### **Genetic Determinants of Human Longevity**

Giuseppina Rose,Mette Sørensen,Serena Dato,2019-10-28 In the last two decades due to the continuous increase of lifespans in Western societies and the consequent growing of the elderly population have witnessed an increase in the number of studies on biological and molecular factors able to promote healthy aging and reach longevity The study of the genetic component of human longevity demonstrated that it accounts for 25% of intra population phenotype variance The efforts made to characterize the genetic determinants suggested that the maintenance of cellular integrity inflammation oxidative stress response DNA repair as well as the use of nutrients represent the most important pathways correlated with a longer lifespan However although a plethora of variants were indicated to be associated with human longevity only very few were successfully replicated in different populations probably because of population specificity missing heritability as well as a complex interaction among genetic factors with lifestyle and cultural factors which modulate the individual chance of living longer Thus many challenges remain to be addressed in the search for the genetic components of human longevity This Special Issue is aimed to unify the progress in the analysis of the genetic determinants of human longevity to take stock of the situation and point to future directions of the field We invite submissions for reviews research articles short communications dealing with genetic association studies in human longevity including all types of genetic variation as well as the characterization of longevity related genes

### **Twin and Triplet Psychology**

Audrey Sandbank,2003-09-02 Information on the special needs and natures of twins and multiples is often difficult for professionals to obtain Twin and Triplet Psychology fills this gap helping professionals to be better equipped to offer advice to parents and twins alike Examining the psychology of twinship throughout the lifespan the book includes chapters on twins in utero temperament development and inter twin behaviour before and after birth antenatal and postnatal influences on family relationships twins with special needs the death of a twin twins in secondary school and adolescence
