Criminalising Dissent Aytekin Kaan Kurtul,2025-03-31 This book addresses one of the oldest political offences in the European continent l se majest in light of its historical evolution and the threat it poses to a democratic public sphere in modern day Europe The Republic of Turkey which serves as the focal point of this book epitomises the chilling ab use of l se majest laws due to the sheer number of criminal investigations on the basis of l se majest as well as the relatively low threshold for permissible criticism in defamation cases concerning the head of state In this regard through a comparative analysis encompassing multiple European jurisdictions and international human rights law this work illustrates that the excesses in Turkey should not be treated as an alien practice but rather as a caution for liberal political systems in Europe in view of the Western European origins of Turkish l se majest and the erosion of the rule of law Thus the volume stands as both a warning and a call for the abolition of l se majest laws as a democratic necessity beyond their inherent contradiction with state obligations stemming from international human rights law As a comprehensive work on European l se majest this book will function as a point of reference for legal scholars and practitioners alike as it offers a historical and theoretical background in addition to its rich commentary on how l se majest cases are assessed by domestic criminal courts and international human rights bodies The book will also be of use to political scientists and journalists who wish to learn more about how heads of state can effectively become immune to criticism through the use of criminal law and what can be done when faced with a l se majest charge for doing one s job A History of Cyprus George Hill,2010-09-23 A rich varied history of conquerors and colonizers which recognizes the centrality of Cyprus to the Mediterranean world **Statutory Rules and Orders Other Than Those of a Local, Personal Or Temporary Character (varies Slightly).** Great Britain. Laws, statutes, etc,1915 *Atlantic Reporter* ,1911 *The World Wars - 1871-1945* Ruben Ygua,2025-08-20 Traditional methods of studying the past have always given greater importance to nationalist religious and moral interests which subordinated the historical fact to the System point of view That s how we have been educated The time has come to simplify and show respect for our ancestors striving to know what really happened in the past and not just what they want to inform us about After so

many years of studying History I came to the conclusion that the best study system is through an impartial objective Chronology that just put each event in its exact place in time revealing History without manipulation This Chronology contains not only purely political facts such as the foundation of cities the birth of kingdoms and empires scientific and geographical discoveries natural disasters and epidemics it also includes information on the most different fields of human activity chemistry astronomy geography mathematics and so on In parallel the chronology is complemented by data that do not belong to a specific date but to an entire epoch they are each society generalities curiosities customs the religion of each civilization inventions or discoveries that cannot be placed in an exact date etc The result of all this set is one of the most complete chronologies within its reach periodically updated with the latest archaeological and scientific discoveries and that transforms the reader into an eyewitness of the past understanding the relation of geographically distant facts to each other but closely connected in time and influencing unexpected consequences This is something that traditional history has generally ignored when it was not usable A work of this magnitude could not be published in a single book so I have divided it into several collections and the Spanish originals are being translated into French English Italian and Portuguese The chronology goes from prehistory to the present day year by year as far as possible For those who prefer a deeper and more detailed study I have prepared a second chronology day by day which for now covers from 1789 to 1946 divided into five collections
