Speaking Mexicano Dynamics Of Syncretic Language In Central Mexico:

Speaking Mexicano Jane H. Hill, Kenneth C. Hill, 2015-12 The Hills confront far more than what is sayable in terms of Mexicano grammar they deal with what is actually said with the relationship between Spanish and Mexicano as resources in the community's linguistic repertoire One of the major studies of language contact produced within the past forty years Language The genius of this work is the integration of the linguistic analysis with the cultural and political analysis Latin American Anthropology Review **Handbücher zur Sprach- und Kommunikationswissenschaft** Hans Goebel, Herbert Ernst Wiegand, 1996 The ^AOxford Handbook of Language Contact Anthony P. Grant, 2020-01-10 The Oxford Handbook of Language Contact examines the ways in which speakers of one language can exert influence on another language and the ways in which we can assess this influence It draws on data from dozens of languages from across the globe and examines the contact histories of twenty such situations including American Sign Language in detail It is the most up to date book on this topic in the science of language **Indigenous Language Revitalization in the Americas** Serafín M. Coronel-Molina, Teresa L. McCarty, 2016-04-28 Focusing on the Americas home to 40 to 50 million Indigenous people this book explores the history and current state of Indigenous language revitalization across this vast region Complementary chapters on the USA and Canada and Latin America and the Caribbean offer a panoramic view while tracing nuanced trajectories of top down official and bottom up grass roots language planning and policy initiatives Authored by leading Indigenous and non Indigenous scholars the book is organized around seven overarching themes Policy and Politics Processes of Language Shift and Revitalization The Home School Community Interface Local and Global Perspectives Linguistic Human Rights Revitalization Programs and Impacts New Domains for Indigenous Languages Providing a comprehensive hemisphere wide scholarly and practical source this singular collection simultaneously fills a gap in the language revitalization literature and contributes to Indigenous language revitalization efforts **Playing with Languages** Amy L. Paugh, 2012-10 Over several generations villagers of Dominica have been shifting from Patwa an Afro French creole to English the official language Despite government efforts at Patwa revitalization and cultural heritage tourism rural caregivers and teachers prohibit children from speaking Patwa in their presence Drawing on detailed ethnographic fieldwork and analysis of video recorded social interaction in naturalistic home school village and urban settings the study explores this paradox and examines the role of children and their social worlds It offers much needed insights into the study of language socialization language shift and Caribbean children's agency and social lives contributing to the burgeoning interdisciplinary study of children's cultures Further it demonstrates the critical role played by children in the transmission and transformation of linguistic practices which ultimately may determine the fate of a language **Shifting Languages** James Joseph Errington, 1998-12-10 Indonesian is the national language of a vast plural nation state the world's fourth largest country with a population of over 200 million Although its use is growing rapidly and is now spoken by nearly everyone over

the age of six it has almost relatively few native speakers This remarkable growth unprecedented in the development world is largely due to the forceful presence of state institutions that use promote and disseminate a language first introduced by the Dutch colonial administration Joseph Errington s third book on language in Indonesia is a detailed analysis of shifting languages in two small Javanese communities A key figure in this area of research he examines changing conversation practices in relation to questions of ethnicity nationalism and political culture Errington concludes that the Javanese story has theoretical implications beyond the two villages to other parts of Indonesia South East Asia and to the developing world in general

Language Choices Martin Pütz,1997-02-13 This volume is about various aspects of the theory and application of language contact and language conflict phenomena seen from an interdisciplinary perspective The focus is on the linguistic social psychological and educational issues conditions constraints and consequences involved in the status and use of languages in multilingual settings The book is divided into four sections dealing with the following areas Theoretical issues This section addresses key issues such as the nature of the concepts of language maintenance language loyalty and language identity language shift language loss and language death It includes the search for models of the often contradictory theoretical issues involved in language contact Language policy and language planning This section examines the various language policies carried out by official agencies and focuses on the two basic options available to a multilingual nation assimilation or pluralism Attitudes towards languages The section is geared towards research into determinants of language attitudes the methods for the measurements of attitudes as well as the relationship between language policy and attitude change Codeswitching and language choice The linguistic social psychological and anthropological implications of using two different codes will be examined from different perspectives Relevant research topics include the situational uses of code switching linguistic and social constraints on codeswitching and code switching vs borrowing A further research paradigm deals with the search for relativized constraints resulting from the interaction of universal principles and aspects particular to each codeswitching situation

Linguistic Borrowing in Bilingual Contexts Fredric W. Field,2002-01-01 A number of previous approaches to linguistic borrowing and contact phenomena in general have concluded that there are no formal boundaries whatsoever to the kinds of material that can pass from one language into another At the same time various hierarchies illustrate that some things are indeed more likely to be borrowed than others Linguistic Borrowing in Bilingual Contexts addresses both by examining claims of no absolute limits and synthesizing various hierarchies It observes that all contact phenomena are systematic and borrowing is no exception Regarding forms the determining factors lie in the nature of the morphological systems in contact and how they relate to one another Two principles are proposed to determine the nature of the systematicity and interaction the Principle of System Compatibility PSC and its corollary the Principle of System Incompatibility PSI Together these principles provide a consistent account of the possibilities and limits to borrowing

