Speech And Language Therapy Intervention Frameworks And Procebes:

Speech and Language Therapy Intervention Karen Bunning,2004-01-26 This text asserts the value of problem solving within a holistic approach to human communication which considers culture ethnicity and psychosocial issues It is concerned with drawing out commonalities that exist in practice with people with a range of communication disabilities As such it represents a departure from more traditional texts on intervention with communication disability that pigeon hole therapy practice according to the particular client group or presenting condition Articulation of the core conceptual frameworks and processes involved in intervention provides the foundation for clinical reasoning and implementation This includes examining the different levels at which intervention is pitched and identifying the core therapeutic techniques used by speech and language therapists across the client spectrum The text is supported by examples drawn from clinical practice *The Aphasia Therapy File* Sally Byng,Judith Felson Duchan,Carole Pound,2013-04-15 The Aphasia Therapy Files represent a practical resource for people who work with individuals with aphasia either as therapists or as researchers An overview of issues associated with current practices is combined with a study of the practicalities of determining designing and implementing therapies This second volume continues to explore the possibility of bridging the gap between therapy in a clinical setting and the practical issues faced by the person living with aphasia Each author presents one or more of their clinical practices in order to share their therapy experiences and reasoning with others These contributions provide an insight into the complex issues that face both the practitioner and the person with aphasia including discussion of subjects such as Revealing competence and rethinking identity for people with severe aphasia using drawing and a communication book Respecting the rights of a person with aphasia to their own life choices a longitudinal therapy study A group approach to the long term rehabilitation of people with acquired head injury within the community Lexical and functionally based treatment effects on word retrieval and conversation While each of the chapters is of considerable interest on its own the final chapter offers readers a method of describing and capturing what happens in therapy and why to enable comparisons between therapies and application by readers themselves Written by speech and language therapists working in clinical practice the studies included in this unique resource reflect the realities of everyday practice and will appeal to therapists students and researchers in aphasia **SmILE Therapy** Karin Schamroth,Emma Lawlor,2017-07-05 Students with communication difficulties need skills to communicate functionally in everyday situations without the usual support and protection from home and school These skills need to be explicitly taught to enable them to become confident young adults Smile Therapy is an innovative therapy designed to equip students with the skills necessary to become responsible individuals who operate at the highest level of independence that their circumstances and condition allow Teachers and speech and language therapists have always included functional life skills practice in their work with students Now for the first time they can do so using a therapy with a proven method that has demonstrable outcomes This book is a practical step

by step resource designed to guide teachers and SLTs in the delivery of Smile Therapy with students who have communication difficulties due to deafness specific language impairment learning difficulties autism or physical disability Features a clear step by step approach to preparing running and evaluating Smile Therapy with photocopiable resources clear outcome measures from each module to share with parents staff education and health managers

Navigating Adult Stammering Trudy Stewart,2022-06-08 This book the first in an exciting new series provides speech and language therapy students and newly qualified and beginning stammering specialists with 100 key points that will help form a strong foundation for their work supporting adults and teenagers who stammer Composed of practical relevant and useful advice from an experienced clinician chapters break advice down into sections which include information about the therapeutic relationship therapeutic approaches and signposts to further resources Throughout the book comments from stammering specialists describe what they wish they had known at the start of their careers This book Puts the person who stammers at the heart of therapy following the clinical choices they might make Is written in an accessible style designed to be dipped in and out of as required Draws on the experience of therapists working with those who stammer Full of advice and guidance to support effective practice this is an essential resource for anybody new to this client group

Speech and Language Therapy Carolyn Anderson,Anna van der Gaag,2005-11-29 This book demonstrates novel ways of working across a wide variety of clinical areas including children people with learning difficulties and adults with acquired communication disabilities It explores the paradigm shifts beyond technical rational approaches to professional artistry underpinned by reflective practice and user involvement It discusses values understanding expectations of clients the commonalities of therapy the Care Aims model and the biopsychosocial model in dysphasia management The contributors look at the three elements of competence knowledge skills and attitudes and attributes to demonstrate the relationship between observable skills and the hidden influential aspects of competence that play a vital role in making a practitioner professionally competent By bringing together constructs and challenges from differing areas of practice the book will stimulate readers to think about their work in new ways by learning from experts outside their own scope of practice

