

UNDERSTANDING SUICIDE

Suicide With Assistance

ten Have, Henk, Welie, Jos

Suicide With Assistance:

Physician-Assisted Suicide Robert F. Weir, 1997-05-22 The book is extremely well balanced in each section there is usually an argument for and against the positions raised It is a useful and well thought out text It will make people think and discuss the problems raised which I think is the editor s main purpose Journal of Medical Ethics a volume that is to be commended for the clarity of its contributions and for the depth it gains from its narrow focus In places this is a deeply moving as well as closely argued book Times Literary Supplement This work is an excellent historical and philosophical resource on a very difficult subject Choice This collection of well written and carefully argued essays should be interesting illuminating and thought provoking for students clinicians and scholars New England Journal of Medicine This book is highly recommended Pharmacy Book Review This is a well balanced collection and the essays are of uniformly good quality very readable should be useful to anyone interested in this topic Doody s Health Sciences Book Review Home Page Physician Assisted Suicide continues in the fine tradition of the Medical Ethics series published by Indiana University Press Chapters are authored by outstanding scholars from both sides of the debate providing a balanced in depth exploration of physician assisted suicide along clinical ethical historical and public policy dimensions It is important reading for those who want to better understand the complex multilayered issues that underlie this emotionally laden topic Timothy Quill M D Robert Weir has produced the finest collection of essays on physician assisted dying yet assembled in one volume Physician assisted dying involves ethical and legal issues of enormous complexity The deep strength of this anthology is its multi disciplinary approach which insightfully brings to bear interpretations from history moral philosophy religion clinical practice and law This is a subject much like abortion that has divided America This volume provides balanced scholarship that will help inform opinions from the hospital and hospice bedside to the halls of federal and state legislatures and courtrooms Lawrence O Gostin Co Director Georgetown Johns Hopkins Program on Law and Public Health This book is a timely and valuable contribution to the debate Highly recommended for academic collections Library Journal These essays shed light and perspective on today s hotly contested issue of physician assisted suicide The authors were selected not only because of their experience and scholarship but also because they provide readers with differing points of view on this complex subject and a potential moral quandary for us all *The Case for Physician Assisted Suicide* Sheila McLean, Alison Britton, 1997 Physician assisted suicide occurs when a terminally ill patient takes the decision to end their life with the help of their doctor It is a scenario which both frightens people and inflames moral passions In this courageous and informative book the authors argue clearly and forcefully for the legalization of physician assisted suicide They say medical advances will mean more and more terminally ill people find themselves kept alive against their wishes the autonomy of the patient must be the deciding factor physicians are best placed to provide the means for suicide it is already happening in Britain anyway **The Suicide Funeral (or Memorial Service)** Melinda Moore, Daniel A. Roberts, 2017-05-16 To our knowledge nothing with The Suicide Funeral or

Memorial Service Honoring Their Memory Comforting Their Survivors scope and depth has ever been published This is an aid to anyone who will be called upon to do a funeral for the nearly 43 000 suicides in America each year This book is designed to assist clergy chaplains and other faith leaders as they develop sermons and homilies for a funeral service Its mandate is to help those searching for inspiration even though they may feel confused or uncertain undertaking such a daunting assignment Those who plan and lead a funeral service may enable family and friends to understand and participate intentionally in their grief process Clergy can have a significant impact on how people react to the suicide as well as provide comfort and assistance to those left behind on their journey through grief Your leadership will influence how the suicide s bereaved are treated by others in the days weeks and months following the death Because suicide does not discriminate by race socio economic status or religion a broad range of faiths and denominations are represented in this book s sermons services and perspectives

Physician Assisted Suicide Margaret P. Battin, Rosamond Rhodes, Anita Silvers, 2015-10-15 Physician Assisted Suicide is a cross disciplinary collection of essays from philosophers physicians theologians social scientists lawyers and economists As the first book to consider the implications of the Supreme Court decisions in Washington v Glucksburg and Vacco v Quill concerning physician assisted suicide from a variety of perspectives this collection advances informed reflective vigorous public debate

Matters of Life and Death David Orentlicher, 2021-03-09 Philosophical debates over the fundamental principles that should guide life and death medical decisions usually occur at a considerable remove from the tough real world choices made in hospital rooms courthouses and legislatures David Orentlicher seeks to change that drawing on his extensive experience in both medicine and law to address the translation of moral principle into practice a move that itself generates important moral concerns Orentlicher uses controversial life and death issues as case studies for evaluating three models for translating principle into practice Physician assisted suicide illustrates the application of generally valid rules a model that provides predictability and simplicity and more importantly avoids the personal biases that influence case by case judgments The author then takes up the debate over forcing pregnant women to accept treatments to save their fetuses He uses this issue to weigh the avoidance of perverse incentives an approach to translation that follows principles hesitantly for fear of generating unintended results And third Orentlicher considers the denial of life sustaining treatment on grounds of medical futility in his evaluation of the tragic choices model which hides difficult life and death choices in order to prevent paralyzing social conflict Matters of Life and Death is a rich and stimulating contribution to bioethics and law It is the first book to examine closely the broad problems of translating principle into practice And by analyzing specific controversies along the way it develops original insights likely to provoke both moral philosophers and those working on thorny issues of life and death

