Spectrum Of Political Engagement Mounier Benda Nizan Brasillach Sartre:

The Spectrum of Political Engagement David L. Schalk, 2015-03-08 Why do artists poets philosophers writers and others who are usually classified as intellectuals leave the ivory tower to dirty their hands in the political arena In an effort to illuminate the intellectual s struggle to come to grips with the issues raised by political involvement David Schalk examines the life and thought of five intellectuals engag s in France during the period between 1920 and 1945 From communist to fascist these figures Paul Nizan Jean Paul Sartre Emmanuel Mounier Julien Benda and Robert Brasillach cover the full political spectrum and Professor Schalk studies their diverse reactions to the social political and economic tensions of the interwar period Broadly defining engagement as political involvement that is voluntary conscious and freely chosen usually by intellectuals the author poses the intellectual s dilemma in the following terms When we are engag he writes we fear that we are debasing our highest values when we are not we worry that we have become in Paul Nizan s trenchant phrase mere chiens de garde watchdogs He then investigates the origins and the popularization of the concept of engagement in the early 1930s the arguments used to denounce it and to defend it its different manifestations and finally its effects on the socio political actuality of the world Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **France and the Spanish**

Civil War Mr Martin Hurcombe, 2013-05-28 In this wide ranging study of French intellectuals who represented the Spanish Civil War as it was happening and in its immediate aftermath Martin Hurcombe explores the ways in which these individuals addressed national anxieties and shaped the French political landscape Bringing together reportage essays and fiction by French supporters of Franco s Nationalists and of the Spanish Republic Hurcombe shows the multifaceted ways in which that conflict impacted upon French political culture He argues that French cultural representations of the war often articulated a utopian image of the Nationalists or of the Spanish Republic that served as models behind which the radical right or the radical left in France might mobilise His book will be of interest not only to scholars of French literature and culture but also to those interested in how events unfolding in Spain found an echo in the political landscapes of other countries

Jean-Paul Sartre and the Jewish Question Jonathan Judaken, 2006-12-01 Examines the image of the Jew in Sartre s work to rethink not only his oeuvre but also the role of the intellectual in France and the politics and ethics of existentialism This book explores how French identity is defined through the abstraction and allegorization of the Jew Paul Nizan: Communist Novelist Michael Scriven, 1988-08-22 *Forgotten Engagements* Angela Kershaw, 2007-01-01 This study is the first to examine the contribution made by women writers to politically committed literature in 1930s France Its purpose is to

bring to light the work of female authors of left wing fiction whose novels are comparable to those of well known male practitioners of literature engaged such as Paul Nizan and Louis Aragon. It analyses the work of Madeleine Pelletier, Simone Tilly, Edith Thomas, Henriette Valet and Louise Weiss in the context of the inter war models of committed literature in relation to which they were produced. Consideration of this body of fictional texts not previously brought together by literary historians shows how women were able to relate to fiction and to politics in inter war France. Situating the novels within their social, historical, literary and political environment, the book contributes to the literary and cultural history of twentieth century France. The analysis of inter war political writing by women calls into question the criteria against which women's writing has been evaluated by feminist scholarship.

[The Company Of Critics](#) Michael Walzer, 2002-07-04

The Company of Critics provides a fascinating survey of the terrain of social criticism in the last century. Organizing the book as a series of eleven intellectual biographies, Michael Walzer tells not just the dramatic story of the cultural and political radical but also the more personal story of the meaning of criticism to the critic. By looking at the life and work of Julien Benda, Randolph Bourne, Martin Buber, Antonio Gramsci, Ignazio Silone, George Orwell, Albert Camus, Simone de Beauvoir, Herbert Marcuse, Michel Foucault and Breiten Breitenbach, Walzer explains the role of the public intellectual in the context of what he identifies as the triumphs and catastrophes of our time: the two world wars, the struggles of the working class, national liberation, feminism, totalitarian politics. The new edition featuring a new preface contains Walzer's thoughts on his own role as a public intellectual and most important, the challenges that lie ahead for the engaged social critic. With its unique emphasis on life as a proving ground for thought, The Company of Critics is a necessary addition to the literature of social and political engagement both within and outside of the academy.

