Suitably Modern:

Suitably Modern Mark Liechty, 2003 *Suitably Modern* traces the growth of a new middle class in Kathmandu as urban Nepalis harness the modern cultural resources of mass media and consumer goods to build modern identities and pioneer a new sociocultural space in one of the world's least developed countries. Since Nepal's opening in the 1950s, a new urban population of bureaucrats, service personnel, small business owners, and others have worked to make a space between Kathmandu's old and still privileged elites and its large and growing urban poor. Mark Liechty looks at the cultural practices of this new middle class, examining such phenomena as cinema and video viewing, popular music, film magazines, local fashion systems, and advertising. He explores three interactive and mutually constitutive ethnographic terrains: a burgeoning local consumer culture, a growing mass-mediated popular imagination, and a recently emerging youth culture. He shows how an array of local cultural narratives, stories of honor, value, prestige, and piety flow in and around global narratives of progress, modernity, and consumer fulfillment. Urban Nepalis simultaneously adopt and critique these narrative strands, braiding them into local middle class cultural life. Building on both Marxian and Weberian understandings of class, this study moves beyond them to describe the lived experience of middle classness, how class is actually produced and reproduced in everyday practice. It considers how people speak and act themselves into cultural existence, carving out real and conceptual spaces in which to produce class culture.

Becoming Modern Birgitte Søland, 2021-05-11 In the decade following World War I nineteenth century womanhood came under attack not only from feminists but also from innumerable ordinary young women determined to create modern lives for themselves These young women cut their hair wore short skirts worked for wages sought entertainment outside the home and developed new attitudes toward domesticity sexuality and their bodies Historians have generally located the origins of this shift in women's lives in the upheavals of World War I Birgitte Søland's exquisite social and cultural history suggests however that they are to be found not in the war itself but in much broader social and economic changes Søland's engrossing chronicle draws on a rich variety of sources including popular media and medical works as well as archival records and oral histories to examine how notions of femininity and womanhood were reshaped in Denmark a small largely agrarian country that remained neutral during the war It explores changes in the female body and personality the forays of young women into the public sphere the redefinition of female respectability and new understandings of married life as evidenced in both cultural discourses and social practices Though specific in its focus the book raises broad comparative questions as it challenges common assumptions about the social and sexual upheavals that characterized the Western world in the postwar decade In a remarkably engaging fashion it shows why the end of World War I did not lead to the return of normal life in the 1920s

Modern Dharma Paola Tiné,2025-04-08 How middle class families in Nepal pursue well being in a rapidly changing social landscape Modern Dharma asks how middle class Nepalis pursue an ethical good life in a rapidly evolving society In the aftermath of a decade long civil war that raged between 1996 and 2006 social change accelerated in Nepal as the shift to a market economy and the spread of education and media built the foundation for a new middle class to form As it did tension built between the expression of individual will and the expectation to submit to traditional social hierarchies Today people in Nepal are confronted by the need to restructure moral codes and to care for their families while at the same time

they face intense pressure to keep up with the cost of education and to find work in an increasingly competitive labor market. Amidst these changes, people often describe their choices as falling under the broader goal of pursuing well-being. Modern Dharma investigates how and why, amidst often conflicting priorities, people make choices in pursuit of well-being. Anthropologist Paola Tin investigates why many large families separate into smaller nuclei while others maintain intra-generational homes. She asks why and how young people seek the support of their friends while often hiding private desires from their parents. And she investigates the ways that marriage choices and friendship relationships help people navigate the ongoing tangible difficulties engendered by socioeconomic change. By delving into the intricacies of domestic lives among a growing middle class, Modern Dharma works to center the household and kinship relationships as the places where broader global transitions are reflected, resisted, and negotiated. Providing a new perspective on moral personhood in South Asia, this book ultimately sheds new light on the centrality of kinship relationships in initiating and shaping social change. **The**

Modern Anthropology of India Peter Berger, Frank Heidemann, 2013-06-03. The Modern Anthropology of India is an accessible textbook providing a critical overview of the ethnographic work done in India since 1947. It assesses the history of research in each region and serves as a practical and comprehensive guide to the main themes dealt with by ethnographers. It highlights key analytical concepts and paradigms that came to be of relevance in particular regions in the recent history of research in India and which possibly gained a pan-Indian or even trans-Indian significance. Structured according to the states of the Indian union, contributors raise several key questions including: What themes were ethnographers interested in? What are the significant ethnographic contributions? How are peoples, communities, and cultural areas represented? How has the ethnographic research in the area developed? Filling a significant gap in the literature, the book is an invaluable resource to students and researchers in the field of Indian anthropology, ethnography, regional anthropology, and postcolonial studies. It is also of interest to students of South Asian studies in general as it provides an extensive and critical overview of regionally based ethnographic activity undertaken in India. **The Cultural Politics of Markets** Katharine Neilson

Rankin, 2004-04-20. International markets have emerged as the favoured way of achieving not only economic growth and efficiency but also political freedom and social justice. This book is a study of the social embeddedness of markets in an era when the ideology of the free market governs development as much as trade. Using a wide theoretical framework that encompasses both anthropology and geography, Katharine Rankin critiques neoliberal approaches to development, showing that the capitalist market will always be linked to local social structures and cultures of value. Market-led development therefore does not necessarily expand opportunity; rather, it can deepen existing injustice and inequality. Using the example of a traditional Newar market town located in the Kathmandu Valley in Nepal, Rankin explores how the value ascribed to social prestige relates to economic opportunity. Showing how those in subordinate social locations are positioned to critique inequality, Rankin argues that planners should pursue progressive notions of development that recognise the critical

Shakespeare and the Middle Ages Curtis Perry,John Watkins,2009-05-07 Shakespeare and the Middle Ages brings together a distinguished multidisciplinary group of scholars to rethink the medieval origins of modernity Shakespeare provides them with the perfect focus since his works turn back to the Middle Ages as decisively as they anticipate the modern world almost all of the histories depict events during the Hundred Years War and King John glances even further back to the thirteenth century Angevins several of the comedies tragedies and romances rest on medieval sources and there are important medieval antecedents for some of the poetic modes in which he worked as well Several of the essays reread Shakespeare by recovering aspects of his works that are derived from medieval traditions and whose significance has been obscured by the desire to read Shakespeare as the origin of the modern These essays taken cumulatively challenge the idea of any decisive break between the medieval period and early modernity by demonstrating continuities of form and imagination that clearly bridge the gap Other essays explore the ways in which Shakespeare and his contemporaries constructed or imagined relationships between past and present Attending to the way these writers thought about their relationship to the past makes it possible in turn to read against the grain of our own teleological investment in the idea of early modernity A third group of essays reads texts by Shakespeare and his contemporaries as documents participating in social cultural transformation from within This means attending to the way they themselves grapples with the problem of change attempting to respond to new conditions and pressures while holding onto customary habits of thought and imagination Taken together the essays in this volume revisit the very idea of transition in a refreshingly non teleological way
