thinker with a powerful influence on current educational approaches and philosophy A S Neill is the first book to examine this philosophy of education in detail It begins by showing how Neill's fascinating life story gives clues to the origin of his

ideas and why they mattered so much to him It goes on to explore the main themes of his philosophy showing how they relate

**The Legend of the Black Mecca** Maurice J. Hobson,2017-10-03 For more than a century the city of Atlanta has been associated with black achievement in education business politics media and music earning it the nickname the black Mecca Atlanta's long tradition of black education dates back to Reconstruction and produced an elite that flourished in spite of Jim Crow rose to leadership during the civil rights movement and then took power in the 1970s by building a coalition between white progressives business interests and black Atlantans But as Maurice J Hobson demonstrates Atlanta's political leadership from the election

of Maynard Jackson Atlanta's first black mayor through the city's hosting of the 1996 Olympic Games has consistently mishandled the black poor Drawn from vivid primary sources and unnerving oral histories of working class city dwellers and hip hop artists from Atlanta's underbelly Hobson argues that Atlanta's political leadership has governed by bargaining with white business interests to the detriment of ordinary black Atlantans In telling this history through the prism of the black New South and Atlanta politics policy and pop culture Hobson portrays a striking schism between the black political elite and poor city dwellers complicating the long held view of Atlanta as a mecca for black people
