Violent Sensations Scott Spector, 2016-09-06 Around the turn of the twentieth century Vienna and Berlin were centers of scientific knowledge accompanied by a sense of triumphalism and confidence in progress Yet they were also sites of fascination with urban decay often focused on sexual and criminal deviants and the tales of violence surrounding them Sensational media reports fed the prurient public's hunger for stories from the criminal underworld sadism sexual murder serial killings accusations of Jewish ritual child murder as well as male and female homosexuality In *Violent Sensations* Scott Spector explores how the protagonists of these stories people at society's margins were given new identities defined by the groundbreaking sciences of psychiatry sexology and criminology and how this expert knowledge was then transmitted to an eager public by journalists covering court cases and police investigations The book analyzes these sexual and criminal subjects on three levels first the expertise of scientists doctors lawyers and scholars second the sensationalism of newspaper scandal and pulp fiction and third the subjective ways that the figures themselves came to understand who they were Throughout Spector answers important questions about how fantasies of extreme depravity and bestiality figure into the central European self image of cities as centers of progressive civilization as well as the ways in which the sciences of social control emerged alongside the burgeoning emancipation of women and homosexuals [Foxy](#)
