Symbolic And The Real:

Rhetorical Unconsciousness and Political Psychoanalysis M. Lane Bruner, 2019-06-04 Case studies exploring the roots of persuasion and rhetorical unconsciousness Rhetorical Unconsciousness and Political Psychoanalysis investigates unintentional forms of persuasion their political consequences and our ethical relation to the same M Lane Bruner argues that the unintentional ways we are persuaded are far more important than intentional persuasion in fact all intentional persuasion is built on the foundations of rhetorical unconsciousness whether we are persuaded through ignorance the unsayable unconscious symbolic processes the unspoken or productive repression the unspeakable Bruner brings together a wide range of theoretical approaches to unintentional persuasion establishing the locations of such persuasion and providing examples taken from the Western European transition from feudalism to capitalism To be more specific phenomena related to artificial personhood and the commodity self have led to transformations in material culture from architecture to theater showing how rhetorical unconsciousness works to create symptoms Bruner then examines ethical considerations the relationships among language in use unconsciousness and the seemingly irrational aspects of cultural and political history

Lacanian Left Alicia Valdés, 2022-03-21 While traditional feminist readings on antagonism have pivoted around the sole axis of sex and or gender a broader and intersectional approach to antagonism is much needed this book offers an innovative feminist and discursive reading on the Lacanian concept of sexual position as a way to problematize the concepts of political antagonism and political subjects Can Lacanian psychoanalysis offer new grounds for feminist politics This discursive mediation of Lacan's work presents a new theoretical framework upon which to articulate proposals for intersectional political theory The first part of this book develops the theoretical framework and the second part applies it to the construction of woman's identity in European politics and economy It concludes with notes for a feminist political and economic praxis through community currencies and municipalism The interdisciplinary approach of this book will appeal to scholars interested in the fields of psychoanalysis feminisms and political philosophy as well as multidisciplinary scholars interested in discourse theory sexuality and gender studies cultural studies queer theory and continental philosophy Students

The Symbolic Uses of Politics Murray Jacob Edelman, 1985 The symbolic manifestations purposes and uses of politics are revealed in this provocative analysis of the institution of politics and man as a political animal Unlike the conventional study of politics that deals with how people get the things they want through government this book concentrates on how politics influence what they want what they fear and what they regard as possible In examining politics as a symbolic form it looks at man and politics as reflections of each other Lacan and the Limits of Language Charles Shepherdson, 2009-08-25 Stages

refreshing encounters between Lacanian psychoanalysis and its others Kristeva Heidegger Derrida or Foucault to name just a few thinkers Ewa Ziarek author of *An Ethics of Dissensus* This book weaves together three themes at the intersection of Jacques Lacan and the philosophical tradition The first is the question of time and memory How do these problems call for a revision of Lacan's purported ahistoricism and how does the temporality of the subject in Lacan intersect with the questions of temporality initiated by Heidegger and then developed by contemporary French philosophy The second question concerns the status of the body in Lacanian theory especially in connection with emotion and affect which Lacanian theory is commonly thought to ignore but which the concept of *jouissance* was developed to address Finally it aims to explore beyond the strict limits of Lacanian theory possible points of intersection between psychoanalysis and other domains including questions of race biology and evolutionary theory The book also engages literary texts Antigone Ovid's *Metamorphoses* Hamlet and even Wordsworth become the muses who oblige psychoanalysis and philosophy to listen once again to the provocations of poetry which always disrupts our familiar notions of time and memory of history and bodily or affective experience and of subjectivity itself Shepherdson shows with admirable clarity cogency and competence that psychoanalysis founds an anthropology of love hate desire beauty fantasy and memory while keeping its cutting edge in today's discussions of war race sexual difference and tragedy Thanks to him thinking with Lacan becomes an act of enlightenment Jean Michel Rabat author of *Lacan in America*

Lacan's Ethics and Nietzsche's Critique of Platonism Tim Themi, 2014-05-01 Brings Lacan and Nietzsche together as part of a common effort to rethink the tradition of Western ethics Bringing together Jacques Lacan and Friedrich Nietzsche Tim Themi focuses on their conceptions of ethics and on their accounts of the history of ethical thinking in the Western tradition Nietzsche blames Plato for setting in motion a degenerative process that turned ethics away from nature the body and its senses and thus eventually against our capacities for reason science and a creative flourishing life Dismissing Plato's Supreme Good as a mirage Lacan is very much in sympathy with Nietzsche's reading Following this premise Themi shows how Lacan's ethics might build on Nietzsche's work thus contributing to our understanding of Nietzsche and also how Nietzsche's critique can strengthen our understanding of Lacan *The Žižek Dictionary* Rex Butler, 2015-08-12 Slavoj Žižek is the most popular and discussed philosopher in the world today His prolific writings across philosophy psychoanalysis political and social theory film music and religion always engage and provoke The

power of his ideas the breadth of his references his capacity for playfulness and confrontation his willingness to change his mind and his refusal fundamentally to alter his argument all have worked to build an extraordinary international readership as well as to elicit much critical reaction The i ek Dictionary brings together leading i ek commentators from across the world to present a companion and guide to i ekian thought Each of the 60 short essays examines a key term and crucially explores its development across i ek s work and how it fits in with other concepts and concerns The dictionary will prove invaluable both to readers coming to i ek for the first time and to those already embarked on the i ekian journey *Lacan and the Concept of the 'Real'* T. Eyers,2012-08-07 This is the first book in English to explore in detail the genesis and consequences of Lacan s concept of the Real providing readers with an invaluable key to one of the most influential ideas of modern times

Anxiety in the Era of Uncertainty Ali Chavoshian,Jung Eun Sophia Park,2025-03-20 The burgeoning field of Lacan studies critiques that most discourses have been formed in dominant cultures considering the impacts of Western imperialism on the structure of non Western or postcolonial human subjects This groundbreaking work invites readers to read Jacques Lacan s Seminars in an interdisciplinary way with scholars from diverse backgrounds Readers will see a new picture of anamorphosis emerge with possible transformation while facing the uncanny feeling of anxiety through the global peoples perspectives *The Practice of Lacanian Psychoanalysis* Raul Moncayo,2020-11-03 The Practice of Lacanian Psychoanalysis lays out an Aristotelian framework to account for the different types of knowing and not knowing operative in the theory and practice of psychoanalysis The book proposes a new model for diagnosis giving preference to fewer over more diagnoses and seeks to better organize them by distinguishing between structure and surface symptoms It examines many principles of Lacanian clinical practice including different types of frames and evidence the practice of citation and listening the resistance and desire of the analyst transference love as a metaphor the role of negative transference at the end of analysis and the identification with the sinthome as Lacan s last formulation regarding the end of analysis The text also suggests that there are three forms of love and hate based on the works of Lacan and Winnicott Underpinned by extensive practical knowledge of the clinic and case examples for clinicians analysts and practicing Lacanian analysts this book should be of interest to academics scholars and clinicians alike
