Ameliorating Mental Disability Alfred A. Baumeister, 2017-07-12 This book grows out of the optimistic view that mental retardation can be treated It views mental retardation primarily as a behavioral problem A child is diagnosed as retarded primarily because he behaves in certain maladaptive ways not simply because he may have a chromosomal anomaly The contributors view any intervention intended to produce adaptive changes in the behavior of the retarded as treatment The authors come from the fields of medicine special education and speech and hearing as well as from psychology The book is intended to help students and workers in the field apply research findings and theoretical formulations in their appraisal and treatment of mental retardation The primary emphasis of the book is empirical While many of the author's suggestions have not been subjected to rigorous experimental scrutiny almost all have been derived from close examination of the research literature A wide diversity of topics are included in this volume Criteria employed were the relevance of the topic to the understanding and modification of defective behavior and the subject's popularity or neglect in other sources Ameliorating Mental Disability will be of interest to medical officers in institutions for the mentally challenged lecturers giving courses for teachers of the educationally subnormal and to psychologists social workers and teachers

Companion to an Untold Story Marcia Aldrich, 2012-09-15 When Marcia Aldrich's friend took his own life at the age of forty six they had known each other many years As part of his preparations for death he gave her many of his possessions concealing his purposes in doing so and when he committed his long contemplated act he was alone in a bare apartment In Companion to an Untold Story Aldrich struggles with her own failure to act on her suspicions about her friend's intentions She pieces together the rough outline of his plan to die and the details of its execution Yet she acknowledges that she cannot provide a complete narrative of why he killed himself The story remains private to her friend and out of that difficulty is born another story the aftershocks of his suicide and the author's responses to what it set in motion This book modeled on the type of reference book called a companion attempts to find a form adequate to the way these two stories criss cross tangle knot and break Organized alphabetically the entries introduce document and reflect upon how suicide is so resistant to acceptance that it swallows up other aspects of a person's life Aldrich finds an indirect approach to her friend's death assembling letters objects and memories to archive an ungrievable loss and create a memorial to a life that does not easily make a claim on public
