*Spectacular Realities* Vanessa R. Schwartz, 1998-01-25 During the second half of the nineteenth century Paris emerged as the entertainment capital of the world The sparkling redesigned city fostered a culture of energetic crowd pleasing and multi sensory amusements that would apprehend and represent real life as spectacle Vanessa R Schwartz examines the explosive popularity of such phenomena as the boulevards the mass press public displays of corpses at the morgue wax museums panoramas and early film Drawing on a wide range of written and visual materials including private and business archives and working at the intersections of art history literature and cinema studies Schwartz argues that spectacular realities are part of the foundation of modern mass society She refutes the notion that modern life produced an unending parade of distractions leading to alienation and instead suggests that crowds gathered not as dislocated spectators but as members of a new kind of crowd one united in pleasure rather than protest

**Heroes and Legends of Fin-de-Siècle France** Venita Datta,2011-04-11 In *Heroes and Legends of Fin de Siècle France* Venita Datta examines representations of fictional and real heroes in the boulevard theater and mass press during the fin de siècle 1880-1914 illuminating the role of gender in the construction of national identity during this formative period of French history The popularity of the heroic cult at this time was in part the result of defeat in the Franco Prussian War in 1870 as well as a reaction to changing gender roles and collective guilt about the egoism and selfishness of modern consumer culture The author analyzes representations of historical figures in the theater focusing on Cyrano de Bergerac Napoleon and Joan of Arc and examines the press coverage of heroes and anti heroes in the Bazar de la Charité fire of 1897 and the Ullmo spy case of 1907

**Having It All in the Belle Époque** Rachel Mesch,2023-05-25 In this entertaining academic history of these rival magazines Mesch explores the emergence of the working woman in France *Publishers Weekly* At once deeply historical and surprisingly timely *Having It All in the Belle Époque* shows how the debates that continue to captivate high achieving women in America and Europe can be traced back to the early 1900s in France The first two photographic magazines aimed at women *Femina* and *La Vie Heureuse* created a female role model who could balance age old convention with new equalities Often referred to simply as the modern woman this captivating figure embodied the hopes and dreams as well as the most pressing internal conflicts of large numbers of French women during what was a period of profound change Full of never before studied images of the modern French woman in action *Having It All* shows how these early magazines exploited new photographic technologies artistic currents and literary trends to create a powerful model of French femininity one that has exerted a lasting influence on French expression This book introduces and explores the concept of Belle Époque literary

feminism a product of the elite milieu from which the magazines emerged Defined by its refusal of political engagement this feminism was nevertheless preoccupied with expanding women's roles as it worked to construct a collective fantasy of female achievement Through an astute blend of historical research literary criticism and visual analysis Mesch's study of women's magazines and the popular writers associated with them offers an original window onto a bygone era that can serve as a framework for ongoing debates about feminism femininity and work life tensions *The Handbook of Visual Culture* Ian Heywood, Barry Sandywell, 2017-04-20 Visual culture has become one of the most dynamic fields of scholarship a reflection of how the study of human culture increasingly requires distinctively visual ways of thinking and methods of analysis Bringing together leading international scholars to assess all aspects of visual culture the Handbook aims to provide a comprehensive and authoritative overview of the subject The Handbook embraces the extraordinary range of disciplines which now engage in the study of the visual film and photography television fashion visual arts digital media geography philosophy architecture material culture sociology cultural studies and art history Throughout the Handbook is responsive to the cross disciplinary nature of many of the key questions raised in visual culture around digitization globalization cyberculture surveillance spectacle and the role of art The Handbook guides readers new to the area as well as experienced researchers into the topics issues and questions that have emerged in the study of visual culture since the start of the new millennium conveying the boldness excitement and vitality of the subject *The Force of Beauty* Holly Grout, 2015-05-13 The market for commercial beauty products exploded in Third Republic France with a proliferation of goods promising to erase female imperfections and perpetuate an aesthetic of femininity that conveyed health and respectability While the industry's meteoric growth helped to codify conventional standards of womanhood *The Force of Beauty* goes beyond the narrative of beauty culture as a tool for sociopolitical subjugation to show how it also targeted women as important consumers in major markets and created new avenues by which they could express their identities and challenge or reinforce gender norms As cosmetics companies and cultural media from magazines to novels to cinema urged women to aspire to commercial standards of female perfection beauty evolved as a goal to be pursued rather than a biological inheritance The products and techniques that enabled women to embody society's feminine ideal also taught them how to fashion their bodies into objects of desire and thus offered a subversive tool of self expression Holly Grout explores attempts by commercial beauty culture to reconcile a standard of respectability with female sexuality as well as its efforts to position French women within the global phenomenon of changing views on modern womanhood Grout draws on a wide range of primary sources hygiene manuals professional and legal debates about the right to fabricate and distribute medicines advertisements for beauty products and contemporary fiction and works of art to explore how French women navigated changing views on femininity Her seamless integration of gender studies with business history aesthetics and the history of medicine results in a textured and complex study of the relationship between the politics of womanhood and the politics of beauty *Symbolism, Its Origins and Its Consequences*

