**Summer Comes Slowly** Rosemary Pollock,1976      **On the Slow Train Again** Michael Williams,2011-04-07 Michael Williams has spent the past year travelling along the fascinating rail byways of Britain for this new collection of journeys Here is the train to the end of the world running for more than four splendid hours through lake loch and moorland from Inverness to Wick the most northerly town in Britain He discovers a perfect country branch line in London s commuterland and travels on one of the slowest services in the land along the shores of the lovely Dovey estuary to the far west of Wales He takes the stopping train across the Pennines on a line with so few services that its glorious scenery is a secret known only to the regulars Here too is the Bittern Line in Norfolk and the Tarka Line in North Devon as well as the little branch line to the fishing port of Looe in Cornwall rescued from closure in the 1960s and now celebrating its 150th anniversary taking families on holiday to the seaside From the most luxurious and historic aboard the Orient Express to the most futuristic on the driverless trains of London s Docklands Light Railway here is a unique travel companion celebrating the treasures of our railway heritage from one of Britain s most knowledgeable railway writers      **A Clock Without Hands** Guy Burt,2007-12-18 I want to turn back the hands on the clock and change it all make it different three friends who meet up by chance in an old city and share a beer and laugh at old stories and jokes But it wasn t like that and the clock has no hands so I can t turn them back p 171 Alex Carlise has returned to a place he thought he d never see again outside of his dreams As he walks the ochre dusted road to the house in which he grew up the memories of his young life in a small Italian town push all other thoughts out of his head thoughts about the major exhibition of his artwork opening soon in London thoughts of the myriad things he should be doing in preparation everything subsides to make room for the warm flood of a time long past When he opens the door to the now deserted house he is suddenly seven again There is Jamie his first friend his best friend Anna his first love and the delicious days they spent exploring the valley and swimming in the cerulean blue Mediterranean Sea It all comes back to Alex in a way he can neither control nor discern But the memories are insistent demanding Soon Alex loses entire hours to the past overwhelmed by the haunting memories of a youth turned tragic Alex remembers the day he Jamie and Anna went to their favorite place an abandoned church far up in the hills There they stumbled upon a man injured and sick From this discovery a series of events tumbled forth that would change them all forever Alex now realizes that he must confront the truth about himself about the echoes of the past that still haunt him and about the friends whose legacy has meant only devastation Guy Burt s vision of youth is piercingly accurate and his sense of how time can play tricks on the mind is startling Haunting eerie and remarkably assured **The Clock Without Hands** will resonate with the child that hides inside your own memories      **The Schoolmate** A. anthology author Ted Rulseh expresses his deep affinity with that singular body of water we call Lake Michigan In a collection of 107 seasonally grouped essays that first appeared in his regular column in the Manitowoc Herald Times Reporter his easy prose is at once rich and satisfyingly restrained While he waxes nearly poetic in some passages he never allows his writing to wallow in cheap sentimentality Instead he lets the life of the Lake his hometown of Two Rivers and adjoining lakeshore communities speak for itself with quietly compelling results On the Pond evokes a sense of place strong enough to take a rightful position alongside the works of the most celebrated American writers With the eye of a writer the soul of an outdoorsman and the heart of a small town boy Ted Rulseh brings home the essence of life next to one of the most fabled of the Great Lakes in all its many moods From the sudden and unpredictable storms of autumn and shrieking winter gales to the tentative warmth of spring and summer s full glory Lake Michigan is revealed as an alternately soothing and tempestuous but never dull neighbor A pleasing chronicle of small town life that manages to hang on amid the relentless march of time and technology this book is also a keenly observant naturalist s journal Let it take you away for a while to a place where gulls wheel above steel gray waves and dune walkers pull their jackets a little tighter Book jacket

Conservation in the Anthropocene Fred Van Dyke, 2025-03-06 This book provides a critical assessment of conservation in the Anthropocene grounded in the personal historical and cultural development of human interaction with nature The author argues that conservation can no longer be primarily about preserving nature but must adapt its efforts to promote changes through which humans create a landscape that is neither abandoned nor degraded but used well by humans and non humans alike The book first reviews the origin of ideas and conditions that have led to the concept and classification of the Anthropocene and explores how the author s own interactions with nature were shaped through his experience as a conservation biologist Next it considers how humans have come to be the primary drivers of ecological activity geological events and climate change Chapters then focus on the need for new conservation thinking regarding novel ecosystems urban conservation the role of Indigenous Peoples in conservation and the value of protected areas PAs parks and wilderness The book concludes by identifying strategies for effective conservation and argues for a new formulation of conservation values that redefine human relationships and interaction with nature Chapters are enlivened by the personal experiences of the author and the first person narratives of conservation activists and scientists throughout the world who are learning to practice and succeed in conservation efforts under Anthropogenic conditions Drawing on global examples this book will be of great value to students and scholars of biodiversity conservation and environmental science ready to consider a new way of looking at the care and nurture of nature in the Anthropocene
