## Sunset Park:

**Sunset Park--Sunset Park** ,1980      *Sunset Park Walking Tours* Tony Giordano,Renee Giordano,Sunset Park Restoration Committee,1990      *SUNSET PARK PB* ,1998-09-17 Few contemporary photographers are as closely identified with one place as Thomas Roma is with Brooklyn New York Begun in 1991 and made over the course of several summers this selection of 41 duotone photographs from Roma s Sunset Park Pool series expresses in sensual images the lassitude of hot afternoons at a huge community swimming pool      **Multifamily Housing Rehabilitation** United States. Congress. Senate. Committee on Banking, Housing, and Urban Affairs. Subcommittee on Housing and Urban Affairs,1979      Michigan Geographic Names Information System Alphabetical List ,1988      **The Citrus Industry** ,1924      Beyond Sun and Sand Sherrie L. Baver,Barbara D. Lynch,2006 Annotation Bringing together ten essays by social scientists and activists this book provides the most comprehensive exploration of the range of environmental issues facing the region and the social movements that have developed to deal with them The authors consider the role that global and regional political economies play in this process      *America's Changing Neighborhoods* Reed Ueda,2017-09-21 A unique panoramic survey of ethnic groups throughout the United States that explores the diverse communities in every region state and big city Race ethnicity and immigrants lives and identity these are all key topics that Americans need to study in order to fully understand U S culture society politics economics and history Learning about place through our own historical and contemporary neighborhoods is an ideal way to better grasp the important role of race and ethnicity in the United States This reference work comprehensively covers both historical and contemporary ethnic and immigrant neighborhoods through A Z entries that explore the places and people in every major U S region and neighborhood America s Changing Neighborhoods An Exploration of Diversity uniquely combines the history of ethnic groups with the history of communities offering an interdisciplinary examination of the nation s makeup It gives readers perspective and insight into ethnicity and race based on the geography of enclaves across the nation in regions and in specific cities or localized areas within a city Among the entries are nearly 200 neighborhood biographies that provide histories of local communities and their ethnic groups Images sidebars cross references at the end of each entry and cross indexing of entries serve readers conducting preliminary as well as in depth research The book s state by state entries also offer population data and an appendix of ancestry statistics from the U S Census Bureau details ethnic and racial diversity      **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1954** United States. Internal Revenue Service,2002      **Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986** ,1990      Publication ,1991      *Library of Congress Subject Headings* Library of Congress,2010      Contemporary Asian American Communities Linda Trinh Võ,Rick Bonus,2009 Once thought of in terms of geographically bounded spaces Asian America has undergone profound changes as a result of post 1965 immigration as well as the growth and reshaping of established communities This

collection of original essays demonstrates that conventional notions of community of ethnic enclaves determined by exclusion and ghettoization now have limited use in explaining the dynamic processes of contemporary community formation Writing from a variety of perspectives these contributors expand the concept of community to include sites not necessarily bounded by space formations around gender class sexuality and generation reveal new processes as well as the demographic diversity of today's Asian American population The case studies gathered here speak to the fluidity of these communities and to the need for new analytic approaches to account for the similarities and differences between them Taken together these essays forcefully argue that it is time to replace the outworn concept of a monolithic Asian America

**Chinatown around the World** Bernard P. Wong, Chee-Beng Tan, 2013-03-21 The phenomenon of Chinatown has been of great interest to the general public as well as scholars Movies and story books have made Chinatown to be exotic mysterious gangster filled and sometimes a gilded ghetto an ethnopoliis a cultural diaspora as well as a model community The authors of Chinatowns around the World seek to expose the social reality of Chinatowns with empirical data The authors also examine the changing nature and functions of Chinatowns around the world while scrutinizing how factors emanating from larger societies and other external factors have shaped Chinatown development and transformation The activities of the recent Chinese transnational migrants are also critically appraised

