Speaking For Themselves Neomexicano Cultural Identity And The Spanish Language Press 1880 19:

Speaking for Themselves Doris Meyer, 1996 When New Mexico became a territory of the United States in 1848 the Hispanic population faced an influx of American immigrants The neomexicanos residents of some of the oldest Hispanic communities in the United States found their life ways disdained their communal property threatened and their very existence called into question by aggressive invaders They quickly began efforts to protect their language and culture against enforced assimilation One of the major outlets for this resistance was the Spanish language newspaper Here poetry oratory letters fiction and essays helped bridge the gap between the largely oral cultural expression of the region and the print oriented culture of the Americans Meyer s pioneering archival research examines these newspapers and their writers The work of Jose Escobar Felipe Maximiliano Chacon Luis Tafoya and Benjamin M Read as well as that of less well known and anonymous writers displays the diversity and complexity of this literature and its role in the construction of a unique cultural identity

A Political History of Spanish José Del Valle, 2013-08-29 Spanish is spoken as a first language by almost 400 million people in approximately 60 countries and has been the subject of numerous political processes and debates since it began to spread globally from Iberia in the thirteenth century A Political History of Spanish brings together a team of experts to analyze the metalinguistic origins of Spanish and evaluate it as a discursively constructed artefact that is to say as a language which contains traces of the society in which it is produced and of the discursive traditions that are often involved and invoked in its creation This is a comprehensive and provocative new work which takes a fresh look at Spanish from specific political and historical perspectives combining the traditional chronological organization of linguistic history and spatial categories such as Iberia Latin America and the US whilst simultaneously identifying the limits of these organizational principles

Sounds of Ethnicity Barbara Lorenzkowski, 2010-05-01 Sounds of Ethnicity takes us into the linguistic cultural and geographical borderlands of German North America in the Great Lakes region between 1850 and 1914 Drawing connections between immigrant groups in Buffalo New York and Berlin now Kitchener Ontario Barbara Lorenzkowski examines the interactions of language and music specifically German language education choral groups and music festivals and their roles in creating both an ethnic sense of self and opportunities for cultural exchanges at the local ethnic and transnational levels She exposes the tensions between the self declared ethnic leadership that extolled the virtues of the German mother tongue as preserver of ethnic identity and gateway to scholarship and high culture and the hybrid realities of German North America where the lives of migrants were shaped by two languages English and German Theirs was a song not of cultural purity but of cultural

fusion that gave meaning to the way German migrants made a home for themselves in North America Written in lively and elegant prose *Sounds of Ethnicity* is a new and exciting approach to the history of immigration and identity in North America

Mexico on Main Street Colin Gunckel, 2015-04-01 In the early decades of the twentieth century Main Street was the heart of Los Angeles's Mexican immigrant community It was also the hub for an extensive largely forgotten film culture that thrived in L A during the early days of Hollywood Drawing from rare archives including the city's Spanish language newspapers Colin Gunckel vividly demonstrates how this immigrant community pioneered a practice of transnational media convergence consuming films from Hollywood and Mexico while also producing fan publications fiction criticism music and live theatrical events Mexico on Main Street locates this film culture at the center of a series of key debates concerning national identity ethnicity class and the role of Mexicans within Hollywood before World War II As Gunckel shows the immigrant community's cultural elite tried to rally the working class population toward the cause of Mexican nationalism while Hollywood sought to position them as part of a lucrative transnational Latin American market Yet ironically both Hollywood studios and Mexican American cultural elites used the media to present negative depictions of working class Mexicans portraying their behaviors as a threat to middle class respectability Rather than simply depicting working class immigrants as pawns of these power players however Gunckel reveals their active participation in the era's film culture Gunckel's innovative approach combines media studies urban history and ethnic studies to reconstruct a distinctive richly layered immigrant film culture Mexico on Main Street demonstrates how a site specific study of cultural and ethnic issues challenges our existing conceptions of U S film history Mexican cinema and the history of Los Angeles

García, 2010-01-01 Chicano Catholicism both as a popular religion and a foundation for community organizing has over the past century inspired Chicano resistance to external forces of oppression and discrimination including from other non Mexican Catholics and even the institutionalized church Chicano Catholics have also used their faith to assert their particular identity and establish a kind of cultural citizenship Based exclusively on original research and sources Mario T García here offers the first major historical study to explore the various dimensions of the role of Catholicism in Chicano history in the twentieth century This is also one of the first significant studies in the still limited field of Chicano religious history Topics range from how early Chicano Catholic intellectuals and civil rights leaders were influenced by Catholic Social Doctrine to the role that popular religion has played in the lives of ordinary men and women in both rural and urban areas García also examines faith based Chicano community movements like Católicos Por La Raza in the 1960s and the Sanctuary movement in Los Angeles in the 1980s While Latino a history and culture has been for the most part inextricably linked with the tenets and practices of Catholicism there has been very little written until recently about Chicano Catholic history García helps to fill that void and explore the impact both positive and negative that the Catholic experience has had on the Chicano community
