and choice have become increasingly important to the development of an understanding of the internationalisation of higher education that is occurring world wide This volume draws on the extensive and varied literature related to the sociolinguistics of globalisation linguistic ethnography discourse analysis language teaching language and identity and language planning as the theoretical bases for the description of the nature of these emerging multilingual communities that are increasingly found in international education It uses observational data from eleven studies that take into account the macro societal meso university and micro participant levels of language interaction to explicate the range of language encounters highlighting both successful and problematic interactions and their related language ideologies Although English is the common lingua franca the studies in the volume highlight the importance of the multilingual resources available to participants in higher educational institutions that are used to negotiate and solve their language problems The volume brings to our attention a range of important insights into language issues found in the internationalisation of higher education and provides a resource for those wishing to understand or do research on how language hybridity and multilingual communicative practices are evolving there Richard B Baldauf Jr Professor The University of Queensland
