Suicide And Clinical Practice:

Suicide and Clinical Practice Douglas Jacobs,1992 Over 90% of people who commit suicide have a psychiatric disorder Those most likely to commit suicide have major depression problems with substance abuse or schizophrenia In this edited volume renowned experts in the field reflect on the many approaches to the study and prevention of suicide

Understanding the Complex Phenomenon of Suicide: From Research to Clinical Practice Domenico De Berardis,Giovanni Martinotti,Massimo Di Giannantonio,2018-05-08 Suicide is undoubtedly a worldwide major challenge for the public health It is estimated that more than 150 000 persons in Europe die as a result of suicide every year and in several European countries suicide represents the principal cause of death among young people aged 14 25 years It is true that suicide is a complex and yet not fully understood phenomenon and may be determined by the interaction between various factors such as neurobiology personal and familiar history stressful events sociocultural environment etc The suicide is always a plague for the population at risk and one of the most disgraceful events for a human being Moreover it implies a lot of pain often shared by the relatives and persons who are close to suicide subjects Furthermore it has been widely demonstrated that the loss of a subject due to suicide may be one of the most distressing events that may occur in mental health professionals resulting in several negative consequences such as burnout development of psychiatric symptoms and lower quality of life and work productivity All considered it is clear that the suicide prevention is a worldwide priority and every effort should be made in order to improve the early recognition of imminent suicide manage suicidal subjects and strengthen suicide prevention strategies In our opinion the first step of prevention is the improvement of knowledge in the field this was the aim of this present special issue on Frontiers in Psychiatry In this special issue several papers have contributed to the suicide knowledge from several viewpoints and we hope that this will contribute to improve and disseminate knowledge on this topic

The Psychology of Suicide: From Research Understandings to Intervention and Treatment

Yossi Levi-Belz,Yari Gvion,Alan Apter,2019-07-11 Suicide is a highly complex and multifaceted phenomenon with many contributing and facilitating factors and variables However given its being one of the most severe human behaviors an obvious focus would be to identify the underlying psychological mechanisms and processes that may lead to suicidal ideation and behavior This eBook is dedicated to studies exploring various approaches to the psychology of suicidal behavior as well as of non suicidal self injury NSSI The purpose of this eBook is to shed light on in depth examinations of the current knowledge and empirical data regarding models theories and specific dimensions and variables that may help us increase the psychological understanding of suicidal phenomena The specific goal is to identify particular psychological characteristics that may be used to develop prevention and intervention methods and programs We believe that this eBook can contribute to the understanding of this behavior and help to develop specific tools therapeutic guidelines and programs that may help reduce the number of suicides occurring annually This eBook is dedicated to our dearest friend Dafni Assaf who was one of the greatest leaders of the suicide prevention program in Israel

Suicide Risk Assessment and Prevention

Maurizio Pompili,2022-12-19 This book explores suicide prevention perspectives from around the world considering both professionals points of view as well as first person accounts from suicidal individuals Scholars around the globe have puzzled over what makes a person suicidal and what is in the minds of those individuals who die by suicide Most often the focus is not on the motives for suicide nor on the phenomenology of this act but on what is found from small cohorts of suicidal individuals This book offers a tentative synthesis of a complex phenomenon and sheds some light on models of suicide that are less frequently encountered in the literature Written by international experts it makes a valuable contribution to the field of suicidology that appeals to a wide readership from mental health professionals to researchers in suicidology and students

Therapeutic and Legal Issues for Therapists Who Have Survived a Client Suicide Kayla Weiner,2014-06-03 The death of a patient is every therapist s worst nightmare Even more frightening is the debilitating silence that surrounds a therapist after the death of a client What do you do How do you proceed with your personal and professional life Until now advice on surviving a patient s suicide has been scarce This book examines this much overlooked topic to help you continue to live and practice confidently The authors of this courageous book mix first person narratives with professional strategies to help therapists deal with the emotional and legal consequences that follow the loss of a client Therapeutic and Legal Issues for Therapists Who Have Survived a Client Suicide provides you with models of coping strategies for clinicians after a client completes a suicide an

examination of factors that compound the trauma for the therapist survivor examples for dealing with a client's family suggestions for developing curricula for training institutions recommendations for supervisory guidelines explanations of and means of mitigating legal liability This practical book describes various ways of dealing with clinician and supervisory responsibilities after a client's self-inflicted death It will show you how to minimize the legal risks of working with suicidal clients and help you regain your sense of professional competence if a suicide occurs New methods of screening and treatment assistance are offered With about 30 000 suicides occurring in the United States annually and many of those people in treatment at or near the time they commit suicide thousands of clinicians face this trauma yearly The clear specific therapeutic and legal guidelines you'll find in the book as well as the philosophical discussions make it a vital read for therapists counselors social workers nurses supervisors and educators in mental health training institutions

