Symbols And Emblems Of Early And Mediaeval Christi:

Ancient, early Christi mediaeval Alfred Woltmann, 1880 *The Arma Christi in Medieval and Early Modern Material Culture* Lisa H. Cooper, Andrea Denny-Brown, 2016-12-05 The Arma Christi the cluster of objects associated with Christ's Passion was one of the most familiar iconographic devices of European medieval and early modern culture From the weapons used to torment and sacrifice the body of Christ sprang a reliquary tradition that produced active and contemplative devotional practices complex literary narratives intense lyric poems striking visual images and innovative architectural ornament This collection displays the fascinating range of intellectual possibilities generated by representations of these medieval objects and through the interdisciplinary collaboration of its contributors produces a fresh view of the multiple intersections of the spiritual and the material in the Middle Ages and Renaissance It also includes a new and authoritative critical edition of the Middle English Arma Christi poem known as O Vernicle that takes account of all twenty surviving manuscripts The book opens with a substantial introduction that surveys previous scholarship and situates the Arma in their historical and aesthetic contexts The ten essays that follow explore representative examples of the instruments of the Passion across a broad swath of history from some of their earliest formulations in late antiquity to their reformulations in early modern Europe Together they offer the first large scale attempt to understand the arma Christi as a unique cultural phenomenon of its own one that resonated across centuries in multiple languages genres and media The collection directs particular attention to this array of implements as an example of the potency afforded material objects in medieval and early modern culture from the glittering nails of the Old English poem *Elene* to the coins of the Middle English poem *Sir Penny* from garments and dice on Irish tomb sculptures to lanterns and ladders in Hieronymus Bosch's panel painting of St Christopher and from the altar of the Sistine Chapel to the printed prayer books of the Reformation

Binding Words Don C. Skemer, 2010-11-01 In the Middle Ages textual amulets short texts written on parchment or paper and worn on the body were thought to protect the bearer against enemies to heal afflictions caused by demonic invasions and to bring the wearer good fortune In *Binding Words* Don C. Skemer provides the first book length study of this once common means of harnessing the magical power of words Textual amulets were a unique source of empowerment promising the believer safe passage through a precarious world by means of an ever changing mix of scriptural quotations divine names common prayers and liturgical formulas Although theologians and canon lawyers frequently derided textual amulets as ignorant superstition many literate

clergy played a central role in producing and disseminating them. The texts were in turn embraced by a broad cross section of Western Europe. Saints and parish priests, physicians and village healers, landowners and peasants alike believed in their efficacy. Skemer offers careful analysis of several dozen surviving textual amulets along with other contemporary medieval source materials. In the process, *Binding Words* enriches our understanding of popular religion and magic in everyday medieval life.

Die Darstellung der Kreuzigung Christi in der niederrheinischen Elfenbeinschnitzerei des XI. u. XII. Jahrhunderts ... Wilhelm Lange, 1912 *Early Modern Catholicism and the Printed Book* Justyna

Kiliańczyk-Zięba, Magdalena Komorowska, 2024-02-12 This collection of essays engages with a variety of aspects of early modern book culture in the 16th-17th centuries considered in the Catholic context. The contributions reflect on the engagement of institutions and authorities in the process of book production, bringing to the fore the role of networks in this process, show the book as a tool of resistance to the Protestant Reformation, give insight into the content and design of book collections, showcase textual production in the context of cultural appropriation, and shed light on the role of the image in the propagation of Catholicism. Together, the sixteen contributions demonstrate the diversity of the Catholic book in its forms and functions in various social and national contexts.

Magic and Magicians in the Middle Ages and the Early Modern Time Albrecht Classen, 2017-10-23 There are no clear demarcation lines between magic, astrology, necromancy, medicine, and even sciences in the pre-modern world. Under the umbrella term 'magic', the contributors to this volume examine a wide range of texts, both literary and religious, both medical and philosophical, in which the topic is discussed from many different perspectives. The fundamental concerns address issues such as how people perceived magic, whether they accepted it and utilized it for their own purposes, and what impact magic might have had on the mental structures of that time. While some papers examine the specific appearance of magicians in literary texts, others analyze the practical application of magic in medical contexts. In addition, this volume includes studies that deal with the rise of the witch craze in the late fifteenth century and then also investigate whether the Weberian notion of disenchantment pertaining to the modern world can be maintained. Magic is oddly but significantly still around us and exerts its influence. Focusing on magic in the medieval world thus helps us to shed light on human culture at large.

The Art of Solidarity in the Middle Ages Gervase Rosser, 2015 Explores the motives and experiences of the medieval men and women who joined together in guilds, family-like societies that affected most aspects of their members' lives.

Rudolf Berliner (1886-1967) Rudolf Berliner, 2003 **Wounds and Wound Repair in Medieval Culture**, 2015-10-05 The spectacle of the wounded body figured prominently in the Middle Ages, from images of Christ's wounds on the cross to the ripped and torn bodies of tortured saints who miraculously heal through divine intervention, to graphic accounts of battlefield and tournament wounds, evidence of which survives in the archaeological record and literary episodes of fatal or not-so-fatal wounds. This volume offers a comprehensive look at the complexity of wounding and wound repair in medieval literature and culture, bringing together essays from a wide range of

sources and disciplines including arms and armaments military history medical history literature art history hagiography and archaeology across medieval and early modern Europe Contributors are Stephen Atkinson Debby Banham Albrecht Classen Joshua Easterling Charlene M Eska Carmel Ferragud M R Geldof Elina Gertsman Barbara A Goodman M ire Johnson Rachel E Kellett Ilana Krug Virginia Langum Michael Livingston Iain A MacInnes Timothy May Vibeke Olson Salvador Ryan William Sayers Patricia Skinner Alicia Spencer Hall Wendy J Turner Christine Voth and Robert C Woosnam Savage
