A PRACTICAL COURSE IN ENGLISH PRONUNCIATION J. SETHI, KAMLESH SADANAND, D. V.

JINDAL, 2004-01-01 English enjoys a preeminent position today among world languages. However, even the large populations that are proficient in the vocabulary and grammar of English are not equally proficient in the pronunciation of the language. This adult population is the target audience of this book. Based on the RP Received Pronunciation model, the most widely understood English pronunciation across the world, this systematically organized and lucidly written text covers the entire range from sound to connected speech: dialogues, anecdotes, passages, and short speeches. The book is in two parts. Part I deals with all important aspects of English pronunciation. Part II comprises a pronouncing dictionary. Intended for adult learners of English, the book chiefly aims at remediation, and most of the practice materials and exercises are given with this end in view. Besides, with the help of numerous listening exercises, the course sharpens the learners' ability to comprehend spoken English with ease, thereby training them to face real-life situations, for example, interviews with confidence and competence.

e-Learning, e-Education, and Online Training Weina Fu, Shuai Liu, Jianhua Dai, 2021-08-04 This 2-volume set constitutes the proceedings of the 7th International Conference on e-Learning, e-Education and Online Training (eLEOT 2021) held in Xinxiang, China, in June 2021. The 104 full papers presented were carefully reviewed and selected from 218 submissions. The papers are structured into two subject areas: New Trends of Teaching Evaluation Reform and Practice and Intelligent Learning and Education. They focus on most recent and innovative trends and new technologies of online education, which grows quickly and becomes the educational trend today. The theme of eLEOT 2021 was 'The Educational Revolution: Opportunities and Challenges brought by COVID-19'.
A COURSE IN PHONETICS AND SPOKEN ENGLISH

J. SETHI, P. V. DHAMIJA, 1999-01-01 This much-improved revised edition of the book takes into account the needs of the student in the context of the present curricula followed in various universities and English language teaching institutes. This edition therefore devotes a new chapter to Assimilation, a section to Tones in relation to Attitudes, and highlights certain important aspects of pronunciation such as rules of word accentuation. Starting with general phonetics, the book goes on to give a brief functional account of general phonology and then a selective and yet fairly exhaustive description of the phonetics and phonology of English. It also provides a number of conversational passages in phonetic script as well as in ordinary spelling for practice in reading aloud. What sets this text apart is its novelty of approach and lucidity of treatment. English pronunciation is followed as per the Received Pronunciation of England. This text is specially designed for postgraduate students of English, undergraduate and postgraduate students of Linguistics, and for those undergoing secondary and tertiary level teachers' training programmes in English.
