Suicides in Prison Alison Liebling, 2002-09-11 First published in 1992 Routledge is an imprint of Taylor Francis an informa company      *Suicide and Self-Harm in Prisons and Jails* Christine Tartaro, David Lester, 2010-07-12 Police and corrections personnel must always be mindful of the possibility that those in their custody may attempt suicide or commit an act of self mutilation Persons housed in prisons jails and police lockups tend to be at a higher risk for such destructive behavior than members of the general population Reasons for this can be found by examining the mental health substance abuse and physical sexual abuse histories of inmates in addition to deficits in their coping skills and the stress and uncertainty generated by incarceration This book explores several topics pertaining to suicide and deliberate self harm in the corrections setting including who tends to commit these acts where when and how these incidents occur screening mechanisms the role of environmental stimuli in facilitating or preventing acts of self harm interpersonal relations among inmates and between inmates and staff and the role of the courts in setting and ruling on suicide prevention policies The authors discuss the role of prevention techniques that offer a balance between strict opportunity reduction and softer motivation reduction strategies The book also includes suggestions for diversion programs that can keep mentally ill inmates out of prisons and jails and transition planning programs to better prepare outgoing inmates for their re entry into the community      *Suicide Behind Bars* David Lester, Bruce L. Danto, 1993      **Prison Suicide** Lindsay M. Hayes, 1998-12 Until recently it has been assumed that suicide although a problem for jail inmates as they face the initial crisis of incarceration is not a significant problem for inmates who advance to prison to serve out their sentences This monograph was produced to fill a critical void in the knowledge base about prison suicide In addition to a through review of the literature and of national and state standards for prevention it offers the most recent national data on the incidence and rate of prison suicide effective prevention programs and discussion of liability issues References appendices and tables      *Suicide and Self-Harm in Prisons and Jails* Christine Tartaro, David Lester, 2010-07-12 Police and corrections personnel must always be mindful of the possibility that those in their custody may attempt suicide or commit an act of self mutilation Persons housed in prisons jails and police lockups tend to be at a higher risk for such destructive behavior than members of the general population Reasons for this can be found by examining the mental health substance abuse and physical sexual abuse histories of inmates in addition to deficits in their coping skills and the stress and uncertainty generated by incarceration This book explores several topics pertaining to suicide and deliberate self harm in the corrections setting including who tends to commit these acts where when and how these incidents occur screening mechanisms the role of environmental stimuli in facilitating or preventing acts of self harm interpersonal relations among inmates and between inmates and staff and the role of the courts in setting and ruling on suicide prevention policies The authors discuss the role of prevention techniques that offer a balance between strict opportunity reduction and softer motivation reduction strategies The book also includes suggestions for

diversion programs that can keep mentally ill inmates out of prisons and jails and transition planning programs to better prepare outgoing inmates for their re entry into the community      Report on Suicides in Prison James Hennessy, Great Britain. Her Majesty's Chief Inspector of Prisons for England and Wales, 1984      **The Prevention of Suicide in Prison** Daniel Pratt, 2015-08-27 Suicide is considered to be the leading cause of preventable death in prisons While there is increasingly expansive literature examining the various risk factors associated with a likelihood of eventual prison suicide so far this has struggled to lead to successful prevention programmes An alternative approach is needed that seeks to understand at the individual level what leads a prisoner to contemplate ending their own life This book describes how the authors developed and delivered evidence based psychological interventions for suicide prevention in prison The authors present a compelling argument for a psychological approach to the prevention of prison suicide drawing upon a cognitive behavioural perspective with chapters investigating two novel psychological therapies Cognitive Behavioural Suicide Prevention and Problem Solving Training The methodology behind each study is presented alongside preliminary findings emerging from the evaluations and detailed case studies are included as exemplars of the process and content of the therapies as well as the individual and contextual challenges to be overcome The book provides timely research into the development of a better understanding of why prisoners engage in suicide behaviour and the preventive interventions showing the most promise for future investigation The Prevention of Suicide in Prison will be critical reading for clinical and forensic psychologists psychological therapists psychiatrists and other mental health staff working within a prison context as well as postgraduates in training and researchers studying suicide in forensic settings      **Dying Inside** Samantha Sherratt, 1993      **Adolescent Forensic Psychiatry** Susan Bailey, Mairead Dolan, 2004-06-25 Adolescent Forensic Psychiatry discusses a broad range of issues based around the psychiatric needs of adolescents and how these relate to offending behaviour Its well structured approach looks at assessment treatment and outcomes for different disorders and highlights the importance of effective interaction between specialist agencies Services      **Suicide in Prisons** Graham Towl, David Crighton, 2017-05-03 The definitive guide from two leading authors central to developments in the field An invaluable book which covers everything from theoretical and community research to precisely what is known about prisoners and the risk of their completing suicide Covers the Harris Review and Government Response to it as well as the stance of politicians reform groups and other leading experts on what in 2017 is an escalating problem for UK prisons Contains analysis and data from over 30 years bringing together key knowledge and information at a critical time of concern and attention      The Health of Prisoners Richard Creese, J. Bearn, 1995 In eighteenth century Britain gaols were places of temporary confinement where inmates stayed while awaiting punishment With the rise of the penitentiary from the early nineteenth century custodial institutions housed prisoners for much longer periods of time Prisoners were supposed to be reformed as well as punished during their incarceration From at least the time of John Howard 1726 1790 the health of prisoners has been part of the

concern of philanthropists and others concerned with the wider functions of prisons The Victorians established a Prison Medical Service and members of the medical profession have long been involved in caring for the mental and physical needs of prisoners For two centuries prison overcrowding has been identified as a major cause of mortality and morbidity in prisons Historical debates thus often have a modern ring to them which make the essays in this volume particularly timely

**Suicide and the Law** Elizabeth Wicks,2023-02-23 This book investigates the law s approach to suicide in England and Wales It explores the seismic shift in perceptions of the law s role in respect of suicide from imprisonment as a punishment for attempting suicide to courts hearing arguments about whether there is not only a right to suicide but also a right to assistance in suicide This development stands alongside a global recognition of suicide prevention as a public health priority In this book the dual priorities of respect for autonomy and the protection of human life are recognised as equally important and the legal issues surrounding suicide in a range of different contemporary contexts including suicide in prison and juvenile suicide are considered The book also investigates what the relationship between mental health and suicide means for its legal regulation and evaluates the enduring legal offence of assisted suicide particularly in the context of the terminally ill It is argued that a more refined approach to the topic of voluntary death should be recognised in the law one that distinguishes more clearly between autonomous decision making about the end of life and incapacitated self caused risks to life that require effective preventative interventions
