Symbols Of Jesus A Christology Of Symbolic Engagement:

Symbols of Jesus Robert C. Neville, 2001 Symbols of Jesus is a systematic theology focusing on what makes Jesus important in Christianity

Theology in Global Context Amos Yong, Peter G. Heltzel, 2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville's work

Christology and Science F. LeRon Shults, 2021-11-18 The dialogue between theology and science has blossomed in recent decades but particular beliefs about Jesus Christ have not often been brought to the forefront of this interdisciplinary discussion even in explicitly Christian contexts This book breaks new ground by explicitly bringing the specific themes of Christology into dialogue with contemporary science It engages recent developments in late modern philosophy of science in order to articulate the Christian beliefs about Jesus Christ in a way that responds to challenges and opportunities that have arisen in light of various scientific discoveries The main chapters deal with Incarnation Atonement and Parousia After a brief treatment of the history of the shaping of these ideas the author traces developments in some of the sciences that have challenged these formulations evolutionary biology cultural anthropology and physical cosmology Each chapter also summarises some of the popular constructive responses to these developments After clarifying the way in which the Christian understanding of God and of humanity shape the task of reforming Christology each chapter concludes with a programmatic outline of ways in which we might articulate the identity agency and presence of Jesus Christ in dialogue with late modern science and culture

The Scandal of Pentecost Wolfgang Vondey, 2023-10-19 Through a systematic analysis of the conflicts emerging when the public church encounters the public world The Scandal of Pentecost argues that the public advent of the church stands in continuity with the public scandal of the incarnate and crucified Christ The book traces the contours of this scandal in the confrontation of the dominant ruling hermeneutic of authority with a Christian hermeneutic of resistance This highlights the brokenness of the human condition manifested by the church in the drunkenness of the disciples the speaking in other tongues the baptism with the Spirit the empowerment of the flesh and its public witness to a scandalized world The effects of the scandal transform both the disciples individual and communal witness and their public recognition as the church Through the lens of a symbolic hermeneutic the public witness of the church at Pentecost reveals a Christian scandal of anthropological proportions with the outpouring of the Spirit on all flesh the church emerges as the symbol of humanity

Human Identity at the Intersection of Science, Technology and Religion Dr Christopher C Knight, Professor Nancey Murphy, 2013-06-28 Humans are unique in their ability to reflect on themselves Recently a number of scholars have pointed out that human self conceptions have a history Ideas of human nature in the West have always been shaped by the interplay

of philosophy theology science and technology The fast pace of developments in the latter two spheres neuroscience genetics artificial intelligence biomedical engineering call for fresh reflections on what it means now to be human and for theological and ethical judgments on how we might shape our own destiny in the future The leading scholars in this book offer fresh contributions to the lively quest for an account of ourselves that does justice to current developments in theology science technology and philosophy

The Making of American Liberal Theology Gary J. Dorrien,2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

The Varieties of Transcendence Hans Joas,Matthias Jung,Magnus Schlette,2016-02-01 The Varieties of Transcendence traces American pragmatist thought on religion and its relevance for theorizing religion today The volume establishes pragmatist concepts of religious individualization as powerful alternatives to the more common secularization discourse In stressing the importance of Josiah Royce s work it emphasizes religious individualism s compatibility with community At the same time by covering all of the major classical pragmatist theories of religion it shows their kinship and common focus on the interrelation between the challenges of contingency and the semiotic significance of transcendence

Human Identity at the Intersection of Science, Technology and Religion Christopher C. Knight,2016-05-13 Humans are unique in their ability to reflect on themselves Recently a number of scholars have pointed out that human self conceptions have a history Ideas of human nature in the West have always been shaped by the interplay of philosophy theology science and technology The fast pace of developments in the latter two spheres neuroscience genetics artificial intelligence biomedical engineering call for fresh reflections on what it means now to be human and for theological and ethical judgments on how we might shape our own destiny in the future The leading scholars in this book offer fresh contributions to the lively quest for an account of ourselves that does justice to current developments in theology science technology and philosophy

Divine Communion Jay Emerson Johnson,2013-10-20 First text to place sexual ethics in a sacramental liturgical context Designed to meet the General Convention mandate for theological reflection around issues of sexuality and marriage Appropriate for study regardless of gender or orientation Before Christian communities try to address sexual ethics the more fundamental theological question demands attention What can sexual intimacy tell us about God This

book invites reflection on sexual relationships within a broad theological framework marked by creation fall and redemption. These classical hallmarks of Christian faith are proclaimed and enacted at every liturgical celebration of the Eucharist which offers a compelling way to engage the link between sexual intimacy and the longing for God or the hoped for promise of divine communion.

Seasons of the Christian Life Robert Cummings Neville, 2016-07-04

Once liberal Christianity was preached in ways that defined it in the public eye. Now Christianity is identified almost exclusively with its conservative expressions. *Seasons of the Christian Life* presents a series of sermons articulating a liberal Christianity over against its conservative neighbors. They were preached at the University Church Marsh Chapel at Boston University save for one preached in Memorial Church at Harvard during the 2004-2005 academic year when President George W. Bush was reelected and the country was at war in Iraq and Afghanistan and at war with terrorists wherever they could be imagined. The sermons follow the Revised Common Lectionary and focus on biblical interpretation as it is applied to the then current spiritual, cultural, social, and political situation. The author is a professor of theology and at the time was Dean of Marsh Chapel and Chaplain of the University.
