Sermons on Suicide James T. Clemons, 1989-01-01 Sermons on Suicide offers a variety of biblical texts interpretations literary references medical insights current statistics personal illustrations and practical suggestions by over a dozen preachers to help clergy deal with the challenging and important subject of suicide This collection of sermons from a broad spectrum of religious and theological perspectives demonstrates that suicide for all its complexity and all its negativism can be treated in a positive straight forward manner Ministers from all religious groups will gain valuable insight from this informative resource which serves as an excellent model for those who preach on suicide It will also benefit anyone wanting to learn more about what religious leaders have thought preached and advocated over the centuries

Fighting Suicide Bombing Israel W. Charny, 2006-11-30 How does one effectively fight suicide bombers What threat do they hold for Western society How do people who love peace reconcile the need for war Noted genocide expert Israel W Charny addresses these questions in this highly personal description of suicide bombings and terror as the opening salvos of a Third World War Charny first seeks to understand what makes suicide bombers tick as well as the culture from which they emerge Taking this understanding of what he calls human evil he then proposes a hawkish campaign that ultimately emphasizes peace rather than irrational fear By deeming suicide bombing and terrorism as necessary subjects in the study of psychology Charny presents yet another weapon in the war against terrorism a war that he believes will only escalate without drastic action Ultimately he calls for a worldwide campaign for life led by religious and secular leaders across the globe He concludes the book with a vignette from Islamic culture that speaks nobly to furthering peace and life

Serial and Mass Murder Elizabeth A. Gurian, 2021-09-30 This book reframes the study of multicide that is serial and mass murder to use objective measures and aims to expand our understanding of multicide offending through descriptive and inferential statistical analyses of different homicide patterns of the offenders Criminal homicide and multiple murders are rare occurrences that typically account for a very small percentage of all violent crimes in most countries Despite this low occurrence homicide continues to be an area of intense study with a focus on subjective measures and classifications The research and analysis based on a database of over 1 300 cases contributes to the criminological study of violence and draws distinctions between the types of offenders partnered and solo serial and mass male and female etc from a range of different countries and across decades Traditionally studies of homicide focus on male offenders and theories of offending are then applied to females and co offenders The research presented in this book reveals that women and partnered offenders have very different homicide patterns from men Looking at the history of multicide offending this book uses descriptive and inferential statistical analyses to directly compare differences in offending and outcome patterns across multicide offender types This exploration of the multidimensionality of homicide at an international level is useful for scholars and students interested in criminal justice
