Summa Contra Gentiles Saint Thomas (Aquinas), 1975 **The Summa Contra Gentiles of Saint Thomas Aquinas** Saint Thomas (Aquinas), 1928 *Bound for Beatitude A Thomistic Study in Eschatology and Ethics* Reinhard Hütter, 2019
Bound for Beatitude is about St Thomas Aquinas's theology of beatitude and the journey thereto Consequently the work's topic is the meaning and purpose of human life embedded in that of the whole cosmos This study is not an antiquarian exercise in the thought of some sundry medieval thinker but an exercise of ressourcement in the philosophical and theological wisdom of one of the most profound theologians of the Catholic Church one whom the Church has canonized granted the title Doctor of the Church and for a long time regarded as the common doctor This exercise of ressourcement takes its methodological cues from the common doctor hence it is an integrated exercise of philosophical dogmatic and moral theology Its specific theological topic the ultimate human end perfect happiness beatitude and the journey thereto stands at the very heart of St Thomas's theology Far from being passé his theology of beatitude is of urgent pertinence as the crisis of humanity and of creation and the exile of God seems to approach its apogee By way of a presentation interpretation and defense of Thomas Aquinas's doctrine of beatitude and the journey thereto Bound for Beatitude advances an argument based on four theses 1 The loss of a theology of beatitude has greatly impoverished contemporary theology In order to succeed and flourish theology must recover a sound teleological orientation 2 In order to recover a sound teleological orientation theology must recover metaphysics as its privileged instrument 3 Thomas Aquinas provides a still pertinent model for how theology might achieve these goals in a metaphysically profound theology of beatitude and the beatific vision Finally 4 Aquinas's rich and sophisticated account of the virtues charts the journey to beatitude in a way that still has analytic force and striking relevance in the early twenty-first century **The End of Strife** Leland Johnson, 2014-11-10 The purpose of this book is to explain both the causes for the social and cultural breakdowns in today's world as well as the solutions to our societal regression The causes come from multiple fronts and did not develop in a matter of days weeks months years decades or even generations The degenerative process that has led humanity to the suicidal path it is currently embarked upon has taken several centuries of progressive corruption to reach this point However there is a way to reverse course and heal our

society again returning it to its former strength and health The way in which a true peace can be realized in this world will be explained It must be admitted that what it takes to achieve a more universal peace is difficult and burdensome on people for many and various reasons However when the reader looks at the state of the world today it is hopeful that they will choose the difficult and burdensome road required in order to maintain a peaceful civilization rather than the bloody chaos and anarchy transpiring in today s world

Blessed Are the Peacemakers Lisa Sowle Cahill,2019-03-02 This book is a contribution to the Christian ethics of war and peace It advances peacebuilding as a needed challenge to and expansion of the traditional framework of just war theory and pacifism It builds on a critical reading of historical landmarks from the Bible through Augustine Aquinas the Reformers Christian peace movements and key modern figures like Dietrich Bonhoeffer Reinhold Niebuhr and recent popes Similar to just war theory peacebuilding is committed to social change and social justice but includes some theorists and practitioners who accept the use of force in extreme cases of self defense or humanitarian intervention Unlike just war theorists they do not see the justification of war as part of the Christian mission Unlike traditional pacifists they do see social change as necessary and possible and as such requiring Christian participation in public efforts Cahill argues that transformative Christian social participation is demanded by the gospel and the example of Jesus and can produce the avoidance resolution or reduction of conflicts And yet obstacles are significant and expectations must be realistic Decisions to use armed force against injustice even when they meet the criteria of just war will be ambiguous and tragic from a Christian perspective Regarding war and peace the focus of Christian theology ethics and practice should not be on justifying war but on practical and hopeful interreligious peacebuilding

Ethics of Procreation and the Defense of Human Life Martin Rhonheimer,2010-02 A rigorous philosophical analysis of some of the most disputed questions in Catholic sexual ethics

Aquinas on Beatific Charity and the Problem of Love Christopher J. Malloy,2019-10-29 Christopher J Malloy s Aquinas on Beatific Charity and the Problem of Love examines the relationship between the desire for happiness and the love of another chiefly the love of God for His own sake Great thinkers judge the matters connected with this problem differently Aristotle and others contend that the desire for happiness grounds ethical activity Others contend that a pure love of God or of the other is not founded on desire for happiness The former charge the latter with leaving love groundless and the latter charge the former with reducing love to egoism Aquinas s appreciation of the Aristotelian tradition is forefront in his classic treatment of human action which begins with the desire for happiness Accordingly many readers proponents and critics read Aquinas as simply eudaimonistic There are however other principles at work in his thought these suggest a simple but profound difficulty in his thought one reflective of the subtlety of real life Are the two sets of principles contradictory Juxtaposed Considering beatific charity as the ultimate lens for this problem Malloy proposes that Aquinas s texts and principles are hierarchically harmonious while developmentally complex They indicate that love of happiness has a foundational role in human action and that love of God for His own sake has priority in

the order of finality This ordered balance depends upon a conception of the common good in accord with a metaphysics of participation as having existence and formal perfection from and in likeness to the One Who Is created persons incline to love God more than and more intensely than themselves Thus love of the Divine Other while indeed the supreme love especially as deified through charity does not demand disinterested love God truly is man's good His true lover longs to be with Him

