How China Escaped the Poverty Trap Yuen Yuen Ang, 2016-09-06 WINNER OF THE 2017 PETER KATZENSTEIN BOOK PRIZE BEST OF BOOKS IN 2017 BY FOREIGN AFFAIRS WINNER OF THE 2018 VIVIAN ZELIZER PRIZE BEST BOOK AWARD IN ECONOMIC SOCIOLOGY How China Escaped the Poverty Trap truly offers game changing ideas for the analysis and implementation of socio economic development and should have a major impact across many social sciences Zelizer Best Book in Economic Sociology Prize Committee Acclaimed as game changing and field shifting How China Escaped the Poverty Trap advances a new paradigm in the political economy of development and sheds new light on China's rise How can poor and weak societies escape poverty traps Political economists have traditionally offered three answers stimulate growth first build good institutions first or some fortunate nations inherited good institutions that led to growth Yuen Yuen Ang rejects all three schools of thought and their underlying assumptions linear causation a

mechanistic worldview and historical determinism Instead she launches a new paradigm grounded in complex adaptive systems which embraces the reality of interdependence and humanity's capacity to innovate Combining this original lens with more than 400 interviews with Chinese bureaucrats and entrepreneurs Ang systematically reenacts the complex process that turned China from a communist backwater into a global juggernaut in just 35 years Contrary to popular misconceptions she shows that what drove China's great transformation was not centralized authoritarian control but directed improvisation top down directions from Beijing paired with bottom up improvisation among local officials Her analysis reveals two broad lessons on development First transformative change requires an adaptive governing system that empowers ground level actors to create new solutions for evolving problems Second the first step out of the poverty trap is to use what you have harnessing existing resources to kick start new markets even if that means defying first world norms Bold and meticulously researched *How China Escaped the Poverty Trap* opens up a whole new avenue of thinking for scholars practitioners and anyone seeking to build adaptive systems

Southeast Asia between China and Japan Lam Peng Er, Victor Teo, 2011-11-15

Triangular relations which frame China and Japan as two sides of an isosceles triangle usually focus on the United States as the significant third side This edited book examines another relatively underexplored set of triangular relations those between China Japan and Southeast Asia The region comprised of eleven small and medium size states is often considered inconsequential in the tempestuous world of international politics where political clout economic prowess military strength and soft power matter most Often seen as easily dominated by extra regional great powers this volume reconsiders the region's relationship with China and Japan their two Asian neighbours to the northeast which also happen to be the world's second and third largest economies While China and Japan do compete for turf in Southeast Asia states in the region do not perceive themselves as strategic pawns of these two great Asian powers but instead as proactively engaging China and Japan in the region The country specific case studies of this book collectively support the thesis that the Southeast Asian states actively seek to manoeuvre between China and Japan for their own advantage and at the same time grapple with developments in Northeast Asia through regional

integration efforts Through the establishment of benchmark norms and values Southeast Asia attempts to socialise China and Japan and other external powers to the ASEAN way Indeed Southeast Asia as a region is now the driver of East Asian multilateralism and regionalism and the East Asian reality is that Southeast Asia is a major political economic and cultural player in its own right vis vis the great powers African Development Fund; the Asian Development Fund; and the Asian Development Bank United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on International Development, Finance, Trade, and Monetary Policy,1991 *China* Gungwu Wang,Yongnian Zheng,2013 The art of governance managing rising expectations Enhancing and re orienting governance to promote sustainable development Social transformation stability and governance China s external relations and global governance **Crisis and Promise in the Caribbean** Winston Dookeran,2016-03-09 The Caribbean is made up of a complex enigmatic region characterised by great disparities in size population geography history language religion race and politics This is a region in which harmony and discord work in tandem trying to link economic logic with political logic This book is a useful tool not only for those specialists and students of regionalism but for all those putting their hands to the task of nation building and those interested in the development processes of small states and economies At the same time this book is a comprehensive historical record especially highlighting hindrances to development in this region This study raises two important issues the political imperative of convergence and the need for appropriate correcting mechanisms that align the needs of the local with the regional It is a volume that underlines the need for a change in strategy and makes proposals as to how to go about making those changes **A Hunt for Optimism** Viktor Shklovsky,2013-01-03 Begun in 1929 under the title New Prose and drastically revised after Vladimir Mayakovsky s sudden death A Hunt for Optimism 1931 circles obsessively around a single scene of interrogation in which a writer is subjected to a show trial for his unorthodoxy Using multiple perspectives fragments and aphorisms and bearing the vulnerability of both the Russian Jewry and the anti Bolshevik intelligentsia who had unwittingly become the enemies of the people Hunt satirizes Soviet censorship and the ineptitude of Soviet leaders with acerbic panache Despite criticism at the time that it lacked unity and was too variegated to be called a purely Shklovskian book Hunt is stylistically unpredictable experimentally bold and unapologetically ironic making it one of the finest books in Shklovsky s body of work **The Economics of East Asian Integration** Masahisa Fujita,Ikuo Kuroiwa,Satoru Kumagai,2011-01-01 This volume is intended to be the most comprehensive textbook on economic integration in East Asia It introduces the reader to various issues related to the topic such as institutional building of FTAs production networks and the location choice of MNEs R infrastructure development and transport costs international migration and service trade monetary integration regional disparity and poverty It also deals with the critical energy environmental and agricultural concerns Each chapter contains ample data and rigorous analyses complemented by illustrative box articles Covering a wide range of aspects surrounding economic integration in East Asia this well researched text will appeal to undergraduate and
