idea of waging war on drugs is central to the problem rather than a fundamental part of any solution He takes the Reagan Bush Bennett campaign to task for its failed efforts to cut the supply of drugs reduce public demand and enforce laws regarding the sale and distribution of controlled substances Wisotsky contends that the war on drugs will remain inadequate so long as society continues to be seduced by the battle cries of its own stepped up combat in which the enemy drugs must be eradicated at all cost The rationale for doing battle has become so embedded in the public mind that we no longer recognize the need for a critical review of social policy strategy or the methods needed to achieve our desired goals Have we simply created a new type of Prohibition which is destined to fail And if this is the case then what does it say about our society Have we lost the ability to reflect critically on our social motives and purposes as well as our justification for the actions we take simply because we ve declared war on the enemy and we aren t going to stop the good fight until we ve won Beyond the War on Drugs offers hard hitting arguments to support the growing public opinion that this war as it is currently conceived cannot be won and ought not to be fought Wisotsky argues persuasively for a reassessment of this struggle We must go beyond the war on drugs to develop a public policy that acknowledges human intelligence free choice and individual responsibility

Koram,2019-03-20 The War on Drugs has led to millions of people dead displaced and incarcerated Disproportionately enforced on oppressed races international drug prohibition has reinforced the colour line across the globe While laws prohibiting the production sale and use of particular drugs are presented as politically neutral and objective this collection reveals the racist impact of the War on Drugs across multiple continents and in numerous situations From racialised drugs policing at festivals in the UK to the necropolitical wars in Juarez Mexico and from the exchange of drug policing programs between the United States and Israel to the management of black bodies in Brazil this collection proves that the regulation of drugs and race is an international and intentional disaster Pushing forward the debate and activism led by groups such as Black Lives Matter and calling for radical changes in drug policy legislation and prison reform both nationally and internationally this collection cuts deep and rings true for all people fighting racism today *The Long War on Drugs* Anne L. Foster,2023-11-10 Anne L Foster provides a comprehensive overview of the war on drugs its failures and continued appeal and the international consequences of US drug policy *A Moral Defense of Recreational Drug Use* Rob Lovering,2015-08-12 Why does American law allow the recreational use of some drugs such as alcohol tobacco and caffeine but not others such as marijuana cocaine and heroin The answer lies not simply in the harm the use of these drugs might cause but in the perceived morality or lack thereof of their recreational use Despite strong rhetoric from moral critics of recreational drug use however it is surprisingly difficult to discern the reasons they have for deeming the recreational use of some drugs morally wrong In this book Rob Lovering lays out and dissects various arguments for the immorality of using marijuana cocaine heroin and other drugs recreationally He contends that by and large these arguments do not succeed Lovering s book represents one of the first works to systematically present analyze and critique arguments for the moral wrongness of recreational drug use Given this as well as the popularity of the morality based defense of the United States drug laws this book is an important and timely contribution to the debate on the recreational use of drugs *Drugs and Society* Hanson,Peter J. have experienced positive effects on their long term drug use If the drug use control level of frequent consumers is higher than assumed it is easy to deduce that improving the control among those people who take drugs is possible who perhaps see how this capacity lowers The Manual of Controlled Drug Use addresses those people who consume drugs and wish to reduce their consumption gain better control or cut the risks associated with drug use and drug abuse It also addresses anyone who wishes to make full use of the positive effects that drugs can offer them regardless of them being drug users or not If a psychological procedure existed with which it was possible to experience positive effects of drugs and which cut or eliminated their negative effects it would be most useful for those people who take drugs and who do not wish to stop taking them In fact this procedure actually exists and it is called the Self Regulation Therapy This Manual includes a detailed description of the Self Regulation Therapy Finally this Manual also addresses therapists and researchers who wish to work with exercises and intervention programs on moderate drug use

**Doing Drugs and Dropping Out**, 1991 This report assesses the societal costs of substance abuse especially cocaine and crack addiction and dropping out of school It is organized around three themes 1 the impact of cocaine and crack abuse in terms of crime public spending and lost productivity 2 policies that move addicts away from crack and 3 policies that reduce the high school dropout rate Based on extant literature the report quantifies a bottom line cost of drug abuse to have been between 60 4 billion and 124 9 billion in 1988 a figure that reflects the costs of health care economic loss and law enforcement relating to substance abuse Impact also is assessed in terms of private and social issues In evaluating the success of policies that have effectively moved addicts away from drugs important questions concerning criteria for success motivation for drug use and addiction are explored Law enforcement treatment educational and prevention policies are evaluated The current literature on testing outpatient treatment and peer programs to reduce the motivation toward drug abuse and to move addicts away from cocaine and crack is reviewed In response to the issue of dropout prevention the report recommends a rethinking of the structure of high schools within a collaborative context involving parents schools and communities Included in the report are a working bibliography and a community service booklet that deals with the issues of this report on a local community level NB