Holistic Bioethics Jude Thaddaeus Buyondo, 2024-10-31 In pursuing a holistic bioethics while dialoguing with different sciences appreciation of moral affinities between human and nonhuman entities Dr Buyondo argues for a minimum moral status for nonhuman entities The minimum normative basics of approaches to biomedical ethics are at the very least not distinctive to either human animals or nonhuman animals only The investigation builds further on the African understanding of life where no creation is lifeless In establishing a more inclusive functional bioethics the African approach goes further than biocentrism ecocentrism and holism to ground an inclusive African holistic moral egalitarianism suggesting that all forces and all created things have life We are not emphasizing how every system and creature command equal respect rather everything has life commands respect and moral concern as a minimum imperative within a Black African holistic approach to bioethics However holistic bioethics can neither be Western nor an African invention that people of other cultures only admire from a distance Moreover holistic bioethics doesn't offer the last word on the ethics of nonhuman animals holistic anamnestic solidarity the relational Other and intercultural theological bioethics Debating Same-Sex Marriage John

Corvino, Maggie Gallagher, 2012-06 Polls and election results show Americans sharply divided on same sex marriage and the controversy is unlikely to subside anytime soon Debating Same Sex Marriage provides an indispensable roadmap to the ongoing debate Taking a point counterpoint approach John Corvino a philosopher and prominent gay advocate and Maggie Gallagher a nationally syndicated columnist and co founder of the National Organization for Marriage explore fundamental questions What is marriage for Is sexual difference essential to it Why does the government sanction it What are the implications of same sex marriage for children's welfare for religious freedom and for our understanding of marriage itself While the authors disagree on many points they share the following conviction Because marriage is a vital public institution this issue deserves a comprehensive rigorous thoughtful debate **The Natural World and God** Denis

Edwards, 2017-12-31 How are we to think about the natural world around us in relation to the God of Jesus Astronomers cosmologists and evolutionary biologists have opened wonderfully new ways of seeing the community of life on Earth and its place in the universe At the same time we are facing an extreme crisis of life on our planet Both of these realities demand that we rethink our theology of animals plants ecosystems as well as galaxies and stars In this book Denis Edwards collects together a series of explorations into this kind of theology **The Metaphysics of Good and Evil** David S.

Oderberg, 2019-11-22 The Metaphysics of Good and Evil is the first full length contemporary defence from the perspective of analytic philosophy of the Scholastic theory of good and evil the theory of Aristotle Augustine Aquinas and most medieval and

Thomistic philosophers Goodness is analysed as obedience to nature Evil is analysed as the privation of goodness Goodness surprisingly is found in the non living world but in the living world it takes on a special character The book analyses various kinds of goodness showing how they fit into the Scholastic theory The privation theory of evil is given its most comprehensive contemporary defence including an account of truthmakers for truths of privation and an analysis of how causation by privation should be understood In the end all evil is deviance a departure from the goodness prescribed by a thing's essential nature Key Features Offers a comprehensive defence of a venerable metaphysical theory conducted using the concepts and methods of analytic philosophy Revives a much neglected approach to the question of good and evil in their most general nature Shows how Aristotelian Thomistic theory has more than historical relevance to a fundamental philosophical issue but can be applied in a way that is both defensible and yet accessible to the modern philosopher Provides what for the Scholastic philosopher is arguably the only solid metaphysical foundation for a separate treatment of the origins of morality **What's**

Wrong with Homosexuality? John Corvino,2013-02-01 For the last twenty years John Corvino has traversed the country responding to moral and religious arguments against same sex relationships In this timely book he shares that experience both by addressing the standard objections and by offering insight into the culture wars more generally In the process he makes a fresh case for moral engagement forcefully rejecting the idea that morality is a private matter **The**

Transgression of the Integrity of God Craig Keen,2012-03-01 In this dark when we all talk at once some of us must learn to whistle In this comprehensive collection of his work Craig Keen's voice emerges as that of a theologian who has indeed learned to whistle In a day when much of what passes for academic theology is careful to maintain a safe distance from any determinate act of faith or work of praise Keen evinces a single minded determination to think and to speak to write and to live doxologically And whether writing or lecturing teaching or conversing Keen understands theology to be nothing less than an invitation to work out one's faith with fear and trembling Throughout this volume Keen argues that the life death and resurrection of Jesus disrupt all metaphysical attempts to determine the reality of God and suggests instead that theology is to be done liturgically and eucharistically as the work of a people whose labor is carried out with open hands free from all attempts to grasp and control Keen discusses doctrinal issues the Trinity incarnation creation as well as a number of critical theological concerns church and culture justice holiness Christian education in this light The result is a profound set of reflections on the ways in which the word of the cross simultaneously transgresses our constructions of God and gives us to live transgressively in love *Looking At Gay & Lesbian Life* Diane Raymond,1993-06-30 Discusses gender roles human

sexuality prejudice discrimination lesbian and gay politics AIDS gay culture and the homosexual in literature **Astrology through History** William E. Burns,2018-07-20 Alphabetically arranged entries cover the history of astrology from ancient Mesopotamia to the 21st century In addition to surveying the Western tradition the book explores Islamic Indian East Asian and Mesoamerican astrology The field of astrology is growing rapidly as historians recognize its centrality to the intellectual

life of the past and sociologists and anthropologists treat its importance in a number of modern cultures Despite the historical and cultural significance of the subject most reference works on astrology focus on instructional techniques and are written by astrologers with little or no interest in the history of the topic This book instead offers an objective treatment of astrology across world history from ancient Mesopotamia to the present The book provides alphabetically arranged entries by expert contributors writing on such topics as horoscopes court astrologers Renaissance astrology and comets While it considers the Western tradition it also treats Islamic Indian East Asian and Mesoamerican astrology In doing so it explores the role of astrology in shaping science literature religion art and other defining cultural traditions Sidebars offer excerpts from various historical texts while entries provide suggestions for further reading