Understanding the Complex Phenomenon of Suicide: From Research to Clinical Practice, Volume II Domenico De Berardis, Massimo Di Giannantonio, Giovanni Martinotti, 2022-08-29 **Nursing Education Challenges in the 21st Century** Leana E. Callara, Leana R. Callara, 2008 Nursing education is facing a massive set of obstacles as the fields of medicine continues to progress at warp speed at the same time hospitals do not have enough doctors and depend more on nurses than anytime before The result is overworked nurses running to keep it with the fields in which they must work This book presents some analyses of nursing education at a critical juncture in the field [A Clinician's Guide to Suicide Risk Assessment and Management](#) Joseph Sadek, 2018-11-21 This book offers mental health clinicians a comprehensive guide to assessing and managing suicide risk Suicide has now come to be understood as a multidimensionally determined outcome which stems from the complex interaction of biological genetic psychological sociological and environmental factors Based on recent evidence and an extensive literature review the book provides straightforward essential information that can easily be applied in a wide variety of disciplines **Comprehensive Textbook of Suicidology** Alan Lee Berman, Morton M. Silverman, Bruce Michael Bongar, 2000-08-10 Multidisciplinary and comprehensive in scope this volume serves as an authoritative overview of scientific knowledge about suicide and its prevention providing a foundation in theory research and clinical applications Issues relevant to clinical case management are highlighted and various treatment modalities are discussed in light of the latest research findings [Harwood-Nuss' Clinical Practice of Emergency Medicine](#) Allan B. Wolfson, Robert L. Cloutier, Gregory W. Hendey, Louis J. Ling, Jeffrey J. Schaidler, Carlo L. Rosen, 2014-10-27 Harwood Nuss Clinical Practice of Emergency Medicine presents a clinically focused and evidence based summary of emergency medicine Chapters are templated to include the clinical presentation differential diagnosis evaluation management and disposition with highlighted critical interventions and common pitfalls Management and disposition are especially critical in the emergency department and their emphasis is unique to Harwood Nuss Often a diagnosis can not be made given the constraints of an ED evaluation thus effective management of the patient with or without a confirmed diagnosis is key Also

distinct to Harwood Nuss is the High Risk Chief Complaints section which covers the key presentations in the ED chest pain abdominal pain shortness of breath altered mental status When patients present in the ED they don't present with a known diagnosis this chapter walks the physician through possible differential diagnoses and the evaluation and management of these patients so that they can be stabilized and treated quickly and effectively

The Ethics of Group Psychotherapy
Virginia Brabender, Rebecca MacNair-Semands, 2022-04-19 The Ethics of Group Psychotherapy provides group psychotherapists with the ethical and legal foundation needed to engage in effective decision making in their everyday group practices This text provides readers with a framework for understanding ethical dilemmas through a review of major models of ethical thinking including principlism feminism and the ethics of care and virtue ethics The authors use this foundation to explore those problems emerging most routinely in group practice among which are safeguarding members personal information protecting members autonomy and helping members to process differences particularly those related to privilege and oppression in a way that furthers interpersonal relations and social justice Throughout the text practical tools such as using assessments to aid in member selection and tracking progress and outcome through measurement based care are offered that bolster the group psychotherapist's effectiveness in ethical decision making Featuring questions for discussion and items to assess the reader's mastery of the material this text will be a valuable tool in classroom and small group learning

Grief After Suicide John R. Jordan, John L. McIntosh, 2011-01-19 A suicide leaves behind more victims than just the individual And yet there are very few professional resources that provide the necessary background research and tools to effectively work with the survivors This edited volume addresses the need for an up to date professionally oriented summary of the clinical and research literature on the impact of suicide bereavement on survivors

Treatment Of Suicidal People
Robert A. Neimeyer, John T. Maltsberger, Antoon A. Leenaars, 2013-02-01 Treatment of suicidal people takes three forms prevention strategies to avert conditions leading to suicide intervention treatment and care during the crisis and postvention response after the event has occurred Unlike other current literature here the focus is on the state of the art of intervention This type of examination is essential because suicidal people themselves are in need of such treatments crisis intervention psychotherapy psychopharmacology and hospitalization Written by professionals in the field the Treatment of Suicidal People allows readers to participate in a learning experience First is a case presentation of an individual Arthur Inman and his long road toward suicide as chronicled in his personal diary The second section puts forth guidelines for the evaluation of suicide risk and crisis intervention A focus on more sustained efforts in psychotherapy is next a theme which is continued in the fourth part by addressing psychiatric issues that are essential for treatment of highly disturbed and lethal patients The following section examines a number of clinical and legal issues that transcend any one population of suicidal people and any particular treatment approach or context And lastly the volume returns to Arthur Inman with case consultations providing alternative perspectives and recommendations on his treatment Suicide and related forms of self injurious behaviour can be

circumvented if the involved professionals are sufficiently trained in assessment and prevention
