World of Image in Islamic Philosophy van Lit L. W. C. van Lit,2017-04-01 One of the most controversial issues that

divided Islamic philosophers and theologians during the Middle Ages was whether human beings would have a spiritual or bodily existence after death. The idea of a world of image was conceived as a solution suggesting that there exists a world of non physical imagined bodies beyond our earthly existence. This world may be reached in sleep in meditation or after death. From the embryonic conception by Ibn Sina to the radical rethinking by Suhrawardi and Shahrastari into a sophisticated system, L. W. C. van Lint unravels the history of this idea. Using a distant reading approach for measuring the transmission, he further shows how the idea remained relevant for Muslim thinkers through the centuries up until today. The Oxford Encyclopedia of Philosophy, Science, and Technology in Islam Salim Ayduz, 2014.