Memoirs of a suicide Yvonne do Amaral Pereira, Camilo Cândido Botelho (Espírito), 2021-10-10 Under the guidance of the spirit Leon Denis the spirit author Camilo Castelo Branco using the pen name Camilo C ndido Botelho describes to the m dium Yvonne A Pereira his dreadful

experience after having disincarnated by committing suicide The book entails invaluable instruction demonstrating the greatness of the Divine Mercy toward repentant suicides and providing them with the opportunity to understand the universe and life in its fullest dimension The beginnings of planet Earth the evolution of the human being the immortality of the soul Christian morality and other relevant themes are presented for the understanding that no attempt at moral growth will work if we remain imprisoned in self ignorance A complete reading of this work shows that there is a road of reconstruction for those who repent There is always hope because rehabilitation is possible

Physician-Assisted Suicide: What are the Issues? L.M. Kopelman, K.A. de Ville, 2001-11-30 Physician Assisted Suicide What are the Issues offers a detailed discussion of recent supreme court rulings that have had an impact on the contemporary debate in the United States and elsewhere over physician assisted suicide Two rulings by the U S Supreme Court have altered the contemporary debate on physician assisted suicide Washington v Glucksberg 1997 and Vacco v Quill 1997 In these cases the Supreme Court ruled that state laws could prohibit assisted suicide and therefore physician assisted suicide These rulings mark the apex of over two decades of unprecedented litigation regarding end of life care and signal the beginning of a new clinical ethical and legal debate over the extent of an individual's rights to control the timing manner and means of his/her death The debate over suicide and assisting suicide is ancient and contentious and intertwined with questions about the permissibility of voluntary active euthanasia or mercy killing Responses to these issues can be divided into those who defend physician assisted suicide and many of these other activities and those who object But those who object may do so on principled grounds in that they regard these activities as wrong in all cases or non principled in that they believe there are more prudent less disruptive or more efficient policies The authors in this book sort out these responses and look at the assumptions underlying them Several of these authors give startling new interpretations that a culture gap deeper and wider than that in the abortion debate exists

The Cambridge Medical Ethics Workbook Donna Dickenson, Richard Huxtable, Michael Parker, 2010-10-14 This new edition of The Cambridge Medical Ethics Workbook builds on the success of the first edition by working from the bottom up with a widely praised case based approach A variety of guided exercises are supplemented by short papers and commentaries on legal and ethical issues challenging readers to develop their own analyses and recommendations Chapters cover death genetics new reproductive technologies research long term care mental health children and young people allocation of scarce resources and general issues about autonomy and patient choice An appendix discusses the use of this book in teaching along with a full bibliography list of Kennedy Institute keywords and suggestions for further reading An interactive CD ROM packaged with the book provides extra cases a glossary legal references and the chance to record a personal learning diary Its simple clear style makes this book ideal for individual reference and as a set text for group teaching

Israel yearbook on human rights. Vol. 29 (1999) Dinstein, 2000-12 The Israel Yearbook on Human Rights an annual published under the auspices of the Faculty of Law of Tel Aviv University since 1971 is devoted to publishing studies

