Prose Masterpieces from Modern Essayists George Haven Putnam, 1897 *Essays of British Essayists*, 1900 **The Dissenters: The crisis and conscience of nonconformity** Michael R. Watts, 1978 This third and final volume of Michael Watts s study of dissent examines the turbulent times of Victorian Nonconformity a period of faith and of doubt Watts assesses the impacts of the major Dissenting preachers and provides insights into the various movements such as romanticism and the higher often German biblical criticism He shows that the preaching of hell and eternal damnation was more effective in recruiting to the chapels than the gentler interpretations A major feature of the volume is a thorough analysis of surviving records of attendance at Nonconformist services He provides fascinating accounts of Spurgeon and the other key figures of Nonconformity including of the Salvation Army Dr Watts also provides a fresh discussion of the contribution which Nonconformity made to the politics of mid to late Victorian Britain He examines such issues of reform as Forster s Education Act of 1871 temperance and Balfour s Education Act of 1902 and considers Nonconformist interventions in such controversies as the Bulgarian Agitation Home Rule for Ireland the Armenian massacres of the mid 1890s and the Boer War The volume concludes with the Liberal landslide in the 1906 general election which saw probably more Nonconformists elected than any time since the era of Oliver Cromwell **The Dissenters** Michael R. Culture and Anarchy Matthew Arnold , My foremost design in writing this Preface is to address a word of exhortation to the Society for Promoting Christian Knowledge In the essay which follows the reader will often find Bishop Wilson quoted To me and to the members of the Society for Promoting Christian Knowledge his name and writings are still no doubt familiar but the world is fast going away from old fashioned people of his sort and I learnt with consternation lately from a brilliant and distinguished votary of the natural sciences that he had never so much as heard of Bishop Wilson and that he imagined me to have invented him At a moment when the Courts of Law have just taken off the embargo from the recreative religion furnished on Sundays by my gifted acquaintance and others and when St Martin s Hall iv and the Alhambra will soon be beginning again to resound with their pulpit eloquence it distresses one to think that the new lights should not only have in general a very low opinion of the preachers of the old religion but that they should have it without knowing the best that these preachers can do And that they are in this case is owing in part certainly to the negligence of the Christian Knowledge Society In old times they used to print and spread abroad Bishop Wilson s Maxims of Piety and Christianity the copy of this work which I use is one of their publications bearing their imprint and bound in the well known brown calf which they made familiar to our childhood but the date of my copy is 1812 I know of no copy besides and I believe the work is no longer one of those printed and circulated by the Society Hence the error flattering I own to me personally yet in itself to be regretted of the distinguished physicist already mentioned

Men, Machines, and Modern Times, 50th Anniversary Edition Elting E. Morison, 2016-08-26 An engaging look at how we have learned to live with innovation and new technologies through history People have had trouble adapting to new technology ever since perhaps the inventor of the wheel had to explain that a wheelbarrow could carry more than a person This little book by a celebrated MIT professor the fiftieth anniversary edition of a classic describes how we learn to live and work with innovation Elting Morison considers among other things the three stages of users resistance to change ignoring it rational rebuttal and name calling He recounts the illustrative anecdote of the World War II artillerymen who stood still to hold the horses despite the fact that the guns were now hitched to trucks reassuring those of us who have trouble with a new interface or a software upgrade that we are not the first to encounter such problems Morison offers an entertaining series of historical accounts to highlight his major theme the nature of technological change and society s reaction to that change He begins with resistance to innovation in the U S Navy following an officer s discovery of a more accurate way to fire a gun at sea continues with thoughts about bureaucracy paperwork and card files touches on rumble seats the ghost in Hamlet and computers tells the strange history of a new model steamship in the 1860s and describes the development of the Bessemer steel process Each instance teaches a lesson about the more profound and current problem of how to organize and manage systems of ideas energies and machinery so that it will conform to the human dimension
