**Tales from Bonavista Bay** Feltham, John, 1987      Folktales of Newfoundland (RLE Folklore) Herbert Halpert, J.D.A. Widdowson, 2015-02-20 This collection of Newfoundland folk narratives first published in 1996 grew out of extensive fieldwork in folk culture in the province The intention was to collect as broad a spectrum of traditional material as possible and Folktales of Newfoundland is notable not only for the number and quality of its narratives but also for the format in which they are presented A special transcription system conveys to the reader the accents and rhythms of each performance and the endnote to each tale features an analysis of the narrator's language In addition Newfoundland has preserved many aspects of English and Irish folk tradition some of which are no longer active in the countries of their origin Working from the premise that traditions virtually unknown in England might still survive in active form in Newfoundland the researchers set out to discover if this was in fact the case      *Folktales of Newfoundland Pbdirect* J.D.A. turned the bustling center into a melting pot Artists and writers such as Edward Hopper Winslow Homer and T S Eliot came to the fishing town and found inspiration But the vital life of Gloucester was being threatened Ominous signs were seen with the development of engine powered net dragging vessels in the first decade of the twentieth century As early as 1911 Gloucester fishermen warned of the dire consequences of this new technology Since then these vessels have become even larger and more efficient and today the resulting overfishing along with climate change and pollution portends the extinction of the very species that fishermen depend on to survive and of a way of life special not only to Gloucester but to coastal cities all over the world And yet according to Kurlansky it doesn't have to be this way Scientists government regulators and fishermen are trying to work out complex formulas to keep fishing alive Engagingly written and filled with rich history delicious anecdotes colorful characters and local recipes *The Last Fish Tale* is Kurlansky's most urgent story a heartfelt tribute to what he calls socio diversity and a lament that each culture each way of life that vanishes diminishes the richness of civilization

1951 musician Kenneth Peacock 1922 2000 secured a contract from the National Museum of Canada today the Canadian Museum of History to collect folksongs in Newfoundland As the province had recently joined Confederation the project was deemed a goodwill gesture while at the same time adding to the Museum s meager Anglophone archival collections Between 1951 and 1961 over the course of six field visits Peacock collected 766 songs and melodies from 118 singers in 38 communities later publishing two thirds of this material in a three volume collection Songs of the Newfoundland Outports 1965 As the publication consists of over 1000 pages Outports is considered to be a bible for Newfoundland singers and a valuable resource for researchers However Peacock s treatment of the material by way of tune text collations use of lines and stanzas from unpublished songs has always been somewhat controversial Additionally comparison of the field collection with Outports indicates that although Peacock acquired a range of material his personal preferences frequently guided his publishing agenda To ensure that the songs closely correspond to what the singers presented to Peacock the collection has been prepared by drawing on Peacock s original music and textual notes and his original field recordings The collection is far ranging and eclectic in that it includes British and American broadsides musical hall and vaudeville material alongside country and western songs and local compositions It also highlights the influence of popular media on the Newfoundland song tradition and contextualizes a number of locally composed songs In this sense it provides a key link between what Peacock actually recorded and the material he eventually published As several of the songs have not previously appeared in the standard Newfoundland collections The Forgotten Songs sheds new light on the extent of Peacock s collecting The collection includes 125 songs arranged under 113 titles along with extensive notes on the songs and brief biographies of the 58 singers Thanks to the Research Centre for the Study of Music Media and Place a video of the launch event held in St John s Newfoundland is available at <https://www.youtube.com/watch?v=ghj6E6QiLI0> t 21s Published in English **Canadiana**, 1988-09
