Metaphor and Meaning Constance A. Cook, Christopher J. Foster, Susan Blader, 2024-07-01 In *Metaphor and Meaning* scholars from China the United States and Europe draw on Sarah Allan's groundbreaking application of conceptual metaphor theory to the study of early Chinese philosophy and material culture. Conceptual metaphor theory treats metaphors not just as linguistic expressions but as fundamental structures of thought that define one's conceptual system and perception of reality. To understand another culture's worldview then hinges upon identifying the right metaphors through which it then becomes possible to navigate between shared and unshared experiences. The contributors pursue lines of argument that complement, enhance or challenge Allan's prior investigations into these root metaphors of early Chinese philosophy, whether by explicitly engaging with conceptual metaphor theory or more indirectly by addressing meaning construction in a broader sense. Like Allan's interpretative works, *Metaphor and Meaning* interrogates both transmitted traditions and newly unearthed archaeological finds to understand how people in early China thought about the cosmos, society and themselves. **Living**

for Shalom Jeanette Woods, 2021-08-31 Ross Langmead will be remembered as one of Australia's leading missiologists, having established his credentials as a young man in founding Westgate Baptist Community after writing a report on the struggling churches in the west of Melbourne. His distinguished academic and teaching career led him to join the faculty at Whitley College until his death in 2013. He will also be remembered for his seventies folk group Daddy's Friends and the songs of love and justice he wrote over forty-five years that are still sung today. This biography starts with his missionary family upbringing and traces the influences that shaped his passion for sharing Jesus with the urban poor. He was a key player in the radical discipleship movement in Australia; his understanding of incarnational mission was that Christians need to be the people of God just where they are. Above all, he lived simply that others might simply live, his passion extending to ecomissiology and support for the unemployed indigenous and refugees. He would want this book to inspire readers to make a difference in the world. The Wenzhi Paul van Els, 2018-03-06

The Wenzhi is a Chinese philosophical text that enjoyed considerable prestige in the centuries following its creation over two thousand years ago. When questions regarding its authenticity arose, the text was branded a forgery and consigned to near oblivion. The discovery of an age-old Wenzhi manuscript inked on strips of bamboo refueled interest in the text. In this combined study of the bamboo manuscript and the received text, Van Els argues that they belong to two distinct text traditions as he studies the date, authorship and philosophy of each tradition as well as the reception history of the received text. This study sheds light on text production and reception in Chinese history with its changing views on authorship, originality, authenticity and forgery, both past and present. *The Routledge Companion to Literature and Social Justice* Masood Ashraf Raja, Nick T. Neo-Gothic Architecture in Mexico Martin M. Checa-Artasu,2025-06-02 Neo Gothic architecture is a global phenomenon observed in Mexico from the 1850s to the mid 20th century even with current examples In Mexico there are more than 500 buildings with some neo Gothic element new parishes and churches large temples examples of exterior decorations beautiful sacred furniture and art inside the temples funerary elements at cemeteries graves mausoleums tombs and civil buildings mansions houses schools hospitals porticoes so on This architecture in Mexico spread in two ways through architecture teaching academies but also thanks to the diffusion of bishops and priests who showed images and engravings for master builders stonemasons and other local artisans to copy Finally they built these buildings many times with the support of the parishioners Also the economic and political elites built mansions and houses in that style to show their wealth and financial and political power Something they also did in their tombs and pantheons since there are many built in that style A book on the characteristics agents and causes of the development of the neo Gothic style in Mexico is pioneering and the first of its kind It is a type of architecture extraordinarily little studied in Mexico A study of these characteristics would be of interest to a sector of the academy

Human Becomings Roger T Ames argues that the appropriateness of categorizing Confucian ethics as role ethics turns largely on the conception of person that is presupposed within the interpretive context of classical Chinese philosophy By beginning with first self consciously and critically theorizing the Confucian conception of persons as the starting point of Confucian ethics Ames posits that the ultimate goal will be to take the Confucian tradition on its own terms and to let it speak with its own voice without overwriting it with cultural importances not its own He argues that perhaps the most important contribution Confucian philosophy can make to contemporary ethical social and political discourse is the conception of focus field relationally constituted persons as a robust alternative to the ideology of individualism with single actors playing to win