Rosina Neginsky,2010-08-11 The notion of the symbol is at the root of the Symbolist movement but this symbol is different from the way it was used and understood in the Middle Ages and Renaissance In the Symbolist movement a symbol is not an allegory The Belgian writer Maurice Maeterlinck defined its essence in an article that appeared on April 24 1887 in *L'Art moderne* He wrote that the notion of a symbol in the Symbolist movement is the opposite of the notion of the symbol in classical usage instead of going from the abstract to the concrete Venus incarnated in the statue represents love it goes from the concrete to the abstract from what is seen heard felt tasted and sensed to the evocation of the idea This volume attempts to give a glimpse into the power of the Symbolist movement and the nature of its fundamental and interdisciplinary role in the evolution of art and literature of the twentieth century It records the studies of a group of scholars who met and discussed these topics together for the first time in 2009 While illuminating the specificity of Symbolism in art architecture and literature in different European countries these articles also demonstrate the crucial role of French Symbolism in the development of the international Symbolist movement The authors hope that an expanding group a society of Art Literature and Music in Symbolism and Decadence ALMSD born out of the first meeting will continue to further this discussion at future conferences and in the printed conference proceedings

**From the Salon to the Schoolroom** Rebecca Rogers,2010-11-01 How a nation

educates its children tells us much about the values of its people From the Salon to the Schoolroom examines the emerging secondary school system for girls in nineteenth century France and uncovers how that system contributed to the fashioning of the French bourgeois woman Rebecca Rogers explores the variety of schools religious and lay that existed for girls and paints portraits of the women who ran them and the girls who attended them Drawing upon a wide array of public and private sources school programs prescriptive literature inspection reports diaries and letters she reveals the complexity of the female educational experience as the schoolroom gradually replaced the salon as the site of French women s special source of influence From the Salon to the Schoolroom also shows how France as part of its civilizing mission transplanted its educational vision to other settings the colonies in Africa as well as throughout the Western world including England and the United States Historians are aware of the widespread ramifications of Jesuit education but Rogers shows how French education for girls played into the cross cultural interactions of modern society producing an image of the Frenchwoman that continues to tantalize and fascinate the Western world today

From Paris to Pompeii Göran Blix, 2013-09-04 In the early nineteenth century as amateur archaeologists excavated Pompeii Egypt Assyria and the first prehistoric sites a myth arose of archaeology as a magical science capable of unearthing and reconstructing worlds thought to be irretrievably lost This timely myth provided an urgent antidote to the French anxiety of amnesia that undermined faith in progress and it armed writers from Chateaubriand and Hugo to Michelet and Renan with the intellectual tools needed to affirm the indestructible character of the past From Paris to Pompeii reveals how the nascent science of archaeology lay at the core of the romantic experience of history and shaped the way historians novelists artists and the public at large sought to cope with the relentless change that relegated every new present to history In postrevolutionary France the widespread desire to claim that no being city culture or language was ever definitively erased ran much deeper than mere nostalgic and reactionary impulses G ran Blix contends that this desire was the cornerstone of the substitution of a weak secular form of immortality for the lost certainties of the Christian afterlife Taking the iconic city of Pompeii as its central example and ranging widely across French romantic culture this book examines the formation of a modern archaeological gaze and analyzes its historical ontology rhetoric of retrieval and secular theology of memory before turning to its broader political implications