by distinguished scholars in Israel and other countries on human rights in peace and war with particular emphasis on problems relevant to the State of Israel and the Jewish people The Yearbook also incorporates documentary materials relating to Israel and the Administered Areas which are not otherwise available in English including summaries of judicial decisions compilations of legislative enactments and military proclamations Volume 29 contains amongst others articles on Sanctity of Life Death with Dignity and Patient Autonomy Medical Ethos Ambivalence and Discretion **Medical Law and Moral Rights** Carl Wellman, 2005-10-26 Do patients undergoing intolerable irremediable suffering have a moral right to physician assisted suicide Ought they to have a comparable legal right Do the moral duties of a mother to care for and not abuse her child also apply to her fetus This work provides an examination of court cases that shows how US law answers these questions *Human Dignity and Assisted Death* Sebastian Muders, 2018 Assisted dying and human dignity are two extremely contested topics in Bioethics This volume offers the first book length attempt to bring both together Its authors develop detailed philosophical analyses of dignity and how it relates to assisted suicide and euthanasia Britain, Poland and the Eastern Front, 1939 Anita J. Prazmowska, 1987-07-23 This book offers a revisionist interpretation of British foreign policy towards Poland and the role of the Anglo Polish relationship during the period March September 1939 It challenges and questions hitherto held views on the British determination to defend Poland and oppose German expansion eastwards It includes a study of foreign policy economic policy and military planning This book is a major contribution to our knowledge of the outbreak of the war because it contains a unique and original study of the role of the Poles in British proposals for an eastern front and the Polish perception of their relationship with Germany Finally the inconclusive nature of British approaches to the Soviet Union and the Rumanian government are put into the context of the abortive proposal for an eastern front against Germany Assisted Death in Europe and America Guenter Lewy, 2011 Advances in medical treatment now enable physicians to prolong life to a previously unknown extent however in many instances these new techniques mean not the saving of life but prolonging the act of dying In the eyes of many medical technology has run out of control and contributes to unnecessary suffering Hence the demand has arisen that patients should be entitled to choose death when pain and physical and mental deterioration have destroyed the possibility of a dignified and meaningful life and that their doctors should help them to realize this endeavor At the present time there are seven jurisdictions in the world that with various restrictions have legalized the practice of assisted death physician assisted suicide and or voluntary euthanasia to wit the Netherlands Belgium Luxembourg Switzerland in Europe and the states of Oregon Washington and Montana in the United States Four of these regimes in the Netherlands Belgium Switzerland and the state of Oregon have been functioning for many years and we have for them a substantial body of data as well as much observational research This book is based upon this material The literature dealing with the moral legal and social aspects of assisted death is voluminous but there is a paucity of writing that provides a detailed account of the way these four regimes are actually working Many partisans on

both sides of the issue cite existing data selectively or at times willfully distort the empirical evidence in order to strengthen their case Based on the documentary record and interviews with officials and scholars this book seeks to give the specialist as well as the general interested reader a reliable picture of the way assisted death functions and to draw relevant lessons While accurate factual information cannot settle a moral debate it nevertheless is a precondition of any well founded argument The author speaks authoritatively about the issues he addresses I think this book does make an important contribution to the field It will be of interest to students and scholars of PAS as a source of information and reference I definitely recommend publication Stuart Youngner Department of Bioethics Case Western Reserve University School of Medicine The information collected here makes an important contribution to the literature on PAS because it collects a broad array of relevant information into a single volume It is interesting and enlightening This will make the book a valuable resource for anyone interested in the subject and an especially useful resource for academics who study or teach about the issues Rosamond Rhodes Director Bioethics Education Mt Sinai School of Medicine

The SAGE Encyclopedia of Abnormal and Clinical Psychology Amy Wenzel, 2017-03-16 Abnormal and clinical psychology courses are offered in psychology programs at universities worldwide but the most recent major encyclopedia on the topic was published many years ago Although general psychology handbooks and encyclopedias include essays on abnormal and clinical psychology such works do not provide students with an accessible reference for understanding the full scope of the field The SAGE Encyclopedia of Abnormal and Clinical Psychology a 7 volume A Z work print and electronic formats is such an authoritative work Its more than 1 400 entries provide information on fundamental approaches and theories various mental health disorders assessment tools and psychotherapeutic interventions and the social legal and cultural frameworks that have contributed to debates in abnormal and clinical psychology Key features include 1 400 signed articles contained in 7 volumes and available in choice of print and or electronic formats Although organized A to Z front matter includes a Reader s Guide grouping related entries thematically Back matter includes a Chronology Resource Guide Bibliography and detailed Index Entries conclude with References Further Readings and Cross References to related entries The Index Reader s Guide themes and Cross References between and among entries all combine to provide robust search and browse features in the electronic version

Voluntary Euthanasia and the Common Law Margaret Otlowski, 1997 Margaret Otlowski investigates the complex and controversial issue of active voluntary euthanasia She critically examines the criminal law prohibition of medically administered active voluntary euthanasia in common law jurisdictions and carefully looks at the situation as handled in practice The evidence of patient demands for active euthanasia and the willingness of some doctors to respond to patients requests is explored and an argument for reform of the law is made with reference to the position in the Netherlands where active voluntary euthanasia is now openly practiced

New Directions in the Ethics of Assisted Suicide and Euthanasia Michael Cholbi, Jukka Varelius, 2023-03-03 This book provides novel perspectives on ethical justifiability of

assisted dying in the revised edition of *New Directions in the Ethics of Assisted Suicide and Euthanasia* Going significantly beyond traditional debates about the value of human life the ethical significance of individual autonomy the compatibility of assisted dying with the ethical obligations of medical professionals and questions surrounding intention and causation this book promises to shift the terrain of the ethical debates about assisted dying The novel themes discussed in the revised edition include the role of markets disability gender artificial intelligence medical futility race and transhumanism Ideal for advanced courses in bioethics and healthcare ethics the book illustrates how social and technological developments will shape debates about assisted dying in the years to come

