China's Economic Take-off John Wong, 2016-04-25 Following Deng Xiaoping's economic reform and opening Gaige Kaifang policy China experienced unprecedented high growth for over three decades. Crucial in the process was the role of Zhu Rongji who was hand-picked by Deng initially as Executive Vice Premier and later full Premier to carry through the needed reform and manage the critical marketization process through the turbulent 1990s when China's economy suffered many ups and downs. Dubbed as China's Economic Czar, Zhu tackled many thorny problems associated with the country's then half-reformed economy ably and effectively, thereby laying the ground for subsequent periods of greater dynamic growth. Zhu was instrumental in preparing China's economy for its final take-off. The chapters in this volume were originally written as policy briefings for the Singapore government from 1997 to 2003 when Zhu was Premier. They cover a wide variety of topics including how he had applied his own way of macroeconomic control, Hongguan Tiaokong, how he went about reforming taxation, foreign exchange, and state-owned enterprises, and finally his embrace of capitalism. Each chapter is preceded by a detailed introduction highlighting the main issues and interpreting them from today's perspective based on updated information and additional new research.
