*A History of Western Appreciation of English-translated Tang Poetry* Lan Jiang, 2018-03-08 This book examines the development of English translated Tang poetry and its propagation to the Western world It consists of two parts the first of which addresses the initial stage of English translated Tang poetry's propagation and the second exploring its further development By analyzing the historical background and characteristics of these two stages the book traces the trend back to its roots discusses some well known early sinologists and their contributions and familiarizes readers with the general course of Tang poetry's development In addition it presents the translated versions of many Tang poems The dissemination of Tang poetry to the Western world is a significant event in the history of cross cultural communication From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts the Tang poetry translators gradually constructed a classic Chinese style in modern American poetry Hence the traditional Chinese culture represented by Tang poetry spread more widely in the English speaking world producing a more lasting impact on societies and cultures outside China and demonstrating the poetry's ability to transcend the boundaries of time region nationality and culture Due to different cultural backgrounds the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process However in recent decades the translation of Tang poetry has evolved considerably in both quantity and quality As culture is manifested in language and language is part of culture the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture

**The City of Ye in the Chinese Literary Landscape** Joanne Tsao, 2020-01-20 In *The City of Ye in the Chinese Literary Landscape* Joanne Tsao demonstrates how the city of Ye changed from an iconic space that represented Cao Cao's heroic enterprise to a symbol of the fruitlessness of human endeavour and then finally to a literary landmark, a synecdoche for the vicissitudes of human life caught in the predictable cycles of dynastic rise and decline. Through a close reading of literary works on Ye, she illustrates how the city transformed from a lived to an imaginative space to become a symbol in the poetic lexicon. Making use of literary and historical texts on Ye and its material remains through the Song and beyond, she shows the potency of place as a generative force in literary production and in historical discourse.

**The United States and China** John King Fairbank, 1983 Focusing on China during the last twenty-five years, the author illuminates the country's traditions, customs, political structure, and economy.

**Maxine Hong Kingston's *The Woman Warrior*** Sau-ling Cynthia Wong, 1999 With the continued expansion of the literary canon, multicultural works of modern literary fiction and autobiography have assumed an increasing importance for students and scholars of American literature. This exciting new series assembles key documents and criticism concerning these works that have so recently become central components of the American literature curriculum. Each casebook will reprint documents relating to the work's historical context and reception, present the best in critical essays, and when possible, feature an interview of the author. The series will provide for the first time an accessible forum in which readers can come to a fuller understanding of these contemporary masterpieces and the unique aspects of American ethnic racial or cultural experience that they so ably portray. This casebook presents a thought-provoking overview of critical debates surrounding *The Woman Warrior*, perhaps the best-known Asian American literary work. The essays deal with such issues as the reception by various interpretive communities, canon formation, cultural authenticity, fictionality in autobiography, and feminist and poststructuralist subjectivity. The eight essays are supplemented by an interview with the author and a bibliography.

**The Poet Zheng Zhen (1806-1864) and the Rise of Chinese Modernity** Jerry D. Schmidt, 2013-06-20 In *The Poet Zheng Zhen 1806-1864 and the Rise of Chinese Modernity* J. D. Schmidt provides the first detailed study in a Western language of one of China's greatest poets and explores the nineteenth-century background to Chinese modernity, challenging the widely held view that this is largely of Western origin. The volume contains a study of Zheng's life and times, an examination of his thought and literary theory, and four chapters studying his highly original contributions to poetry on the human realm, nature, verse, narrative poetry, and the poetry of ideas, including his writings on science and technology. Over a hundred pages of translations of his verse conclude the work.

**Bridge Across Broken Time** Vera Schwarcz, 1998-01-01 Schwarcz uncovers resonances between the narratives of Chinese intellectuals recovering from the trauma of the Cultural Revolution and the halting tales of her own parents.

*Iconic Investigations* Lars Elleström, Olga Fischer, Christina Ljungberg, 2013-03-28 The contributions to *Iconic Investigations* deal with linguistic or literary aspects of language While some studies analyze the cognitive structures of language others pay close attention to the sounds of spoken language and the visual characteristics of written language In addition this volume also contains studies of media types such as music and visual images that are integrated into the overall project to deepen the understanding of iconicity the creation of meaning by way of similarity relations Iconicity is a fundamental but relatively unexplored part of signification in language and other media types During the last decades the study of iconicity has emerged as a vital research area with far reaching interdisciplinary scope and the volume should be of interest for students and researchers interested in scholarly fields such as semiotics cognitive linguistics conceptual metaphor studies poetry intermediality and multimodality
