Tales and Lore of the Mountaineers William B. Price, 1963      **Appalachia on Our Mind** Henry D. Shapiro, 2014-03-30

Appalachia on Our Mind is not a history of Appalachia. It is rather a history of the American idea of Appalachia. The author argues that the emergence of this idea has little to do with the realities of mountain life but was the result of a need to reconcile the otherness of Appalachia as described by local color writers, tourists, and home missionaries with assumptions about the nature of America and American civilization. Between 1870 and 1900 it became clear that the existence of the strange land and peculiar people of the southern mountains challenged dominant notions about the basic homogeneity of the American people and the progress of the United States toward achieving a uniform national civilization. Some people attempted to explain Appalachian otherness as normal and natural, no exception to the rule of progress. Others attempted the practical integration of Appalachia into America through philanthropic work. In the twentieth century, however, still other people began questioning their assumptions about the characteristics of American civilization itself, ultimately defining Appalachia as a region in a nation of regions and the mountaineers as a people in a nation of peoples. In his skillful examination of the invention of the idea of Appalachia and its impact on American thought and action during the early twentieth century, Mr. Shapiro analyzes the following: the discovery of Appalachia as a field for fiction by the local color writers and as a field for benevolent work by the home missionaries of the northern Protestant churches; the emergence of the problem of Appalachia and attempts to solve it through explanation and social action; the articulation of a regionalist definition of Appalachia and the establishment of institutions that reinforced that definition; the impact of that regionalistic definition of Appalachia on the conduct of systematic benevolence, especially in the context of the debate over child labor restriction and the transformation of philanthropy into community work and the attempt to discover the bases for an indigenous mountain culture in handicrafts, folksong, and folkdance.      *American Folklore* Jan Harold Brunvand, 2006-05-24
