Clash of the Capital Ships Eric Brose, 2021-09-15 The Battle of Jutland May 31 June 1 1916 pitted Great Britain and Imperial Germany the two largest fleets of World War I against one another for the first time At that time it would be the largest clash of capital ships in the history of modern naval warfare Arguably the outcome of World War I was at stake Focusing on the many fine studies of naval encounters in the North Sea and the primary sources that appeared as the centennial of this clash approached Eric Dorn Brose seized an opportunity to reexamine Jutland its pre history and aftermath Considering new scholarship within the context of extant literature the author reveals why each side claimed a victory that belonged to Britain and its cautious admiral Sir John Jellicoe by examining the key roles naval and political leaders in Germany and Great Britain played during the fight With an awareness of previous research and a lively fresh approach Brose provides a concise history of the Jutland clash and the era of naval combat itself

The German 1918 Offensives David T. Zabecki, 2006-09-27 This is the first study of the Ludendorff Offensives of 1918 based extensively on key German records presumed to be lost forever after Potsdam was bombed in 1944 In 1997 David T Zabecki discovered translated copies of these files in a collection of old instructional material at the U S Army Command and General Staff College at Fort Leavenworth Kansas He presents his findings here for the first time with a thorough review of the surviving original operational plans and orders to offer a wealth of fresh insights to the German Offensives of 1918 David T Zabecki clearly demonstrates how the German failure to exploit the vulnerabilities in the BEF s rail system led to the failure of the first two offensives and how inadequacies in the German rail system determined the outcome of the last three offensives This is a window into the mind of the German General Staff of World War I with thorough analysis of the German planning and decision making processes during the execution of battles This is also the first study in English or in German to analyze the

specifics of the aborted Operation HAGEN plan This is also the first study of the 1918 Offensives to focus on the operational level of war and on the body of military activity known as the operational art rather than on the conventional tactical or strategic levels This book will be of great interest to all students of World War I the German Army and of strategic studies and military theory in general
