Speech Language Learning And The African American Child:

Speech, Language, Learning, and the African American Child Jean E. Van Keulen, Gloria Toliver Weddington, Charles E. DeBose, 1998 Premised on recognition of African American language as a legitimate linguistic system this volume compares and contrasts African American English and White English speech discusses pedagogical methods dictated by cultural differences and evaluates implications for classroom practice It also discusses *The African American Child* Yvette R. Harris, James A. Graham, 2007-05-01 This book argues convincingly that children's cultural differences need to be recognized for any accurate understanding of their development Pointing out the need for additional and more effectively designed research Harris and Graham provide a valuable foundation for further investigations This nonpolemic book should be in all libraries filling an unfortunate gap Highly recommended Choice Current Reviews for Academic Libraries This major new textbook introduces students to issues that have an impact on the lives of African American children but have typically been ignored or inadequately discussed in mainstream child development textbooks The authors hope to familiarize students with a sampling of research that moves beyond a deficit view of the development of the African American child while stimulating critical thinking about future directions for research on African American children and their families The book is designed to be student friendly with each chapter presenting an overview of the material covered as well as an Insider's Voice which offers a personal story or viewpoint about the issues discussed in the chapter Each chapter goes on to feature a dialogue of current biological environmental constructivist and cultural contextual theories as well as suggestions for additional reading videos websites and questions to guide critical thinking *The African American Child, Second Edition* Yvette R. Harris, PhD, James Andrew Graham, 2014-02-13 Print CourseSmart **Malik Goes to School** Holly K. Craig, Julie A. Washington, 2006-04-21 *Malik Goes to School* Examining the Language Skills of African American Students From Preschool 5th Grade synthesizes a decade of research by the authors Holly Craig and Julie Washington on the oral language and literacy skills of African American children from preschool to fifth grade Their research has characterized significant influences on the child's use of AAE and the relationship between AAE and aspects of literacy acquisition The research has also led to the characterization of other nondialectal aspects of language development The outcome has been a culture fair child centered language evaluation protocol This very readable volume will be important to students clinicians and teachers learning about and working with African American children The book has direct relevance to academic planning clinical decision making curriculum development and educational policymaking **African American English and the Achievement Gap** Holly Craig, 2016-02-19 Many African American children make use of African American English AAE in their everyday lives and face academic barriers when introduced to Standard American English SAE in the classroom Research has shown that students who can adapt and use SAE for academic purposes demonstrate significantly better test scores than their less adaptable peers Accordingly AAE use and its confirmed inverse relationship to reading achievement

have been implicated in the Black White Test Score Gap thus becoming the focus of intense research and practical interest This volume discusses dialectal code switching from AAE to SAE and stresses the benefits and importance of African American students becoming bi dialectal It provides background theory and science supporting the most promising educational approach to date Contrastive Analysis a set of longstanding methods drawn from Second Language research and used effectively with students ranging from kindergarten through college It offers a deeper knowledge of AAE use by students the critical features of Contrastive Analysis and detailed information about successful applications which teachers can apply in their own pedagogy Speaking, Reading, and Writing in Children With Language Learning Disabilities

Katharine G. Butler, Elaine R. Silliman, 2001-12 This work shows that being literate requires more than functional literacy the recognition of printed words as meaningful It requires the knowledge of how to use language as a tool for analysing synthesizing and integrating what is heard or read in order to arrive at new interpretations **Creating Successful**

Cross-cultural Roots of Minority Child Development Patricia M.

Greenfield,Rodney R. Cocking,2014-02-25 This book constitutes the first time in the field of developmental psychology that cross cultural roots of minority child development have been studied in their ancestral societies in a systematic way and by an international group of researchers Most child development and child psychology texts take cultural diversity in development into account only as an addendum or as a special case it is not integrated into a comprehensive theory or model of development The purpose of this text is to redress this situation by enlisting insiders and outsiders perspectives on socialization and development in a diverse sampling of the world s cultures including developing regions that often lack the means to speak for themselves in the arena of international social science The unique feature of this text is the paradigm For the minority groups represented the questions focused on how development was behaviorally expressed within the culture of origin and in new societal contexts Thus developmental issues such as language and mother child interactions for African American children are considered in the United States as well as in the African culture of origin and in France as a country of immigration This paradigm is considered for African and Asian cultures and the Americas including Hispanics from Mexico as well as Native Americans Specific questions posed consider the extent to which the development and socialization of minority children can be seen as continuous with their ancestral cultures the cultural and political conditions in the United States Canada and France have modified developmental and socialization processes yielding discontinuities with ancestral cultures the ancestral cultures have changed yielding cross generational discontinuities in the development and socialization of immigrants from the very same countries the role of interdependence and independence in developmental scripts can account for historical continuities and discontinuities in development and socialization both across and within cultures These