Indigenous Youth and Multilingualism Leisy T. Wyman,Teresa L. McCarty,Sheilah E. Nicholas,2013-08-22 Bridging

the fields of youth studies and language planning and policy this book takes a close nuanced look at Indigenous youth bi multilingualism across diverse cultural and linguistic settings drawing out comparisons contrasts and important implications for language planning and policy and for projects designed to curtail language loss Indigenous and non Indigenous scholars with longstanding ties to language planning efforts in diverse Indigenous communities examine language policy and planning as de facto and de jure as covert and overt bottom up and top down This approach illuminates crosscutting themes of language identity and ideology cultural conflict and linguistic human rights as youth negotiate these issues within rapidly changing sociolinguistic contexts A distinctive feature of the book is its chapters and commentaries by Indigenous scholars writing about their own communities This landmark volume stands alone in offering a look at diverse Indigenous youth in multiple endangered language communities new theoretical empirical and methodological insights and lessons for intergenerational language planning in dynamic sociocultural contexts *Morphologies in Contact* Martine

Vanhove,Thomas Stolz,Aina Urdze,Hitomi Otsuka,2012-12-04 This collection of articles takes up the issue of Contact Morphology raised by David Wilkins in 1996 In the majority of contact related studies morphology is at best a marginal topic According to the extant borrowing hierarchies bound morphology is copied only rarely if at all because morphological copies presuppose long term intensive contact with prior massive borrowing of content words and function words On the other hand especially in studies of morphological change contact is often identified as the decisive factor which triggers the disintegration of morphological systems However it remains to be seen whether these two standard treatments of morphology in contact situations exhaust the phenomenology of Contact Morphology The 14 papers of the present volume shed new light on the behavior of morphology under the conditions of language contact Fresh empirical data from 40 languages world wide are presented and new theory based concepts are discussed *Morphologies in Contact* is a first in the history of both morphology and language contact studies It is meant to mark the beginning of an international research program which explores the entire range of aspects connected to morphologies in contact and thus paves the way for a full blown Contact Morphology qua linguistic discipline *Language Activism* Haley De Korne,2021-08-02 While top down policies and declarations have yet to establish equal status and opportunities for speakers of all languages in practice activists and advocates at local levels are playing an increasingly significant role in the creation of new social imaginaries and practices in multilingual contexts This volume describes how social actors across multiple domains contribute to the elusive goal of linguistic equality or justice through their language activism practices Through an ethnographic account of Indigenous Isthmus Zapotec language activism in Oaxaca Mexico this study illuminates the sometimes conflicting imaginaries of what positive social change is and how it should be achieved and the repertoire of strategies through which these imaginaries are being pursued Ethnographic and action research conducted from 2013 2018 in the multilingual Isthmus of Tehuantepec brings to light the experiences of educators students writers scholars and diverse cultural activists whose

aspirations and strategies of social change are significant in shaping the future language ecology Their repertoire of strategies may inform and encourage language activists scholars and educators working for change in other contexts of linguistic diversity and inequality *Approaches to Language and Culture* Svenja Völkel,Nico Nassenstein,2022-08-22 This book provides an overview of approaches to language and culture and it outlines the broad interdisciplinary field of anthropological linguistics and linguistic anthropology It identifies current and future directions of research including language socialization language reclamation speech styles and genres language ideology verbal taboo social indexicality emotion time and many more Furthermore it offers areal perspectives on the study of language in cultural contexts namely Africa the Americas Australia and Oceania Mainland Southeast Asia and Europe and it lays the foundation for future developments within the field In this way the book bridges the disciplines of cultural anthropology and linguistics and paves the way for the new book series Anthropological Linguistics *How Languages Work* Carol Genetti,Allison Silver Adelman,2019 A fully revised introduction to language in use containing in depth language profiles case studies and online multimedia resources *Consequences of Contact* Miki Makihara,Bambi B. Schieffelin,2007 The essays in this volume demonstrate that language and linguistic practices are linked to changing changing consciousness of self and community through notions of agency morality affect authority and authenticity **Code-switching** Penelope Gardner-Chloros,2009-06-25 It is quite commonplace for bilingual speakers to use two or more languages dialects or varieties in the same conversation without any apparent effort The phenomenon known as code switching has become a major focus of attention in linguistics This concise and original study explores how when and where code switching occurs Drawing on a diverse range of examples from medieval manuscripts to rap music novels to advertisements emails to political speeches and above all everyday conversation it argues that code switching can only be properly understood if we study it from a variety of perspectives It shows how sociolinguistic psycholinguistic grammatical and developmental aspects of code switching are all interdependent and findings in each area are crucial to others Breaking down barriers across the discipline of linguistics this pioneering book confronts fundamental questions about what a native language is and whether languages can be meaningfully studied outside of the individuals who use them *Remaking Kichwa* Michael Wroblewski,2021-01-28 Investigating the efforts of the Kichwa of Tena Ecuador to reverse language shift to Spanish this book examines the ways in which Indigenous language can be revitalized and how creative bilingual forms of discourse can reshape the identities and futures of local populations Based on deep ethnographic fieldwork among urban periurban and rural indigenous Kichwa communities Michael Wroblewski explores adaptations to culture contact language revitalization and political mobilization through discourse Expanding the ethnographic picture of native Amazonians and their traditional discourse practices this book focuses attention on Kichwas diverse engagements with rural and urban ways of living local and global ways of speaking and Indigenous and dominant intellectual traditions Wroblewski reveals the composite nature of indigenous words
