Handbook of Arab American Psychology Mona M. Amer, Germaine H. Awad, 2015-11-19 The Handbook of Arab American Psychology is the first major publication to comprehensively discuss the Arab American ethnic group from a lens that is primarily psychological. This edited book contains a comprehensive review of the cutting edge research related to Arab Americans and offers a critical analysis regarding the methodologies and applications of the scholarly literature. It is a landmark text for both multicultural psychology as well as for Arab American scholarship. Considering the post 9/11 socio-political context in which Arab Americans are under ongoing scrutiny and attention as well as numerous misunderstandings and biases against this group, this text is timely and essential. Chapters in the Handbook of Arab American Psychology highlight the most substantial areas of psychological research with this population relevant to diverse sub-disciplines including cultural, social, developmental, counseling, clinical, health, and community psychologies. Chapters also include content that intersect with related fields such as sociology, American studies, cultural, ethnic studies, social work, and public health. The chapters are written by distinguished scholars who merge their expertise with a review of the empirical data in order to provide the most updated presentation of scholarship about this population. The Handbook of Arab American Psychology offers a noteworthy contribution to the field of multicultural psychology and joins references on other racial/ethnic minority groups including Handbook of African American Psychology, Handbook of Asian American Psychology, Handbook of U.S. Latino Psychology, and The Handbook of Chicana/o Psychology and Mental Health. American Studies International, 1989 *Arab-American Faces and Voices* Elizabeth Boosahda, 2010-01-01 As Arab Americans seek to claim their communal identity and rightful place in American society at a time of heightened tension between the United States and the Middle East, an understanding look back at more than one hundred years of the Arab American community is especially timely. In this book, Elizabeth Boosahda, a third generation Arab American, draws on over two hundred personal interviews as well as photographs and historical documents that are contemporaneous with the first generation of Arab Americans: Syrians, Lebanese, Palestinians, both Christians and Muslims, who immigrated to the Americas between 1880 and 1915 and their descendants. Boosahda focuses on the Arab American community in Worcester, Massachusetts, a major northeastern center for Arab immigration, and Worcester's links to and similarities with Arab American communities throughout North and South America. Using the voices of Arab immigrants and their families, she explores their entire experience from emigration at the turn of the twentieth century to the present day lives of their descendants. This rich documentation sheds light on many aspects of Arab American life, including the Arab entrepreneurial motivation and success, family life, education, religious and community organizations, and the role of women in initiating immigration and the economic success they achieved. Arabs in the Americas Darcy Zabel, 2006 Offering more than just an introduction or a celebration of the Arab American presence in the Americas, the essays in this book aim at expanding readers
