## **Suicide Mass Suicide:**

*Mass Suicides on Saipan and Tinian, 1944* Alexander Astroth, 2019-03-28 When the Americans invaded the Japanese controlled islands of Saipan and Tinian in 1944 civilians and combatants committed mass suicide to avoid being captured. Though these mass suicides have been mentioned in documentary films they have received scant scholarly attention. This book draws on United States National Archives documents and photographs as well as veteran and survivor testimonies to provide readers with a better understanding of what happened on the two islands and why. The author details the experiences of the people of the islands from prehistoric times to the present with an emphasis on the Japanese, Okinawan, Korean,

Chamorro and Carolinian civilians during invasion and occupation. **Responding After Suicide** Andrea

Walraven-Thissen, 2019-11-21 This practical guide about what first responders should do after a suicide offers advice on identifying and recording a death as suicide, breaking the bad news, and dealing with the impact of suicide in the short, middle, and long term. Drawing on her own experience as a first responder and trainer, the author provides guidance and tips for best practice when responding to a suicide. These include what can happen to the body in the immediate aftermath, how to talk to the bereaved to limit or prevent secondary trauma, and how to manage suicide in public arenas such as schools. The scenarios covered include detailed scripts of how to deal with difficult situations. There are also sections that tackle complex issues such as religious or cultural customs and unusual cases of suicide which can pose extra challenges. Straightforward and full of sage advice, each chapter includes real world examples from the author's many years working as a first responder which highlight how suicide postvention techniques can be applied. Sacred Suicide Professor Carole M. Cusack, Professor James

R. Lewis, 2014-10-28 The label Suicide Cults has been applied to a wide variety of different alternative religions from Jonestown to the Solar Temple to Heaven's Gate. Additionally, observers have asked if such group suicides are in any way comparable to Islamist suicide terrorism or to historical incidents of mass suicide such as the mass suicide of the ancient community of Masada. Offering a valuable perspective on New Religious Movements and on religion and violence, *Sacred Suicide* brings together contributions from a diverse range of international scholars of sociology, religious studies, and criminology. *The Idea of Suicide* Michael J. Kral, 2019-05-21 This book is about a new theory of suicide as cultural mimesis or as an idea that is internalized from culture. Written as part of a new critical focus in suicidology, this volume moves away from the dominant, strictly scientific understanding of suicide as the result of a mental disorder and towards positioning suicide as an anthropologically salient, community-driven phenomenon. Written by a leading researcher in the field, this volume presents a conception of suicide as culturally scripted and it demonstrates how suicide becomes a cultural idiom of distress that for some can become a normative option. **THEORIES OF SUICIDE** John F. Gunn, David Lester, 2015-06-01

Some researchers in the field of suicidology think that the old theories of suicide are too constraining and impede advances in the understanding of suicide. However, the book's authors are not quite so critical of past theories. In the book, they review

the classic theories of suicide both psychological and sociological because they are the foundation of our current theories and also propose the skeletons of possible future theories The goal of the text is to present researchers with theories to guide their research encourage them to modify these theories perhaps meld them together in some cases and think how they might propose new theories Presented in three sections the first reviews significant psychological theories including Suicide as Escape Interpersonal Psychological theory The Role of Defeat and Entrapment in Suicidal Behavior Suicide Ethology and Sociobiology Stress Diatheses Cognitive Theories Learning Perspective on Suicide Theories of Personality and Suicide Typological Theories and the Pathophysiology of Suicide The second section of the text addresses Sociological and Economic Theories including Suicide as Deviance Naroll s Thwarting Disorientation Theory three classic sociological theories as well as several minor theories A comprehensive chapter on economic theories is offered by Bijou Yang The final section concentrates on Critical Thoughts About Theories of Suicide a new and growing influence in academia and scholarship

Ceremonies and Celebrations of Life Theories and Concepts Unworldly Entities and Events With an array of topics that include traditional subjects and important emerging ideas the Encyclopedia of Death and the Human Experience is the ultimate resource for students researchers academics and others interested in this intriguing area of study Politics and Suicide Nicholas Michelsen, 2015-10-08 Politics and Suicide argues that whilst the historical lineage of suicidal politics is recognised the fundamental significance of autodestruction to the political remains under examined It contends that practices like suicide bombing do not simply embody a strange or abnormal suicidal articulation of the political but rather that the existence of suicidal politics tells us something fundamental about the political as such and thinking about political violence more broadly Recent world events have emphatically shown our need for tools with which to develop better understandings of the politics of suicide Through the exploration of several arresting case studies including the Kamikaze bombers of World War Two Jan Palach's self immolation in 1969 Cold War nuclear deterrence and the suicide terrorist attacks of 9 11 Michelsen asks how we might talk of a political suicide in any of these contexts The book charts how political processes go suicidal and asks how we might still consider them to be political in such a case It investigates how suicide can function as politics A strong contribution to the fields of philosophy and international relations theory this work will also be of interest to students and scholars of political theory and terrorism political violence *Sacred Suicide* Carole M. Cusack, 2016-04-08 The label Suicide Cults has been applied to a wide variety of different alternative religions from Jonestown to the Solar Temple to Heaven's Gate Additionally observers have asked if such group suicides are in any way comparable to Islamist suicide terrorism or to historical incidents of mass suicide such as the mass suicide of the ancient community of Masada Organizationally and ideologically diverse it turns out that the primary shared trait of these various groups is a common stereotype of religion as an irrational force that pushes fanatics to undertake acts of suicidal violence Offering a valuable perspective on New Religious Movements and on religion and violence Sacred Suicide brings together contributions from a diverse range of international scholars of sociology religious studies and criminology Adolescent Suicide Group for the Advancement of Psychiatry.