Amiri Baraka Jerry Watts, 2001-08-01

Amiri Baraka, formerly known as LeRoi Jones, became known as one of the most militant anti white black nationalists of the 1960s. Black Power movement. An advocate of Black Cultural Nationalism, Baraka supported the rejection of all things white and western. He helped found and direct the influential Black Arts movement which sought to move black writers away from western aesthetic sensibilities and toward a more complete embrace of the black world. Except perhaps for James Baldwin, no single figure has had more of an impact on black intellectual and artistic life during the last forty years. In this groundbreaking and comprehensive study, the first to interweave Baraka's art and political activities, Jerry Watts takes us from his early immersion in the New York scene through the most dynamic period in the life and work of this controversial figure. Watts situates Baraka within the various worlds through which he travelled, including Beat, Bohemia, Marxism, Leninism and Black Nationalism. In the process, he convincingly demonstrates how the 25 years between Baraka's emergence in 1960 and his continued influence in the mid 1980s can also be read as a general commentary on the condition of black intellectuals during the same time. Continually using Baraka as the focal point for a broader analysis, Watts illustrates the link between Baraka's life and the lives of other black writers trying to realize their artistic ambitions and contrasts him with other key political

intellectuals of the time In a chapter sure to prove controversial Watts links Baraka's famous misogyny to an attempt to bury his own homosexual past A work of extraordinary breadth Amira Baraka is a powerful portrait of one man's lifework and the pivotal time it represents in African American history Informed by a wealth of original research it fills a crucial gap in the lively literature on black thought and history and will continue to be a touchstone work for some time to come *The Intellectual Resistance in Europe* James D. Wilkinson, 1981 Camus Sartre and Beauvoir in France Eich Richter and Boll in Germany Pavese Levi and Silone in Italy These are among the defenders of human dignity whose lives and work are explored in this widely encompassing work James D. Wilkinson examines for the first time the cultural impact of the anti-Fascist literary movements in Europe and the search of intellectuals for renewal for social change through moral endeavor during World War II and its immediate aftermath It was a period of hope Wilkinson asserts and not of despair as is so frequently assumed Out of the shattering experience of war evolved the bracing experience of resistance and a reaffirmation of faith in reason Wilkinson discovers a spiritual revolution taking place during these years of engagement and views the participants the engages as heirs of the Enlightenment Drawing on a wide range of published writing as well as interviews with many intellectuals who were active during the 1940s Wilkinson explains in the fullest context ever attempted their shared opposition to tyranny during the war and their commitment to individual freedom and social justice afterward Wilkinson has written a cultural history for our time His wise and subtle understanding of the long range significance of the engages is a reminder that the reassertion of humanist values is as important as political activism by intellectuals Reproductions of Banality Alice Yaeger Kaplan, 1986 Reproductions of Banality was first published in 1986 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions An established fascist state has never existed in France and after World War II there was a tendency to blame the Nazi Occupation for the presence of fascists within the country Yet the memory of fascism within their ranks still haunts French intellectuals and questions about a French version of fascist ideology have returned to the political forefront *Engagement in 21st Century French and Francophone Culture* Helena Chadderton, Angela Kimyongür, 2017-11-08 In the face of the contested legacy of engagement in the Francophone context this interdisciplinary collection demonstrates that French and Francophone writers artists intellectuals and film makers are using their work to confront unforeseen and unprecedented challenges campaigns and causes in a politically uncertain post 9/11 world Composed of eleven essays and a contextualising introduction this volume is interdisciplinary in its treatment of engagement in a variety of forms as it reassesses the relationship between different types of cultural production and society as it is played out in the twenty-first century With a focus on both the development of different cultural forms Part 1 and on the particular crises that have attracted the attention of cultural practitioners Part 2 this volume maps and analyses some of the ways in which cultural texts of all kinds are being used to respond to engage with and challenge crises in the contemporary

