disability have on the individual's family. What strengths do families use to cope with these disabilities? What do they do that works? And what doesn't work? These are the kinds of questions we have been asking individuals and families in our research over the past 15 years. This book was written to report their stories and to honor these people who have shared their lives and their cries from the heart with us. It is both a positive book and a realistic book full of love and grief and tenderness and anger and kindness and sorrow and courage. It is as real as the people who gave us the gift of their lives. *Coping with Lupus* Robert H. Phillips, 2001. A diagnosis of lupus is understandably disquieting and can cause emotional turmoil. What to Do When Someone You Love Is Depressed, Second Edition Mitch Golant, Ph.D., Susan K. Golant, 2007-08-07. Originally published New York: Villard Books, 1996. **A Journey** John S. Campbell MD, 2006-06. All of us repeatedly grieve, heal, and reinvent ourselves throughout our lives. Being aware of and active in this inherent aspect of our existence, I believe to be a less painful and more satisfying way of living than blindly struggling with or resisting these natural processes. John S. Campbell MD, author of *A Journey: Creative Grieving and Healing*. We all die, he seems to be telling us. What is far more important is that we live a meaningful life before that time comes. We all need to dig deep to find our own wisdom so we may understand what John is telling us. Nikki DeFrain M.S. and John DeFrain Ph.D. from their Foreword. **Life on Hold** David G. Seiler, Laurel S. Brunvoll, 2006-06-01. Beyond sending a get-well card, many people know little about supporting someone through a serious illness, let alone passing through one themselves. *Life on Hold* answers the need of many people who face or may soon be faced with a health crisis of longer duration. Written by a father and daughter who lost their wife and mother to an extended battle with cancer, this sensitive personal journal is dotted with illustrations from real-life survivors. Each chapter offers tools for dealing with the challenges of physical illness. A practical spiritual handbook, it shows sufferers, ministers, lay workers, family, and friends how to trust God during a season of recovery or release. Scripture and counsel on getting through the first several weeks are among this book's most rare and precious gifts. **Disability** Romel W. Mackelprang, Richard O. Salsgiver, 2016. Disability is a tool for human service practitioners to use in understanding disability from an empowerment social model perspective. The text addresses policy, theory, description, and practice from a strengths-based viewpoint, stressing disability as a difference rather than as dysfunction. The book establishes the historical and societal context in which those with disabilities are marginalized, discusses the major groupings of disabilities, and offers a model for assessment and practice.
