

A brown gerbil is shown in profile, facing right, within a terrarium. The floor is covered with light-colored wood shavings. To the left of the gerbil is a large, dark brown wooden log. In the background, a metal wire mesh structure is visible, and a person's hand is partially seen reaching into the enclosure. A white oval containing the text 'TAKING CARE OF GERBILS' is positioned on the right side of the image.

in this book including easy to understand instructions about daily care cleaning feeding and maintaining for one of most popular pets in North America **Gerbils** Rebecca Sparling,2009 In this day and age children and young adults need every advantage they can get from their education At Eldorado Ink we strive to establish our company as an exciting resource for nonfiction reference materials for sixth grade and beyond **The Simple Guide: Small Animal Care** Dennis Nuzzo, Have you been thinking of bringing a new pet into your family If you have do you realize that it does not have to be something big like a dog You can also have the option of going with a smaller mammal A few examples would be a gerbil or a hamster or maybe even a rabbit or a rat One common reason people choose smaller mammals as a pet is if they are restricted with the amount of space they have for a pet A prime example would be something living in a small apartment in the inner city Chances are that there would not be enough room in the apartment for a dog to be comfortable and have room to play On top of that it can be a real hassle walking a dog up and down stairs to take them outside and some dogs will require training to be able to walk in the city without problems Training can be costly and the entire experience of having a dog in a small apartment can be full of hassles so in this situation it is probably better to go with a smaller pet If your children have been begging you for a pet you might want to start out with a smaller animal Fish can be boring and children can lose their interest and forget about them in no time At the same time a dog can be way too much responsibility for a child especially if they are young and it is there first pet The perfect option for a child as their first pet would be an animal such as a hamster or gerbil Let Us Know What You Think **Gerbils** Angie Tracks, Why Gerbils Gerbils are small energetic and highly social creatures that make wonderful pets for individuals and families alike Known for their curious nature and adorable antics these tiny rodents are relatively low maintenance compared to other pets They are perfect for both first time pet owners and experienced animal lovers who are looking for a lively and interactive companion Understanding Gerbils as Pets Before bringing gerbils into your life it s important to understand their unique characteristics and needs Gerbils are diurnal meaning they are active during the day making them an ideal choice for pet owners who want to enjoy their pets activity They are also highly social animals thriving in pairs or small groups and they form strong bonds with their owners through regular interaction and care *Slinky's Guide to Caring for Your Snake* Isabel Thomas,2014-08-14 Titles in the Pets Guides series teach young readers how to care responsibly for their chosen pet However in a unique spin each book is written from the point of view of one of the animals themselves thus also allowing the books to be used to teach perspective In this book Slinky the Snake reveals how readers should go about choosing a pet snake what supplies they will need how to make a new snake feel at home and how to properly care for a pet snake including feeding exercising and keeping a snake vivarium clean Text in the book is accompanied by clear labelled photographs to further reinforce key concepts **Gerbils** Rebecca Sjonger,Bobbie Kalman,2004 Gerbils may be small but their long hind legs make them great jumpers In Gerbils readers will discover the responsibilities and delights of owning a gerbil **Your First Pet, and how to Take Care of it** Carla
