Penningroth, 2004-07-21 In *The Claims of Kinfolk* Dylan Penningroth uncovers an extensive informal economy of property ownership among slaves and sheds new light on African American family and community life from the heyday of plantation slavery to the freedom generation of the 1870s By focusing on relationships among blacks as well as on the more familiar struggles between the races Penningroth exposes a dynamic process of community and family definition He also includes a comparative analysis of slavery and slave property ownership along the Gold Coast in West Africa revealing significant differences between the African and American contexts Property ownership was widespread among slaves across the

antebellum South as slaves seized the small opportunities for ownership permitted by their masters While there was no legal framework to protect or even recognize slaves property rights an informal system of acknowledgment recognized by both blacks and whites enabled slaves to mark the boundaries of possession In turn property ownership and the negotiations it entailed influenced and shaped kinship and community ties Enriching common notions of slave life Penningroth reveals how property ownership engendered conflict as well as solidarity within black families and communities Moreover he demonstrates that property had less to do with individual legal rights than with constantly negotiated extralegal social ties
