40 Ways to Support Struggling Readers in Content Classrooms, Grades 6-12 Elaine K. McEwan,2007-05-01

Provides 40 research based methods with suggestions for easy implementation to help struggling readers and features three tables of contents traditional topical and problem solving formatted for quick reference Addressing the Needs of All Learners in the Era of Changing Standards Katherine S. McKnight,2016-06-08 The new standards were written to address the harsh realities for poor performance of American students across all grades levels k 12 According to NAEP National Assessment of Educational Progress data more than 60% of our students in grades 4 8 and 12 are not proficient readers and the United States is one of the lowest performing in mathematics The statistics are even more staggering for our children who live in poverty students with disabilities and English Language Learners The new standards have sent a clear message all students must be engaged deeper learning This deeper level of understanding and comprehension is communicated through a more sophisticated and independent level of applied literacy skills In this book some of our leading educators envision the standards as a vehicle to provide more rigorous instruction and illustrate how teachers are uniquely qualified to determine the most effective methods for developing students skills and close the achievement gap *The Comprehensive Handbook of Constructivist Teaching* James Pelech,2010-02-01 While many people talk about the Constructivist philosophy there has not been a publication that provides a detailed description of what a Constructivist classroom sounds like and looks like This book fills that void by examining the philosophy translating it into teaching strategies and providing over forty examples These examples come from the elementary level up to and including the collegiate level and include all content areas These examples show how the Constructivist educator uses the linguistic mode the visual mode and the kinesthetic mode to create a class environment in which the Constructivist philosophy flourishes Examples of student work are provided the book also includes chapters on note taking Problem Based Learning PBL action research and other Constructivist resources Written in user friendly form this book presents a concrete and step by step approach for translating the Constructivist philosophy into classroom practice This book is intended for every Constructivist researcher practitioner and teacher educator The researcher and teacher educator will benefit from topics such as the history of Constructivist thought the principles of Constructivism and action research This book is more than a list of recipes and this will be beneficial to the practitioner Starting with the principles of Constructivism and bridging to four basic teaching strategies the practitioner is guided on how to use different learning modes and meta strategies to create a true Constructivist practice An educator s life is made up of one s philosophy teaching principles daily strategies resources and research tools This book provides an in depth look from the Constructivist perspective at each one of these components In every sense of the word this book is truly comprehensive Unleashing the Potential of the Teenage Brain Barry Corbin,2008 The information is practical and the examples make the material very easy to apply The tone of the book is perfect for educators of middle and high school

students there's just the right amount of humor about the idiosyncrasies of this age group as well as an appreciation for the rewards of teaching and working with adolescents Kathy Tritz Rhodes Teacher Marcus Meriden Cleghorn Schools Marcus IA

A thought provoking resource firmly grounded in research and best practice this handbook of exemplary ideas for teaching the teenage brain is organized in a brain compatible format and includes a wealth of instructional strategies from engaging activators to rich opportunities for reflection A must read for all educators and an excellent resource for faculty study groups and book clubs Susan LeBel Programs Coordinator Annapolis Valley Regional School Board Nova Scotia Canada Create brain friendly learning environments that meet the needs of growing changing adolescents This resource helps teachers create the ideal classroom environment based on the latest neuroscientific research on teenagers and the implications for their social emotional and intellectual development The author presents ten powerful ideas that integrate new and existing theories to help teachers create effective brain compatible classrooms Each idea includes Case studies and examples of strategies that illustrate how to translate theory into workable classroom practice Descriptions of the changing roles and expectations for both teachers and students in the brain compatible classroom Specific guidelines for establishing an optimal learning environment When you combine an understanding of how the brain learns with proven brain friendly techniques teaching and learning will be more effective and fun for both teachers and students