**New People in Old Neighborhoods** Louis Winnick, 1990-10-30 The recent wave of immigration into this country has given rise to myriad concerns from the worries about the impact of immigration on the nation's economy to questions about whether multilingual education should be used in public schools The resulting debates have overshadowed some very good news this influx of New Immigrants has resulted in an astonishing rebirth of many of our older decaying cities Nowhere has this demographic renewal been more apparent than in New York City as Louis Winnick demonstrates in New People in Old Neighborhoods a timely and perceptive study of the effects of immigration in Brooklyn's Sunset Park Sunset Park was born of the late nineteenth century flood of immigrants who developed a prosperous waterfront commerce by the end of World War I the community had achieved a thriving maturity Yet the decades following World War II brought about a period of urban decay lifted only by the post 1965 influx of more than 20 000 immigrants most notably from Asia and the Caribbean Basin These New Immigrants not only revived the dying community but enriched it with greater ethnic diversity than it had ever known Winnick combines data on ethnic change and living patterns with data on employment housing school enrollment and subway ridership to study the revitalization of Sunset Park He discusses the ethnic composition and characteristics of the new immigrants trends in self employment and entrepreneurship microcapitalism immigrant impact upon retailing manufacturing and the lower echelons of the service industries skill and education levels and presence in the professions Winnick also discusses the immigrants positive effect on faltering New York systems such as the subways and public schools and places immigrant renewal within the larger context of overall housing and economic regeneration in New York City New People in Old Neighborhoods views today's immigrants as the historic

heirs to the community builders of the last century and offers important insights into the often troubled yet transforming relationship between the nation and its foreign born population The future of these immigrants will be a yardstick to measure the quality and performance of our cities and their neighborhoods in the years ahead *Ethics in Design and*

*Communication* Laura Scherling, Andrew DeRosa, 2020-02-20 This timely collection brings together critical analytic historical and practical studies to address what ethics means in the practice of design Designers face the same challenges as everyone else in the complex conditions of contemporary cultural life choices about consumption waste exploitation ecological damage and political problems built into the supply chains on which the global systems of inequity currently balance precariously But designers face the additional dilemma that their paid work is often entangled with promoting the same systems such critical approaches seek to redress how to reconcile this contradiction among others in seeking to chart an ethical course of action while still functioning effectively in the world *Ethics in Design and Communication* acknowledges the complexity of this subject matter while also demonstrating that in the ongoing struggle towards an equitable and sustainable world the talents of design and critical thought are essential Featured case studies include graphic design internships today the dark web and media coverage of the 2016 US presidential election The fact that within this book such a wide array of practitioners scholars critics and professionals commit to addressing current injustices is already a positive sign Nonetheless it is essential that we guard against confusing the coercive force of moral imperatives with ethical deliberation when conceiving a foundation for action *Green Gentrification* Kenneth Gould, Tammy Lewis, 2016-07-15

*Green Gentrification* looks at the social consequences of urban greening from an environmental justice and sustainable development perspective Through a comparative examination of five cases of urban greening in Brooklyn New York it demonstrates that such initiatives while positive for the environment tend to increase inequality and thus undermine the social pillar of sustainable development Although greening is ostensibly intended to improve environmental conditions in neighborhoods it generates green gentrification that pushes out the working class and people of color and attracts white wealthier in migrants Simply put urban greening richens and whitens remaking the city for the sustainability class Without equity oriented public policy intervention urban greening is negatively redistributive in global cities This book argues that environmental injustice outcomes are not inevitable Early public policy interventions aimed at neighborhood stabilization can create more just sustainability outcomes It highlights the negative social consequences of green growth coalition efforts to green the global city and suggests policy choices to address them The book applies the lessons learned from green gentrification in Brooklyn to urban greening initiatives globally It offers comparison with other greening global cities This is a timely and original book for all those studying environmental justice urban planning environmental sociology and sustainable development as well as urban environmental activists city planners and policy makers interested in issues of urban greening and gentrification