Merleau-Ponty's Existential Phenomenology and the Realization of Philosophy Bryan A. Smyth, 2013-12-19 Bringing to light the essential philosophical role of Marxism within Merleau Ponty's reinterpretation of transcendental phenomenology this book shows that the realization of this project hinges methodologically upon a renewed conception of the proletariat qua universal class specifically that it rests upon a humanist myth of incarnation which substantiated by Merleau Ponty's notion of heroism locates an objective historical purposiveness in the habituated organism of the modern subject Foregrounding the

phenomenological priority of history over corporeality in this way Smyth's analysis recovers the militant character of Merleau-Ponty's existential phenomenology. It thus sheds critical new light on his early thought and challenges some of the main parameters of existing scholarship by disclosing the intrinsic normativity of his basic methodological commitments. **The Routledge Companion to Social and Political Philosophy** Gerald F. Gaus, Fred D'Agostino, 2013 This comprehensive work provides an up to date survey of social and political philosophy charting its history and key figures and movements and addressing enduring questions as well as contemporary research. **Visions of Political Violence** Vincenzo Ruggiero, 2019-07-24 In this book Vincenzo Ruggiero offers a typology of different forms of political violence. From systemic and institutional violence to the behaviour of crowds to armed conflict and terrorism Ruggiero draws on a range of perspectives from criminology social theory political science critical legal studies and literary criticism to consider how these forms of violence are linked in an interdependent field of forces. Ruggiero argues that systemic violence encourages more institutional violence which in turn weakens the ability of citizens to set up political agendas for change. He advocates for a reduction of all types of violence which can be enacted through fairer distribution of resources and the provision of political space for contention and negotiation. This book will be of interest to all those engaged in research on violence terrorism armed conflict and the crimes of the powerful. It makes an important contribution to criminological and social theory. [The Cultural and Intellectual Rebuilding of France After the Second World War](#) M. Kelly, 2004-09-23 This book reveals how France reinvented itself in the aftermath of World War Two. After foreign military interventions the French political and intellectual elites embraced regime change and launched an urgent programme of nation building. They rebuilt French national identity with whatever material was available and created a vibrant new cultural and intellectual life. The cost to subordinated groups however especially women still casts a long shadow over French values and attitudes. In this perhaps there are lessons and implications for other countries struggling to rebuild themselves after conflict. *The Decline of the Third Republic, 1914-1938* Philippe Bernard, Henri Dubief, 1988-02-26 This book provides a detailed account of the Third Republic in France between the outbreak and conduct of the First World War and the fall of Leon Blum's Front Populaire soon after Hitler's invasion and annexation of Austria in 1938. Following the trauma of war France slipped into the era of illusions which despite the comparative prosperity of the 1920s led to the slump and the severe social and economic unrest of the 1930s. The short lived experiment of Blum's Front Populaire gave way to more conservatively based ministries but by 1938 a new common enemy began to draw together the political opinion of the country. *The Cambridge Companion to Merleau-Ponty* Taylor Carman, Mark B. N. Hansen, Mark Boris Nicola Hansen, 2005 Publisher Description. **The End of the French Intellectual** Shlomo Sand, 2018-04-10 Charting the decline of the French intellectual from the Dreyfus Affair to Islamophobia. The best selling author of *The Invention of the Jewish People* Shlomo Sand examines the troublesome figure of the French intellectual. Revered throughout the Francophile world France's tradition of public intellectual engagement stems

from Voltaire and Zola and runs through Sartre and Foucault to the present day The intellectual enjoys a status as the ethical lodestar of his nation s life but as Sand shows the recent history of these esteemed figures shows how often and how profoundly they have fallen short of the ideal Sand examines Sartre and de Beauvoir s unsettling accommodations during the Nazi occupation and then shows how Muslims have replaced Jews as the nation s scapegoats for a new generation of public intellectuals including Michel Houellebecq and Alain Finkielkraut Possessing an intimate knowledge of the Parisian intellectual milieu Sand laments the degradation of a literary elite but questions the value of that class at the best of times Drawing parallels between the Dreyfus Affair and Charlie Hebdo while mixing reminiscence with analysis Sand casts a characteristically candid and mordant gaze upon the intellectual scene of today
