Suicide Submarine! Yutaka Yokota, Joseph Daniel Harrington, 1962 **The Lost Submarines of Pearl Harbor** James P. Delgado, Terry Kerby, Stephen Price, Maximilian D. Cremer, Hans K. Van Tilburg, Ole Varmer, Russell Matthews, 2016-11-16 In the pre dawn darkness of December 7 1941 five Imperial Japanese Navy submarines surfaced off the coast of Oahu Secured to the decks of these vessels were secret weapons to be deployed for the first time in modern warfare two man midget submarines intended to enter Pearl Harbor without being detected and torpedo the US Navy battleships lying at anchor there None of them would return from their mission One of the last remaining and persistent mysteries of the Pearl Harbor attack is that of the Japanese Midget Submarines It is a fascinating story of innovation courage secrets and failed expectations And it is not only a story of the morning hours of December 7 but of the years before to develop these weapons and the years after where they were deployed in the great Pacific War and how they fared as weapons of war These words by Daniel J Basta from the foreword of this work capture both the essence and the impact of *The Lost Submarines of Pearl Harbor* James P Delgado and his coauthors have worked on the story of these incredible craft for decades They combed the records of the US Navy and the recollections of its veterans as well as Japanese Australian and British archives in order to uncover the truth They have logged hours of direct observation and research on the midget subs in their final resting places in some cases more than 1 000 feet below the surface of the Pacific And in the end they have woven a tapestry of scholarship historical sleuthing scientific insight and good storytelling that will enthrall specialists and history enthusiasts alike

Sunk: The Story Of The Japanese Submarine Fleet 1941-1945 Lt.-Com. Mochitsura Hashimoto, 2015-11-06 What happened to Japan s submarines and what sort of fight did they put up As far as Japan was concerned the recent war was waged according to a rigid strategy There was no detailed operational planning It was a fight in which science had been ignored In such circumstances the submarine always highly vulnerable unless used intelligently was inevitably sacrificed Throughout the war the whole submarine fleet was in reality a special attack force in which in the absence of scientific weapons the crews were just so much human ammunition Today we hear much about rearmament If money is to be spent on

armaments it should be used for scientific development Never again must we go to war with only a bamboo lance The Japanese Submarine Fleet was entirely wiped out but the martial spirits of its sailors are still with us on the far flung oceans In the Pacific the Indian Ocean and the Atlantic we remember the multitude of resentful sleeping warriors in our ears we hear the whisper of the voice from the bottom of the sea Thus as one of the few submarine captains to survive I have taken up my pen to try to record something of the unknown hardships and successes of our submarines Despite the gloomy conditions under which they worked our submarines fought well and the grim story of Japanese submarine units has been well recorded by former Lieutenant Commander Hashimoto It is certainly valuable material and I wish to recommend it as an excellent history S Toyoda Former C in C Combined Fleet IJN *Suicide Submarine!* Yutaka Yokota,1962 **The Secret Submarine** Doctor Tom Lewis,2025-03-05 Uncover a forgotten battle off Australia s shores The official history of the Royal Australian Air Force claims that no enemy submarines operating off the Australian coast during World War II were sunk But what if history got it wrong In a fierce and decisive air action off the coast of New South Wales RAAF Beaufort bombers engaged a colossal Japanese submarine over 100 meters long What followed was a deadly duel between the submarine s anti aircraft guns and the bombers machine guns The I 178 with her crew of 88 lies lost somewhere north of Sydney The events of that day have remained buried until now In this groundbreaking work Tom Lewis one of Australia s leading military historians rewrites the history books The Secret Submarine not only reveals a forgotten victory but also immerses readers in the harrowing experiences of those who served in WWII bombers and submarines Additionally it chronicles the broader brutal struggle between Japanese forces and the combined might of the USA and Australia a conflict that saw over 40 ships sunk and countless lives lost off Australia s east coast Praise for Tom Lewis Tom Lewis has reminded us of the perils of lack of preparation in peacetime and the price to be paid in war for not recognising new technologies and methods for striking at Australians from the sea Attack on Sydney Harbour Lieutenant Commander Desmond Woods OAM RAN Tom Lewis never lets his readers down He has embedded a narrative with all the necessary historical and political background photographs maps diagrams pen pictures of key players as well as a closing epilogue Attack on Sydney Harbour Neville Taylor RUSI Vic Remarkable in its sweep of World War II s Pacific theatre and the terrible price all involved would have paid if it continued Atomic Salvation would be ideal for a comprehensive documentary Ian Richards film maker An effective blend of historical narrative and scholarly argument Dr Tom Lewis s Atomic Salvation is both a memorable and enlightening reading experience Atomic Salvation Dr LFS Browne Historian The sanitized version of warfare in books and films omits the bloody and ferocious encounters at the sharp end of war this book explains The Truth of War Newcastle Herald **Suicide submarine!.** Yutaka Yokota,1968 *I Need to Get Laid (Full Color)* Teresa Cline,2012-04-28 Have you ever wanted to get away from it all Follow Teresa the Traveler on a ten day adventure in the beautiful Hawaiian Islands Kamikaze Steven J. Zaloga,2011-09-20 Following the destruction of much of the Japanese fleet and air arms in the later half of 1944 in desperation the Imperial