Persisting Speech Difficulties in Children Michelle Pascoe,Joy Stackhouse,Bill Wells,2006-05-12 This is the third book in the series Children s Speech and Literacy Difficulties and is based on research and practice with school age children with persisting speech and associated difficulties It focuses on the psycholinguistic nature of their difficulties how to design intervention programmes and how intervention outcomes might be measured It will serve as a practical handbook and will contain useful word lists tips and photocopiable sheets in the appendix Each chapter will summarise recent research findings and close with a bulleted summary of the main points in the chapter Provides an explanation of the psycholinguistic approach and how to implement it and integrate it with other approaches Includes case studies

Speech and Language Monica Bray,Celia Todd,Alison Ross,2006 This book demonstrates how students can apply what they have learned to bridge the gap between theory and

therapy as they begin their professional practice The authors argue that the only way to be ready to face the demands of professional practice and life long learning is to acquire a thorough understanding of the process and practice of clinical work Fully revised this second edition incorporates new standards of service delivery and clinical competencies registration of the profession under the Health Professions Council collaborative working with shared client programmes and records client centred philosophy and social models of intervention The authors emphasize the need to have a sound knowledge of what the profession is and who it encompasses the awareness of the concepts that underpin decision making planning and choice of activities and understanding of the philosophies that drive the choice of working practices Stammering

Resources for Adults and Teenagers Trudy Stewart, 2020-07-30 This comprehensive and practical resource is a second volume to the highly influential Dysfluency Resource Book 2010 It brings together the very latest developments in the field of stammering and dysfluency in adults and teenagers and builds upon some of the approaches explored in the Dysfluency Resource Book The book draws on the expert knowledge of contributors from a wide range of fields such as specialist speech and language therapy education psychology and youth work with a focus on presenting practical guidance for those working in this complex area This valuable resource Has chapters exploring the latest clinical developments such as acceptance and commitment therapy ACT and narrative therapy Provides in depth discussion of some established therapeutic practices including avoidance reduction therapy and group work Offers concrete application to theory both the social and medical models guiding the reader on how to integrate new evidence into clinical practice Provides a wealth of activities and photocopiable handouts that can be used in practice Designed for clinicians and students working with teenagers and adults who stammer this flexible and practical book embeds an ethos of reflection and adaptation The detailed overview of therapeutic approaches allows the reader to explore a wide range of techniques building a strong foundation of knowledge from which to tailor and develop their own practice **Therapeutic Processes for Communication Disorders** Robert J.

Fourie, 2010-11-25 Why do many people with disorders of communication experience a sense of demoralization Do these subjective experiences have any bearing on how such problems should be treated How can professionals dealing with speech language hearing and other communication disorders analyse and respond to the subjective and relational needs of clients with such problems In this book authors in the fields of communication disorders analyse the psychological social and linguistic processes and interactions that underpin clinical practice from both client and clinician perspectives The chapters demonstrate how it is possible to analyze and understand client clinician discourse using qualitative research and describe various challenges to establishing relationships such as cultural gender and age differences The authors go on to describe self care processes the therapeutic use of the self and various psychological factors that could be important for developing therapeutic relationships Also covered are the rarely considered topics of spirituality and transpersonal issues which may at times be relevant to clinicians working with clients who have debilitating degenerative and terminal illnesses associated with

certain communication disorders While this book is geared toward the needs of practicing and training speech language and hearing clinicians other professional such as teachers of the deaf psychotherapists nurses and occupational therapists will find the ideas relevant interesting and easily translatable for use in their own clinical practice **Learning Disabilities**
