Talents And Technicians Literary Chic And The New Assembly Line Fiction:

Talents and Technicians John W. Aldridge, 1992 In *Talents and Technicians Literary Chic and the New Assembly Line Fiction* John Aldridge offers an irreverent antidote to the pieties of the tastemakers an incisive provocative and always compelling study of American writing in our time Focusing on the current crop of young writers many of whose reputations were made in a whirl of 1980s media hype he determines who will likely survive the test of future critical scrutiny and what they have to say about our world The expansion of graduate writing programs and their impact on the style and sensibilities of those they train are grist for Aldridge's mill nor does he hide his feelings about the practices of reviewers and the critical establishment in general Taking a hard look at the art of writing he wonders at careers made and missed through adherence to fashion However fashion and hype are not all In an assessment of the literary scene of the past thirty years Aldridge takes heart in the contributions of such masters as Thomas Pynchon Don DeLillo William Gaddis and Norman Mailer whose distinctive voices continue to challenge and reinvent the culture It is within this context that Aldridge evaluates the new generation of writers while examining the legacy of Raymond Carver and the influence of Ann Beattie Never afraid to diverge from popular opinion he guides us through works of Frederick and Donald Barthelme Amy Hempel Bobbie Ann Mason Mary Robison Louise Erdrich Lorrie Moore David Leavitt and T Coraghessan Boyle and takes an unsparing look at the novels of Jay McInerney and Bret Easton Ellis Witty and refreshingly frank Aldridge entertains as he reveals the talents who will be the bright lights of the nineties

New novels for young readers in/of the 1980s - Narrative strategies and presentation of the novel's world

Michaela Tomberger,2002-01-13 Diploma Thesis from the year 2001 in the subject American Studies Literature grade Good University of Vienna Anglistics American Studies language English abstract When during the 1980s short novels like Jay McInerney s Bright Lights Big City 1984 Bret Easton Ellis Less Than Zero 1985 Tama Janowitz Slaves of New York 1986 or Michael Chabon s The Mysteries of Pittsburgh 1988 became talked about bestsellers in short succession conservative critics were shocked Their rejection of these novels was mainly grounded in the discrepancy between the expectations of traditional literary criticism and the new forms of expression these young authors used The referential matrices of their novels are loaded with signs and codes of their decade images and fictions spread by mass media have become a fixed part in the world of those novels Traditional critics considered such references trite and superficial It cannot be ignored however that popular culture found its way into contemporary literature and critics will have to get accustomed to the fact that in contemporary literature the referential horizon which once was formed by the Bible classical antiquity and the great works of world literature is increasingly provided by popular culture as disseminated by the mass media The fact that these authors were all very young and that they were presented and celebrated like pop stars was for many critics proof that pop industry had finally taken over the literary market and that authors would no longer be measured by their achievements as writers but by their celebrity status determined by media coverage They felt the end of serious literature was near On the other hand there were reviewers whose praise of those novels and their authors was just as undifferentiated as their denunciations by others Fashionable terms from MTV novels to yuppie literature were attached to the novels and they were glorified as highly accomplished expressions of a changed Zeitgeist Despite the great amount of media attention most of the novels have rarely been closely examined The two novels Bright Lights Big City and Less Than Zero will be the focus of this thesis and subject of closer investigation because they were treated as the representative novels for the whole group A broad approach to their subject matter will be chosen in order to do justice to the numerous culture bound implications they contain Does the Writing Workshop Still Work? Dianne Donnelly,2010 This book explores the effectiveness of the writing workshop in the Creative Writing classroom searching beyond the question of whether or not the workshop works to consider alternative pedagogical models The needs of a growing and diverse student population are central to the contributors consideration of non normative pedagogies This book is a must read for all teachers of Creative Writing Quantum Creativity Amit Goswami,2014-03-03 In this mind expanding work physicist Amit Goswami Ph D explores the world of human creativity the ultimate source of joy and fulfillment through the lens of quantum physics and offers up a unique way to nurture and enhance

your own creativity According to quantum physics reality occurs on two levels possibility and actuality Goswami uses this same duality to explore what he calls quantum thinking which focuses on two levels of thinking the conscious mind of actuality and the unconscious mind of possibility He then poses questions that probe the wellspring of creation that exists in each of us What is creativity Can anyone be creative What kinds of creativity are there And through this inquiry he lays out a guidebook for understanding the power of the mind to access creativity in a whole new way Combining the art of creativity with the objectivity of science Quantum Creativity uses empirical data to support this new method of thinking and outlines how to harness our innate abilities in order to live more creatively In short Goswami teaches you how to think quantum to be creative