Japanese Navy proposed using special attack formations or suicide attacks These initially consisted of crude improvisations of conventional aircraft fitted with high explosive bombs that could be crashed into US warships Called Divine Wind Kamikaze the special attack formations first saw action in 1944 and became the scourge of the US fleet in the battles for Iwo Jima and Okinawa in 1945 In view of the success of these attacks the Japanese armed forces began to develop an entire range of new special attack weapons This book examines the initial kamikaze aircraft attacks with a focus on the dedicated special attack weapons developed in 1944 It also covers specialized suicide attack weapons such as anti tank lunge mines

Ordeal By Sea; The Tragedy Of The U.S.S. Indianapolis Thomas Helm,2014-06-13 July 30 1945 The heavy cruiser U S S Indianapolis was sunk by a torpedo 1 196 men went into the water When rescue arrived five days later only 317 remained What happened during those five terrible days Full of harrowing personal accounts from survivors and written by a veteran who served aboard the cruiser before the attack Ordeal by Sea chronicles the stark human drama and sensational aftermath of one of the worst disasters in naval history The story of the doomed mission was immortalized in the film Jaws as Quint remembers the intense brutal and awful experience of the sailors as sharks tore into the floating survivors Thirst and hunger were also added to the sailors torments as they wondered if they would be rescued from the merciless sea their bravery and indomitable spirit is captured in this brilliant book A dramatic and gripping read The Japanese Submarine Force and World War II Akihiko Yoshida,2013-01-15 When first published in 1995 this book was hailed as an absolutely indispensable contribution to the history of the Pacific War Drawing heavily from Japanese sources and American wartime intercepts of secret Japanese radio messages a noted American naval historian and a Japanese mariner painstakingly recorded and evaluated a diverse array of material about Japan s submarines in World War II The study begins with the development of the first Japanese 103 ton Holland type submergible craft in 1905 and continues through the 1945 surrender of the largest submarine in the world at the time the 5300 ton I 400 class that carried three airplanes Submarine weapons equipment personnel and shore support systems are discussed first in the context of Japanese naval preparations for war and later during the war Both successes and missed opportunities are analyzed in operations ranging from the California coast through the Pacific and Indian Oceans to the coast of German occupied France Appendixes include lists of Japanese submarine losses and the biographies of key Japanese submarine officers Rare illustrations and specifically commissioned operational maps enhance the text **Fire From the Sky** Robert Stem,2010-03-17 By late 1944 the war in the Pacific had turned decisively against the Japanese and overwhelming Allied forces began to close in on the home islands At this point Japan unveiled a terrifying new tactic the suicide attack or Kamikaze named after the Divine Wind which had once before in medieval times saved Japan from invasion Intentionally crashing bomb laden aircraft into Allied warships these piloted guided missiles at first seemed unstoppable calling into question the naval strategy on which the whole war effort was based This book looks at the origins of the campaign at its strategic goals the organization of the Japanese special attack forces and

the culture that made suicide not just acceptable but honourable. Inevitably much mythology has grown up around the subject and the book attempts to sort the wheat from the chaff. One story that does stand up is the reported massive stock piling of kamikaze aircraft for use against any Allied invasion of the home islands if the atomic bombs had not forced Japan's surrender. However its principal focus is on the experience of those in the Allied fleets on the receiving end of this peculiarly alien and unnerving weapon: how they learnt to endure and eventually counter a threat whose potential was over estimated by both sides. In this respect it has a very modern resonance.

At Grandma's House H. Byron Earhart, 2020-08-21 Illinois State Historical Society Certificate of Excellence Winner 2021. When H. Byron Earhart's father enlisted in the U.S. Navy in 1942, young Byron and his family moved into his grandparents' old-fashioned home with a coal-fired range and potbelly stove, and his mother took charge of the family business, a frozen food locker. Grandma was the undisputed head of the family. While his father served on the battleship USS Missouri, his grandparents and mother held the family and the business together. *At Grandma's House* is a tribute to everyday Americans who provided the social glue for a country at war as they balanced fear and anxiety for loved ones with the challenges and pleasures of daily life. The experiences of the Earhart family and this Midwestern community, supplemented by contemporary documents, family photos, and professional illustrations, recount with vivid local color the drama that played out on the national and international stage.

Post Your Peg High Charles L. Bradshaw, 2009-06. Charles Bradshaw has presented the great American saga from the Great Depression era in a mining town through the greatest war ever. As a teen growing up in Mascot, my mother, town librarian, often assured me that we would beat the Russians to the moon because Charles Bradshaw was helping Dr. von Braun. Ralph McGhee, B.S., U.S. Naval Academy; Th. M. Pastor, Atkins Baptist Church, Mascot Librarian: I have had no greater friend than Brad, and it is a special privilege to have been part of his life. He has done a great job in capturing the problems and pleasures of the Greatest Generation. This book will be interesting to those from that era as well as their children. Joe Brake, A.A.B.S.M.B.A. and J.D. Chemical Engineer and Company Executive: This is a good book, often brilliant. The stories about athletics, mathematics, the Navy, and the author's technical career often catch fire. The author's keen intelligence, high standards, and genial acceptance and appreciation of life and of the home folks shine through. Anne Donnell, B.A.M.A.T. Author and Teacher: *Post Your Peg High* is a blended portion of life's experiences during the Great Depression, World War II, and the cold war. The hard times and the adverse experiences developed what has come to be known as the Greatest Generation.
