The text is divided into two sections. Part I focuses on the stories of early twentieth-century explorers such as Robert F. Scott and Ernest Shackleton. *Antarctica in British Children's Literature* highlights the impact of children's literature on the expedition writings of Robert Scott, including the influence of Scott's close friend, author J. M. Barrie. The text also reveals the important role of children's literature in the contemporary resurgence of interest in Scott's long-term rival, Ernest Shackleton. Part II focuses on fictional narratives set in the Antarctic, including early twentieth-century whaling literature, adventure and fantasy texts, contemporary animal stories, and environmental texts for children. Together, these two sections provide an insight into how depictions of this unique continent have changed over the past century, reflecting transformations in attitudes towards wilderness and wild landscapes.
