Sukarno In Retrospect:

Indonesian Destinies Theodore Friend, 2009-07-01 How can such a gentle people as we are be so murderous a prominent Indonesian asks That question and the mysteries of the archipelago's vast contradictions haunt Theodore Friend's remarkable work a narrative of Indonesia during the last half century from the postwar revolution against Dutch imperialism to the unrest of today Part history part meditation on a place and a past observed firsthand Indonesian Destinies penetrates events that gave birth to the world's fourth largest nation and assesses the continuing dangers that threaten to tear it apart Friend reveals Sukarno's character through wartime collaboration with Japan and Suharto's through the mass murder of communists that brought him to power for thirty two years He guides our understanding of the tolerant forms of Islam prevailing among the largest Muslim population in the world and shows growing tensions generated by international terrorism Drawing on a deep knowledge of the country's cultures its leaders and its ordinary people Friend gives a human face and a sense of immediacy to the self-inflicted failures and immeasurable tragedies that cast a shadow over Indonesia's past and future A clear and compelling passion shines through this richly illustrated work Rarely have narrative history and personal historical witness been so seamlessly joined

Shared Hopes, Separate Fears Paul F Gardner, 2019-05-20 This book traces the often tumultuous history of U S Indonesian relations as experienced by those who witnessed and shaped it Gardner himself a first hand observer draws on interviews personal papers and recently declassified documents to provide an intimate view of the aspirations insights and acts of courage that built the U S Indonesian *Retrospective* June

Yap, 2017-08-15 Developed as an exploratory study of artworks by artists of Singapore and Malaysia *Retrospective* attempts to account for contemporary artworks that engage with history These are artworks that reference past events or narratives of the nation and its art Through the examination of a selection of artworks produced between 1990 and 2012 *Retrospective* is both an attribution and an analysis of a historiographical aesthetic within contemporary art practice It considers that by their method and in their assembly these artworks perform more than a representation of a historical past Instead they confront history and its production laying bare the nature and designs of the historical project via their aesthetic project Positing an interdisciplinary approach as necessary for understanding the historiographical as aesthetic *Retrospective* considers not only historical and aesthetic perspectives but also the philosophical by way of ontology in order to broaden its exposition beyond the convention of historical and contextual interpretation of art Yet in associating these artworks with a historiographical aesthetic this exposition may be regarded as a historiographical exercise in itself affirming the significance of these artworks for the history of Singapore and Malaysia In short which history rarely is *Retrospective* is about the art of historicisation and the historicisation of art

Regime Continuity and Change William Case, 1995 **Solo in the New Order** James T. Siegel, 2021-04-13 In this brilliant

ethnography of contemporary Java James Siegel analyzes how language operates to organize and to order an Indonesian people Despite the imposition of Suharto's New Order the inhabitants of the city of Solo continue to adhere to their own complex ideas of deference and hierarchy through translation between high and low Javanese speech styles Siegel uncovers moments when translation fails and compulsive mimicry ensues His examination of communication and its failures also exposes the ways a culture reconstitutes itself It leads to insights into the accidents that precede the formulations of culture as such

Siegel, 1998-08-17 The politics of New Order Jakarta and the regime's dependence on the continued prosecution of somewhat phantasmic internal enemies **In Retrospect** Robert S. The Constitutional Bind Aziz Rana, 2024-04-16 An eye opening account of how Americans came to revere the Constitution and what this reverence has meant domestically and around the world Some Americans today worry that the Federal Constitution is ill equipped to respond to mounting democratic threats and may even exacerbate the worst features of American politics Yet for as long as anyone can remember the Constitution has occupied a quasi mythical status in American political culture which ties ideals of liberty and equality to assumptions about the inherent goodness of the text s design The Constitutional Bind explores how a flawed document came to be so glorified and how this has impacted American life In a pathbreaking retelling of the American experience Aziz Rana shows that today s reverential constitutional culture is a distinctively twentieth century phenomenon Rana connects this widespread idolization to another relatively recent development the rise of US global dominance Ultimately such veneration has had far reaching consequences despite offering a unifying language of reform it has also unleashed an interventionist national security state abroad while undermining the possibility of deeper change at home Revealing how the current constitutional order was forged over the twentieth century The Constitutional Bind also sheds

light on an array of movement activists in Black Indigenous feminist labor and immigrant politics who struggled to imagine different constitutional horizons As time passed these voices of opposition were excised from memory Today they offer essential insights Colonial Exploitation and Economic Development Ewout Frankema,Frans Buelens,2013 Since many countries in the world at present were European colonies in the not so distant past the relationship between colonial institutions and development outcomes is a key topic of study across many disciplines This edited volume from a leading international group of scholars discusses the comparative legacy of colonial rule in the Netherlands Indies and Belgian Congo during the nineteenth and twentieth centuries Whereas the Indonesian economy progressed rapidly during the last three decades of the twentieth century and became a self reliant and assertive world power the Congo regressed into a state of political chaos and endemic violence To which extent do the different legacies of Dutch and Belgian rule explain these different development outcomes if they do at all By discussing the comparative features and development of Dutch and Belgian rule the book aims to 1 to contribute to a deeper understanding of the role of colonial institutional legacies in long run patterns of economic divergence in the modern era 2 to fill in a huge gap in the comparative colonial historical literature which focuses largely on the comparative evolution of the British French Spanish and Portuguese Empires 3 to add a focused and well motivated comparative case study to the increasing strand of literature analyzing the marked differences in economic and political development in Asia and Africa during the postcolonial era Covering such issues as agriculture manufacturing and foreign investment human capital fiscal policy labour coercion and mineral resource management this book offers a highly original and scholarly contribution to the literature on colonial history and development economics

The Social Roots of Indonesian Communism Ruth Thomas McVey,1970 **Intellectuals and Nationalism in Indonesia** J. D. Legge,2010 It has always been a matter of national pride that independence came to Indonesia not as the result of a negotiated transfer of sovereignty though the process was completed in that way but through a struggle of heroic proportions in whose fires the nation itself was forged The revolution indeed is central to the Republic s perception of itself To call it a revolution is of course to beg a number of important questions What is a revolution Is the concept developed in modern thought on the models of the French and Russian revolutions applicable to a nationalist struggle for independence Or must a revolution involve also a transfer of power from one social class to another and a subsequent social transformation For Indonesians looking back to the birth of the nation however such questions do not arise For them there is no question but that the events of 1945 49 constituted a revolution a revolution that is seen as the supreme act of national will the symbol of national self reliance and for those caught up in it as a vast emotional experience in which the people the people as a whole participated directly The exploration of Sjahrir s recruitment of a group of followers during the Japanese Occupation and of the character and attitudes of the group is based in large measure on interviews with its surviving members A highly articulate body of people they clearly enjoyed recalling their youth remembering particular experiences and thinking back on

the issues that had preoccupied them and the ideas that had excited them as students For many of them it had obviously been a golden age perceived all the more vividly now because the world they had hoped for had never come into being There is perhaps a good deal of nostalgia in their memories of what it was like to be a part of a crucial period in their country's history and no doubt some misjudgment about the parts they played Oral history is a risky business given the fallibility of human memory and the tendency for interviewer and subject alike to collaborate in re-shaping the past in the light of their later perspectives The dangers of such a method are discussed below Nevertheless provided it is kept in mind that memories are documents of the present and not of the period with which they deal it is important to gather these recollections while members of the generation in question are still alive
