Sunshine Widows Adapting To Sudden Bereavement:

The Sunshine Widows Carol D. H. Harvey, Howard M. Bahr, 1980 The Widowed Self Deborah Kestin van den Hoonaard, 2009-10-22 How do older women come to terms with widowhood Are they vulnerable or courageous predictable or creative in dealing with this life challenge Most books about widows usually focus on younger women this book interweaves the voices of older widows their experiences and insights to show how they have come to terms with widowhood and have recreated their lives in new unsuspected ways The widows speak about how they relate to their children their friends to men With powerful emotions they describe their husbands final illnesses and deaths and the challenging early days of widowhood Disputing stereotypes about older women and widows The Widowed Self allows the reader to visualize the impact of losing one's life partner and offers a new way of thinking about widowhood This new book by Deborah Kestin van den Hoonaard fills a void in previous work on widowhood Rather than seeing these women as unfortunate passive victims of life the reader will come to appreciate the strength and creativity with which these women face one of life's greatest challenges a challenge that affects more than half of all women over the age of sixty five Widows and their families scholars social workers and other professionals who work with older adults will all be interested in reading The Widowed Self The Older Woman's Journey through Widowhood *Widows: North America*, 1987 What happens when the husband dies depends on the society on the location of the widow in urban rural or class terms and on the widow's own personal resources In some societies the woman is totally dependent upon a grown son and cannot remarry in others such as that in the United States she is more dependent upon her own resources and wishes For some widowhood results in a great loss of status for others it can mean loneliness and social isolation Yet widowhood can mean greater social freedom for some women a blooming of personality Even grief is experienced in various ways and degrees Thus there is no such thing as a widow type only a great heterogeneity in widowhood as in wifehood Volume I analyzes the support systems and life styles of widows in Australia the Philippines Korea Iran China a Pacific island India Turkey and Israel Volume II North America examines two communities in Canada a Florida retirement community and communities in several other locations as well as the relative situations of homeowners blacks and poor ethnic populations **The Sunshine Widows** Carol D. Szabo, 2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying*

Drabek,2012-12-06 This series is dedicated to serving the growing community of scholars and practitioners concerned with the principles and applications of environ mental management Each volume is a thorough treatment of a specific topic of importance for proper management practices A fundamental ob jective of these books is to help the reader discern and implement man s stewardship of our environment and the world s renewable resources For we must strive to understand the relationship between man and nature act to bring harmony to it and nurture an environment that is both stable and productive These objectives have often eluded us because the pursuit of other in dividual and societal goals has diverted us from a course of living in balance with the environment At times therefore the environmental manager may have to exert restrictive control which is usually best applied to man not nature Attempts to alter or harness nature have often failed or

backfired as exemplified by the results of imprudent use of herbicides fertilizers water and other agents Each book in this series will shed light on the fundamental and applied aspects of environmental management It is hoped that each will help solve a practical and serious environmental problem Robert S DeSanto East Lyme Connecticut Acknowledgments

Middletown Dwight W. Hoover, 1992 Inspired by the immensely influential 1937 sociological study *Middletown A Case Study in Cultural Conflicts* by Robert and Helen Lynd Peter Davis's six documentary films about Muncie Indiana set out to examine the lives of Munsonians in the early 1980s The disputes and conflicts accompanying the filming revealed more about American values and customs than the films themselves While attempting to transform the data from the Middletown studies into a meaningful and interesting visual form the filmmakers were constantly distracted by the pressures decisions and perils of government and corporate funded documentary filmmaking Dwight W Hoover a Muncie historian and collaborator in the Middletown film project describes why the films were made and how they changed the lives of everyone involved