A Good Death? Simon Woods, 2016-03-16 This interdisciplinary collection presents valuable discourse and reflection on the nature of a good death Bringing together a leading judge and other legal scholars philosophers social scientists practitioners and parents who present varying accounts of a good death the chapters draw from personal experience as well as policy practice and academic analysis Covering themes such as patients rights to determine their own good death considering their best interests when communication becomes difficult and the role and responsibilities of health professionals the book outlines how ethical healthcare might be achieved when dealing with assisted suicide by organizations and how end of life services in general might be improved It will be of interest to students and academics working the area of medical law and ethics as well as health professionals and policy makers

Death And Medical Power: An Ethical Analysis Of Dutch Euthanasia Practice ten Have, Henk, Welie, Jos, 2005-05-01 This book is a well referenced review of the history of the societal debate attempts at regulation and the practice itself In addition it discusses important and insightful distinctions active passive omission commission outcomes intentions The unique basis for their conclusion makes an outstanding contribution to the literature Robert D Orr MD CM Professor of Bioethics at Loma Linda University California USA How have Dutch debates on end of life care developed so differently from most other countries finally resulting in the legalization of euthanasia What are the relevant legal medical and ethical dimensions of euthanasia and physician assisted suicide What lessons can be learned from the Dutch experience with euthanasia In all modern countries a good death and relief of suffering are important issues of public debate The bioethical debate in the Netherlands is unique since it has been focusing on the issue of euthanasia for more than thirty years This book describes the debate explains its origins and analyses its development resulting in the legislation of euthanasia It also presents data on the medical practice of euthanasia with examples of cases *Death and Medical Power* details the evolution as well as the complexities of the legal responses to physician involvement in euthanasia The authors analyze the ethical debate concerning euthanasia discussing the pros and cons of medical termination of human life The book concludes with a section on the lessons to be learned from the Dutch experience This unique study will be of relevance to all clinicians and other professionals involved in end of life care to health policy makers and educators as well as anybody else interested in the ethics of euthanasia

Physician-Assisted Suicide and Euthanasia Sheldon Rubenfeld, Daniel P. Sulmasy, 2020-11-03 Unlike

Nazi medical experiments euthanasia during the Third Reich is barely studied or taught Often even asking whether euthanasia during the Third Reich is relevant to contemporary debates about physician assisted suicide PAS and euthanasia is dismissed as inflammatory Physician Assisted Suicide and Euthanasia Before During and After the Holocaust explores the history of euthanasia before and during the Third Reich in depth and demonstrate how Nazi physicians incorporated mainstream Western philosophy eugenics population medicine prevention and other medical ideas into their ideology This book reveals that euthanasia was neither forced upon physicians nor wantonly practiced by a few fanatics but widely embraced by Western medicine before being sanctioned by the Nazis Contributors then reflect on the significance of this history for contemporary debates about PAS and euthanasia While they take different views regarding these practices almost all agree that there are continuities between the beliefs that the Nazis used to justify euthanasia and the ideology that undergirds present day PAS and euthanasia This conclusion leads our scholars to argue that the history of Nazi medicine should make society wary about legalizing PAS or euthanasia and urge caution where it has been legalized

Practical Decision Making in Health Care Ethics Raymond J. Devettere, 2016-05-20 For more than twenty years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field Raymond J Devettere s approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making New sections added in this revised fourth edition include sequencing whole genomes even those of newborns the new developments in genetic testing now provided by online commercial companies such as 23andMe the genetic testing of fetuses by capturing their DNA circulating in the pregnant woman s blood the Stanford Prison experiment and its relevance to the abuses at the Abu Graib prison recent breakthroughs in the diagnosis of consciousness disorders such as PVS the ongoing controversy generated by the NIH study of premature babies at many NICUs throughout the country a study known as SUPPORT that the OHRP Office of Human Research Protections an office within the department of HHS deemed unethical Devettere updates most chapters New cases include Marlise Munoz dead pregnant woman s body kept on life support by a Texas hospital Jahi McMath teenager pronounced dead in California but treated as alive in New Jersey Margot Bentley nursing home feeding a woman dying of end stage Alzheimer s despite her advance directive that said no nourishment or liquids if she was dying with dementia Brittany Maynard dying 29 year old California woman who moved to Oregon to commit suicide with a physician s help and Samantha Burton woman with two children who suffered rupture of membranes at 25 weeks and whose physician obtained a court order to keep her at the hospital to make sure she stayed on bed rest Thoughtfully updated and renewed for a new generation of readers this classic textbook will be required reading for students and scholars of philosophy and medical ethics
