Sunken Island:

The Sunken Island of Atlantis Unger, 1865 *Walking in Paradise* Elizabeth Creelman, Libby Creelman, 2000

Newfoundland writer Libby Creelman finds the emotional heart of her characters characters continually seeking and breaking connections with others though they rarely know it A girl welcomes cruelty into her life in an attempt to get closer to a father living with chronic pain A woman obsessed with her lineage draws her family into inheriting more than they bargained for A young boy burdened by the adults with whom he keeps company arrives at the end of a brief sailing trip directing their futures as well as his own A woman returns home to spend a weekend with old high school friends and at last understands something about her mother that had been trailing her for years Suddenly her voice turns soft almost tender But you know what you used to say at bedtime don't you You used to hold my face in your hands and say You're the best mommy in the universe She wants us to savour the image of me holding her face cherishing her reading her mind These are stories about dislocation and about home about leaving it returning to it needing it rejecting it crafted in a style that is controlled yet sympathetic Vanished Islands and Hidden Continents of the Pacific Patrick D. Nunn, 2008-10-31

Islands as well as entire continents are reputed to have disappeared in many parts of the world Yet there is little information on this subject concerning its largest ocean the Pacific Over the years geologists have amassed data that point to the undeniable fact of islands having disappeared in the Pacific a phenomenon that the oral traditions of many groups of Pacific Islanders also highlight There are even a few instances where fragments of Pacific continents have disappeared becoming hidden from view rather than being submerged In this scientifically rigorous yet readily comprehensible account of the fascinating subject of vanished islands and hidden continents in the Pacific the author ranges far and wide from explanations of the region's ancient history to the meanings of island myths Using both original and up to date information he shows that there is real value in bringing together myths and the geological understanding of land movements A description of the Pacific Basin and the ups and downs of the land within its vast ocean is followed by chapters explaining how long before humans arrived in this part of the world islands and continents that no longer exist were once present A succinct account is given of human settlement of the region and the establishment of cultural contexts for the observation of occasional catastrophic earth surface changes and their encryption in folklore The author also addresses the persistent myths of a sunken continent in the Pacific which became widespread after European arrival and were subsequently incorporated into new age and pseudoscience explanations of our planet and its inhabitants Finally he presents original data and research on island disappearances witnessed by humans recorded in oral and written traditions and judged by geoscience to be authentic Examples are drawn from throughout the Pacific showing that not only have islands collapsed and even vanished within the past few hundred years but that they are also liable to do so in the future *India Directory, Or, Directions for Sailing to and from the East Indies, China, Australia, Cape of Good Hope, Brazil, and the Interjacent Ports* James Horsburgh, 1836
